DISCUSSIONS:

There is more flexibility with internet-based systems opposed to the older wired connects. He presented a spreadsheet that highlighted details of the current system paid and compared it with what could be realized if we accepted his proposal. Mr. Udischas discussed plans to have credit card capability and voice recordings on the Police Station’s main lines.

DISCUSSIONS:

• Communication/Telephone System – Brandon Udischas of STC Technologies introduced Patrick Cupp of First Communications so that he could provide requested information and comparisons of the two company. Patrick provided handouts describing First Communications products and services; he brought a sample phone with him; provided history of the company and stated that they’re headquartered out of Akron but have a local office in Oakbrook. Their focus is solely on providing communications through hosted phone services. He mentioned they would have a technician install the phones and would provide training.
  o Trustee Zupon asked about on-going supports and if there would be additional costs. Patrick said no. They provide the hardware and supports. They may be able to provide remote services and replacement services as needed.
  o Mayor Burgess asked for confirmation of the final phone count as 65; internal dialing (3 or 4- digit dialing for internal calling).
  o Trustee Zupon asked Brandon about the Nextiva quote as it did not include the upfront charges. She asked about Comcast charges for Internet service.
  o Trustee Brewer asked about cell phones, if that was included in the 65 phones. He said the 65 lines is strictly landlines for desk phones.
• Community Power Group – Michael Borkowski provided a presentation on turning some Village properties into a Community Solar Gardens. He explained the process and stated they would lease land from the current owner and would place solar panels on the property. He provided history of a law governing solar in Illinois. He provided the following specifics:
  o The panels would be 7ft tall, with 13 ft between rows;
  o The site is visited twice a year;
  o The power goes into the existing power lines that are there (no need for a substation);
  o The solar facility has a meter on it, it spins to the right, generating credits to the community;
  o Residents subscribe to the garden for a percentage of the credits for discounted power for twenty-five years.
  o Other specifics provided was that a 6ft chain link fence would be erected around the entire perimeter of the farm. Each panel is 7 ft from the ground and is about 3x6. Each row would have 27 panels per string with an overall panel count of 7,000; the company would plant arborvitae trees in front of the fence for the portion that butts up against residential areas; Residential credits are higher than municipal or schools; have 2900 megawatts (2.9 gigawatts) across 100 farms in production today in the US and that the closest farm is in MN.
    o Mayor Burgess asked many questions that facilitated many of the above-referenced discussions.
    o Trustee Grant inquired about the removal of the facility
    o Trustee Zupon asked if the lease includes the corner location, fencing, a road leading to the infrastructure and many more questions of interest to her.

• IEPA Storm Water Compliance – Mayor Burgess reported that there would be a short presentation from Jim Czarnik on this subject and that it is an annual compliance requirement. The presentation will This item will be placed on the agenda for following week’s planned special meeting.

• Recommendation from Ordinance Committee – Trustee Todd spoke on three topics for consideration:
  o Increase in occupancy fees – Trustee Todd stated that Sherry Jasinski had requested the need to raise occupancy fees from $50.00 to $75.00, and $25.00 to $30.00. The committee agreed with the increases.
  o Removal of numbers from roll off dumpsters – Trustee Todd stated that this issue pertains strictly to residents with dumpsters on their properties as they want to make it unlimited so that residents can choose companies according to their needs and desires.
o Trustee Zupon asked if we should consider limiting the length of time the
dumpster can be on site? Mayor Burgess advised that time limits are
already included in the existing Ordinance.
o Trustee Todd discussed an ordinance amending section 18-29 (Fee Schedule) and
informed the Trustees that the Committee agreed with the proposed amounts.
These three items would be listed as agenda items for action at the next Board
Meeting.

• Review RFP for Village-Owned Land - Director J. Wiszowaty reviewed an RFP for Village-
Owned Land in TIF 4. He stated that the Village acquired the land via a no cash bid
approximately 2 years ago and that the Village only paid legal fees. He put together an
RFP – the Village needs to complete an appraisal at a cost of approximately $550, which
is a TIF eligible expense. He indicated several people have inquired about the property.
The question brought forth to Trustees is if we want to sell it or leave it as is, or do we
want to sell it with the intent of it being brought up to code, etc. His recommendation
was for it to be sold as is. He said the building is in decent shape structurally. It did NOT
appear to have any leaks.
o Trustee Grant asked about intentions of those interested, what had they
mentioned doing with it? The reply was that four individuals had great interested
in it – but he (Wiszowaty did not know their intentions. He further stated that it
would be brought back for approval of the Board, and that the at the time was for
approval to submit the RFP. Request for the RFP to be put on the agenda for the
Board to approve; that would get the appraisal started. He provided other
requirements that must be addressed per law.
o Brewer asked for the definition of the C-2 code. It would be provided.
This item would be listed as an agenda item for action at the next Board Meeting.

PUBLIC COMMENT
• Considering the number of questions concerning the Solar Gardens, it was decided to
hear those questions first. The following are questions and answers pertaining to this
topic:
o C. Boetcher asked several questions pertaining to the solar panels: how sturdy are
the solar panels; if broken, how quickly are they replaced; how dangerous would
it be for a child if they got in there and could there be more than one farm in this
area?
o P. Barker asked how soon does savings get realized? Responses: As soon as the
facility is built. What happens after 25 years? The panels have a life of 40 years.
At the end of their lease, the credits go away.
o E. Johnson asked the length of time in business; what is the incentives for leasing
from Vickie White and benefits to the community; what other communities have
embraced these projects? What does the twice a year check-up entail? Who does
the Village contact if there are issues? What's the start date of the project and
how long to implement? She advised that link fences would not be suitable.
Responses: Start date would probably be sometime in November / December to March 2019. Would be a dedicated local contact as administrator for the facility. Low lying grass, so doesn’t get mowed – everything gets monitored remotely. The company (NRG – Community Power Group) has been in business 30 – 40 years (he thinks). Benefits are tax revenue, discounted power (if credits were purchased)

- Debbie Robinson asked if they groom the area? What’s going to happen to the tall brush behind the houses? Responses: NO. Instead of corn, it will be a grassy field. It will stay as is.

- Mr. Elmore (lives on Peterson) questioned his water bill; ceilings collapsing; and why water meters run when the trains come through.

- C. Boetcher commended the first responders for their response to the weather; she stated that she heard we only had one Police Officer on duty that morning; the need to remind people to put garbage in bags before putting into the garbage cans.

**GENERAL COMMENTS FROM MAYOR & TRUSTEES:**

- Mayor Burgess asked for a consensus on paying Accounts Payable – all Trustees present, said YES. A formal vote was to be taken at the next Board Meeting.

- Mayor Burgess announced that the School District would have a presentation for Black History Month at Rickover Jr. High, Thursday at 4:30 pm.

DISCUSSIONS:

- Mayor Derrick Burgess introduced the topic for discussion.
    - Mr. Mitchell spoke of marketing efforts of the insurance program. He stated that he was able to secure two quotes that are suitable for the Village. Chubb and Old Republic were able to provide competitive quotes for consideration.

  Mr. Mitchell spoke of challenges of marketing the program to other companies. He spoke of five claims negatively impacting the Village’s rating. Mainly they are Law Enforced Liability. Though there have been no new claims, the five are impacting. It will take five years to overcome the impact. He presented a display that illustrates the Village is moving in the right direction. He listed the premium claims offered by other companies that were not favorable as the claims caused increases in premium rates. He advised that the Village work to keep the claims at bay.

  He cited that a cost comparison from last year to this year reflected an 8% decrease from last year. It was his recommendation to go with the incumbent company, Chubb, with a higher retention.

- Trustee Brewer questioned the HR position and was informed that Dr. Straughter is paid by the Village through the Owens Group and that she is an employee of the Owens Group.

  Mrs. Wright-Lewis stated that the Village has saved $50,000.00 with the risk management activities to get claims and losses down. She stated the Village secured a grant for $25,000.00 from the Illinois Public Risk Fund to conduct in-house training to control Worker’s Comp claims and to improve the culture so that employees are less likely to go around policy and procedures. The HR position was recommended as a mechanism to decrease overall claims. She informed of her availability to assist with training at no cost.

  This item was placed on the next Board Meeting’s agenda for action.

- Joseph Wiszowaty, Director Economic Development introduced An Ordinance Approving the Dedication of a Portion of 223rd Street for a Public Street. He stated the Village was in the process for repairing 223rd Street with MFT funds. He further advised the Trustees of the “Invest in Cook Grant.” It was discovered that St. James Church owned a portion of 223rd Street. In 1962 there was a small lot dedicated to expansion and was not owned by the Village. He worked with the Archdiocese to secure the Plat of Dedication. The ordinance is designed to clean up the delayed transfer of land. This item was placed on the next Board Meeting’s agenda for action.
• Director Wiszowaty introduced An Ordinance Authorizing the Entry of an Intergovernmental Agreement between the Village of Saug Village and the Chicago Metropolitan Agency for Planning for the Village’s Comprehensive Plan (CMAP). He stated that it should be a Resolution and plans to change the language. The Resolution allows the Village to enter into an agreement for CMAP to hire a consultant at $5,863.10. CMAP will cover any figures over that amount. C-MAP would pay $117, 262.00.

• Trustee Brewer asked where the figure came from as she did not recall that the Village would be responsible for having to expend money. As is, there was a previously stated 5% contribution responsibility by the Village instead of the regular 15%. Once the Board adopts the Resolution, the Village would have 30 days to make payment. Mayor Burgess stated that he was asked the previous week about utilization of a consent agenda and that he would use a Consent Agenda for the three items above.

• Clerk Marva Campbell-Pruitt shared a previously failed set of minutes. She made a special appeal to Trustees to review the minutes to inform her how they were problematic. Trustee Grant mentioned punctuation and lack of continuity of fonts. Trustee Todd mentioned that residents’ names should be included in the minutes. Clerk advised that she comply and that going forth, she would focus on capturing action items and not provide verbatim recordings of minutes.

• Clerk Campbell-Pruitt presented a sampling of FOIA’s for discussion and spoke to how many are filed when: the response for information from a department is not immediate; had already given; was not to the requestors’ satisfaction; or the requestor(s) are being vindictive. She further spoke to the limitations responding to FOIA’s as staff did not respond appropriately; provided misinformation and the number of requests that come in daily. The Clerk appealed to all to be cooperative in responding with the requested information as it delays the process of providing information to the requestor, it involves the Attorney General Office and that we still must respond.

PUBLIC COMMENT - 23

L. Washington stated that she had to respond to a FOIA when she purchased book bags; She stated that Trustees should not have a committee meeting with only one or two members and should not get paid for such meeting and stated it is Trustees’ responsibility to recruit members; and she congratulated the Clerk on having been elected to two offices.

R. Richardson spoke on taxes and the discovery that there is no house listed at 1690 223rd Place. She was asked by the County to communicate this finding to Mayor Burgess.

F. Harvey asked about negotiations with the union. He stated that the Village has a Finance Chairman and Director and asked if they sit in on the meeting? He asked the following questions: If not, why not? Why pay someone $80,000.00?
B. Hopkins asked about Judith Sutfin and a lawsuit regarding misappropriation of funds. She stated that she heard the Senior Committee would be held responsible for the Wi-Fi bill and asked what was being done for residents. The Mayor responded that the list is long what he does and that he was sure the Seniors were not responsible for Wi-Fi.

**General Comments from Mayor & Trustees**

- Tates had no comment.

- Trustee Grant provided notice of the Budget and Finance Committee planned for the following day at 6:30 p.m.

  Trustee Brewer stated that she empathized with the Clerk but that she could not get requested information, so she must FOIA. She stated that Public Services had no minutes, as they have not held a meeting. She questioned why, Dr. Straughter is on Accounts Payable if she is an employee of Owens and that she fears overpayment and double-dipping. She said there is no transparency,

- Trustee Brewer stated that the Mayor gets upset when she grandstands, and that other trustees should do the same thing, if they are to do the jobs they have been elected to do.

2. Mr. James Czarnik provided a second topic for discussions.

   o He described the results of the bid opening concerning the Request for Proposals for improvements to Arrowhead Park for the Open Space Land Acquisition and Development (OSLAD) IDNR Grant. There was one bid received. The primary bid presented was for $510,103.20. This figure exceeds the funds available for the OSLAD program by approximately $200,000.00. The company also presented another bid for $700,327.20, which would increase the scope of the project considerably. He stated that the Village has a deadline of August 2018 to complete the project and would not have time to go back to bid.
      - Mr. Czarnik stated that the scope of the project must be cut to stay within the IDNR Grant’s budget. He recommended that the contract be awarded to D & J Landscaping and informed that the recommended changes to the scope of the project had already been approved by IDNR in the amount of $206,000.00. It was decided that this would be an action item on next Board Meeting’s agenda for adoption.

3. Director Joseph Wiszowaty reviewed bids and proposals for the redevelopment of a Village-Owned property. He provided a summary of the scoring from proposals received and made a recommendation to sell the property to Mr. Nabil Abuzir. It was decided that this would be an action item on the next Board Meeting’s agenda for adoption for Approval and Authorization for the Mayor to Enter into a Sales Agreement with Nabil Abuzir.

Director Wiszowaty reviewed the Request for Proposals for grass mowing of vacant lots (IHDA Grant). He spoke on the $75,000.00 grant from IHDA and informed the Trustees that the Village took a different approach on how to implement the program. He stated that he is currently researching properties legally vacant. He provided the following specifications:
   o The grant is implemented on a reimbursement basis, whereas the Village pays the funds and would be reimbursed.
   o Public Works would not be cutting the identified properties, there would be RFP’s and the company would be responsible for those properties.

It was decided that this will be an action item on next Board Meeting’s agenda for adoption.

**PUBLIC COMMENT**

J. Cast spoke on the following:
   - she has not been provided the requested information on Dr. Straughter’s background;
   - Sauk Village does not have money to afford HR services. One month the cost was $6,000, another it was $9,000.00;
   - she thought the Village would not need a Village Manager, yet we are paying for contractual services and the Lawyer is also charging; and
• she asked the Trustees to think twice before agreeing to expend these funds.

L. Washington stated that the previous comments were travesties, she expressed concerns with the amount of monies paid for HR services. She shared that the lights were turned off on her and another Trustee as they were talking in the Rotunda after the meeting. Lastly, she asked the Trustees to vote and support the residents.

F. Harvey stated that people voted the Trustees in, and will vote them out.

N. Griffin questioned water and sewer issues. He asked, “What do we have to do to get Lake Michigan water” and “if we had reached out to other Villages to compare prices concerning their sewer and water systems?”

DISCUSSION AND COMMENTS OF THE TRUSTEES AND MAYOR

• Trustee Brewer read a statement on the increased $8,000.00 fees for the Treasurer and decreased wages of the Finance Director. Trustee Brewer cited state Statutes that address procedures for providing increases to staff. Trustee Brewer asked that the statement be included in the formal minutes. She also provided invoices paid for HR Consulting and spoke on the items for which the Village is billed. She asked the Trustees to review the documents to view how the Village is being charged and expressed concern that the Village were billed by the Owens Group and Dr. Straughter simultaneously. She questioned why the Village would hire her when the Owens Group terminated her because of the billing practices.
  ○ Mayor Burgess reminded the Trustee that some of what was mentioned was discussed in closed session and that it is inappropriate to continue dialogue in an Open Meeting.

As the meeting lacked decorum and became contentious, the Mayor asked for a motion to adjourn the meeting with a Roll Call Vote. Trustee Brewer moved and Trustee Tates seconded a motion to adjourn the meeting at 8:00 p.m.

Listed below are questions and discussions from varying Motions isolated in this section to encapsulate Trustee Comments without loss of focus on the outcomes of the action items:

11a. Trustee Brewer spoke to item 11 a and asked if the Owens Group insurance is a loan, and if so what are the installments? She stated the amount paid to the Owens group ($5,000.00) and for HR Consulting ($3,000) yet, that the Village continues to pay attorney fees

Trustee Brewer questioned other items on the Accounts Payable. She addressed the following pages, 2, 3 and 6, i.e., concerning the cost charged by the attorney to respond to a FOIA request for water main information, the feasibility study and the plan review for the gas station.

The Mayor explained the funding to the Owens Group, negotiations and professional services, attorney fees and the plan review.

Trustee Zupon addressed a question posed earlier concerning billing for the HR position. She stated that $85.00 per hour is indicated for total hours, not individual days. The invoices entertained 14 hours of work, 14 ½ hours and 11 hours. She advised that every invoice goes to Mayor for review prior to a check is presented for accounts payable.

11b- Trustee Brewer commented that research shows that the rates have increased since 2006. The funds are co-mingled with the water fund. She is fearful that the funds have not gone to improve the sewer systems. She asked to whom should she speak for discovery. Though the Mayor was uncertain, he stated for now, the funds will be separate to fund items put before the Village to start the mandated actions needed. She asked if the funds are delineated according to the individual funds and what has been done to improve the sewer system?
Trustee Grant sought confirmation that there will be a separate fund established on the General Ledger for the funds received from the raised sewer rate. He stated that the average water rate will rise about $5.00, every two months.

11c Trustees Grant and Zupon sought assurance that there will be a written agreement that the company would not seek additional funds not provided by the grant.

11g Trustee Todd stated that the “Statement of Work” for the Human Resources position was revised. The maximum budget was in the previous plan presented, now the total cost was removed, and the dates were changed. She offered that she does not believe a HR is needed, as it is too costly. She stated that the Employee Handbook, that was done by HR is not accurate and if it is indicative of the work product, she is not impressed.

Trustee Brewer stated that there is no ordinance to establish the HR position so the Village is operating outside State Statute. She reiterated that we are paying the attorneys as well and to let them do their job.

Trustee Zupon stated that she believes that a HR person is needed. Was not thrilled with the content of the invoices, but the need is beneficial. HR has a role in the Village.

Trustee Brewer expressed exception with the language, “with Mayor’s approval” should be replaced with the Mayor and advice and consent of the Board.

General Comments from the Mayor and Board of Trustees

- Trustee Brewer stated that on the Agreement, the Mayor and the Board should be the language of the day, not just the Mayor.
- Trustee Todd - No Comment
- Trustee Tates – No Comment
- Trustee Zupon stated that she reviewed the material provided by Trustee Brewer to conduct research about changing salaries and that she does not see any improprieties.
- Trustee Grant - No comment

CORPORATE AUTHORITIES

Sauk Village, Illinois 60411
(708) 758-3330

The special meeting was called by Mayor Derrick Burgess of the Village of Sauk Village. Notice was issued in accordance with the Illinois Open Meetings Act.

Call to Order

The Special Meeting of the Corporate Authorities was called to order promptly at 9:00 a.m.. by the Honorable Mayor Derrick Burgess.

Present: Trustees Todd, Brewer, Tates, Zupon, and Grant (arrived at 9:04 am). Trustee Todd left at 12 noon.

Others present throughout the meeting: Treasurer Judy Sutfin and Economic Development Director Joe Wiszowaty. Also present for their timeslots were Fire Chief Stoffregen, Police Chief Kowalski, Public Works Director Weller, and EMA Director Vavrik.

Absent – Trustee Carter & Clerk Campbell-Pruitt

Mayor's Comments

1. This proposal represents a balanced budget. This means any additions to expenses need to have revenues to offset them.
2. The revenue estimates are more reflective of actuals than in prior budgets.
3. With a more realistic approach to revenue streams, expenses needed to be reduced. Every department wanted more money, but our revenues could not afford it.
4. This is a policy document.

- 9:00 am - Fire Department – Chief Stoffregen started at 9:05 am.
  - Chief Stoffregen commented about money under uniform & clothing being eliminated.
  - Major / mandated items are replacing the breathing tank regulators (160k) and bunker gear (which he cut down to 10 sets @ $35k) – both are Govt required (OSHA). In talking with the Treasurer, this was removed because of a grant application that was denied. The Chief asked the Board to put it back in. He asked about what's left in his budget that he could use towards this (including what was left from the firetruck they sold). At the end of the fiscal budget, he thought what was left over goes back to General Fund, which he disagrees with (he believes it should be used toward the next budget).
The Chief voiced concerns about the Fire Department’s parking lot; it needs attention. He’s very concerned about getting sued by someone getting hurt.

Radios (changing signals) are another issue (2 grant applications were denied); the Chief thinks we have a year or two to comply with the radios (TV band going away as of 2021). Police Chief Kowalski commented that the Police Department already has access to the correct band, but the Fire Department does not (each Motorola radio is ~$7500). The Treasurer indicated that for the past several years, the Fire Department has operated at a loss. This current fiscal year is also forecast at a loss of approximately $106k. Sale of the Fire Truck is owed $20k which needs to be replenished (the funds were used elsewhere), which could be used towards these needs. The Mayor commented that other communities are working together with Motorola to get a deal on radios.

Chief Stoffregen disagreed with the Pension Fund contribution being included in with his budget; the Treasurer said it’s all the Village’s budget to fund, that it is in the correct place. The Treasurer and the Mayor both said the Village must start contributing towards the pension funds.

Discussion turned to grants: FEMA reimburses (the overall commitment was $75k for a total of 5 years), $15k for 5 years each for training. Consensus from the Board was that grant money should not be included in the budget as a revenue source until received (in case they are denied). The Treasurer said one of the changes this year’s budget is the addition of budget sponsors for each of the revenue streams, who will be accountable for watching them throughout the year. Trustee Brewer asked about moving money from the water fund, does it have to go through the General Fund? The Treasurer said she believed it could go direct but could go through the General Fund if needed. Trustee Brewer asked if it would be returned to the water fund – The Treasurer said expenses would have to be cut if we want to replenish it. Trustee Brewer also asked about repaying on the firetruck; Chief Stoffregen said we still have a way to go (2007C Bond). Trustee Zupon and the Mayor both reiterated what The Treasurer said – revenues from last year’s budget were higher than what was received by over $600k. The Treasurer said when last year’s budget was put together, the books hadn’t been closed for 3 months, so we didn’t have good information to begin with.

Trustee Brewer asked about the “Fringe Benefits IMRF & Other” category, the Mayor said it may be Rich Atwood, but they will check with Finance Director Rao. Trustee Grant asked if anyone individually contributes to the pension, the Mayor said no, the Chief only gets a salary.

Trustee Brewer wanted a list of the Fire Department salaries to see how the $204,958 is being broken down. The Mayor said she can see but not copy the information because it is considered confidential HR records. Chief Stoffregen got all his 10/50 collections (those funds go directly to the Fire Department). The Mayor said he doesn’t want to include that as a revenue stream because it isn’t a set amount. Trustee Zupon said the 10/50 money shouldn’t be included as a revenue source, should be removed from the budget and set up as a separate G/L so it can only be used for Fire Department purposes. The Treasurer said she’d have the Finance Director add the g/l for the 10/50 money. The Treasurer mentioned that the department heads receive a monthly report (since January 2018) letting them how they are doing vs. the budget. In summary, the Fire Chief had 3 major concerns: $160k for SCBA (Self Contained Breathing Apparatus) Breathing Tank Regulators (almost $7k each, must have by 2019), $35k for 10 sets of bunker gear, and money for Radios ($7500 each, need approx. 20 radios).

5 MINUTE BREAK

10:15 am – Police Department – Chief Kowalski started at 10:15 am.

The Chief said they do have a couple of revenue sources they can use: the Tow Fund, the Federal Drug Seizure Fund, and Asset Seizure fund. The State Drug seizure fund is much
more stringent in what it can be used for. They’ve been able to use some of those funds for purchasing cars. The Department still has some older vehicles that need replaced (which is why there is some money in vehicle maintenance). The Chief’s biggest concern is overtime.

- The Chief reported on Uniform Crime Report (UCR) numbers: for 2017, Sauk Village had 254 of those reportable crimes. At 104 through April 2018 – if the trend continues, the Village will exceed last year’s number.
- To curb overtime, the Chief is looking to hire Detention Aides. Since there are no dispatchers, currently he is using officers to watch prisoners – which causes overtime. Paid on call Detention Aides would be $15 / hour, which would cut some overtime. The Chief asked to replace 3 officers but understands the budget is tight. The Chief said he is considering part time Officers but knows their focus would be their full-time employer. The Chief said the ideal scenario for part time Officers would be retirees. The Chief added that the biggest shifts to cover are afternoons and overnight. Trustee Brewer asked about improved scheduling – the Chief said he can only do so much with the 12 officers, 5 sergeants and 1 detective on the Force.
- The Chief mentioned vests have a 5-year lifespan (level 3); the Department receives a half match grant each year from the U.S. Bureau of Justice. Trustee Brewer asked about the uniform & clothing budget; the Chief said it does include vests (per contract).
- Trustee Brewer asked about the 3 vehicles, how they’re being paid for – Chief Kowalski thought his 2 were paid off. The Treasurer said there’s a loan with Old Plank Bank to cover the 3 cars. The Treasurer said she would follow up on the length of the loan.
- Trustee Brewer asked about how many Paid on Call people the Chief’s looking to hire; he responded to say up to 10 (they’ll buy them shirts so they’re uniformed). The Chief added they could potentially expand their duties if they work out well. Trustee Grant asked about them being CPR certified, the Chief said they will be looking to have them trained in certain things if they aren’t already certified. The conversation came up about lack of AEDs at the Police Department and at Village Hall (the Chief said they call for an ambulance if needed). The Chief brought up the “Refunds on Security Details,” he said the schools had talked about having the Department provide a resource for this but he’d need to hire for it, so he’s not really considering it (he added that the Village would have to enter into an agreement with the school district). Trustee Grant asked about Falco, the Chief said he only has a few more years and commented that purchasing a dog is one way we can use the drug seizure funds. Trustee Brewer asked for a list of the Police Department fleet, age and condition of all the vehicles. The Chief said they have 2 new detective vehicles, 4 new police vehicles, 3 older vehicles (early to mid 2000’s). In summary, Chief Kowalski’s major concern is staffing.

- Since there was time between the Police Department and Public Works, Treasurer Sutfin and Economic Development Director Wiszowaty started to discuss the other various components of the Budget that fall under the Finance Department.

Elected Officials (Page 43)

- Increase in printing is associated to the Code Book.
- Trustee Grant asked about $500 for Student Govt Day – the Clerk asked for this to be included.
- Trustee Brewer asked about the $1k for the Senior Committee.
- Codification of the Code Book was asked about how it’s being funded (which line item).
- The Mayor asked about printing – where is paper and ink coming from that the Seniors are using? Trustee Brewer said they’re using the Village’s paper.
- Conversation ensued about whether all the Committees should have money in the budget. Trustee Zupon & Trustee Todd said they believe the only thing to be concerned about is the Codification funding. Trustee Todd said she feels the attorney’s fees should come out of
Professional Services instead of her budget. Trustee Todd asked about the Senior Committee's balance, how much is there versus the current year's budget – did they receive the $1k from the current budget or would they lose those funds? Trustee Brewer asked about how to do printing going forward if the budgets are cut? The Mayor said the Committees / Trustees should bring proposals to the Board and ask for approval. The consensus of the Trustees present was to eliminate the Committees and Student Government Day budgets. Trustee Grant brought up the Clerk's request from Tuesday night's Board meeting (her proposal for a paid Deputy Clerk; the consensus was to not fund that position.

- **11:30 am – Public Works Department** – Director Weller started at 11:30 am.
  - Public Grounds & Buildings (Page 44) - concerns are the AC unit & Boiler at Village Hall. Director Weller said we're likely to spend all the budgeted amount in repairing Village Hall. The Mayor said to leave the budget as is and come back if they need more than the budgeted $7k. Director Weller said construction supplies are also a concern, especially with Parks and equipment (thinks it may be closer to $5k). He said he's tracking a list of items that need to be completed, but they often get pushed off due to other pressing issues. He added that he's working on a 5-year plan. He commented about the Department's mowers: they purchased a new mower in the current budget; oldest mowers are from 2000 & 2001, so they could encounter motor issues somewhere along the way. Director Weller said he's willing to live within the budget and will bring issues forward as they arise.
  - Streets (Page 47) – Director Weller said this is a lease & fuel costs.
  - Parks & Playgrounds (Page 48) - Director Weller said the OSLAD Grant will be gone after this component is completed.
  - MFT (Page 52) - Director Weller said he is concerned with operating supplies (salt - $24k). Also, the construction amount ($55k) with Lincoln Lansing Ditch pipes, if there are issues, they're ours to fix. The Department would have to dredge out the area (with 3-inch rock). 223rd Place & Chappel has a curvature in the ditch, they must get in there this year to resolve; asphalt patching, etc. Concrete work (streets & curbs). Construction ($259,030) is this year's street work. 223rd has an issue with settling and sidewalks sinking. Director Weller commented that we need to keep a close eye on CDBG funding. He said 221st / Shirley / Paxton loop are all on the list to be considered. He added that Federal funds were requested but denied (were told the streets were not Federal, so wouldn't qualify). Director Weller mentioned the 223rd St project will impose on the School's property for ADA compliant ramps/sidewalks. A discussion ensued about who should talk to the School about this topic. Trustee Brewer asked when the MFT audit was last done; Director Weller said 2 – 3 years ago.
  - Water Fund (Page 59) - Director Weller said construction supplies are a concern; the $70k is more realistic but still a concern. He said that to save labor hours, valve replacements have become a 2-day project. As hydrant flushing takes place, the Department is finding more hydrants with issues, so they are completing valve replacements where they can. Director Weller said they will probably need more money for valves and hydrants. Director Weller added the Village has been averaging fewer water main breaks than in the past. Trustee Grant asked about raising water rates – the Mayor said the only reason to increase water rates now would be for Lake Michigan water. Director Weller talked about equipment repair & vehicle maintenance; the Department has older trucks that will need repairs (1990 dump trucks, the dumps need repaired), so those numbers may need amended. Trustee Brewer asked about the $50k for professional services, Director Weller said it's mostly Robinson Engineering. Trustee Zupon asked about the $25k vehicle, he said it's the same as was requested in the current budget, he's still asking for it.
  - Sewer (Page 61) - Director Weller said tools & equipment may need to go up $2k as a hose needs replaced ($2500) plus nozzles (~$300 each), probably closer to $3k when he's ready to purchase parts. The Treasurer mentioned that part time wages were merged into the regular (full time) wages line item. Trustee Brewer asked about transferring $316,030 from the Sewer
Fund to the General Fund, if this is a loan? The Treasurer responded to say this is an operational transfer. Trustee Brewer asked about the sewer rate increase (for the IEPA loan), the Treasurer said it's included in the utilities fees number.

- Since there was time between Public Works and EMA, Treasurer Sutfin and Economic Development Director Wiszowaty started to discuss the other various components of the Budget that fall under the Finance Department. Economic Development Director Wiszowaty and The Treasurer started at 12:32 pm.
  - Utility Tax Fund (Page 63) - The conversation started with talking about the bond for the telecommunications equipment that is not being used because of the agreement with CalComm (this obligation extends until 2028). For clarity, it was stated that these are the water and sewer utility tax funds only, as the remainder go directly to the General Fund.
  - CDBG (Page 64) - The Treasurer said we applied for CDBG funds; will wait to see what we get. Will amend the budget if needed when funds are received.
  - TIF 2 (Page 65) - Economic Development Director Wiszowaty said this TIF is contiguous with TIF 3 and transfers over.
  - TIF 3 (Page 66) - Economic Development Director Wiszowaty said the transfer to the General Fund is the Village's administrative fee (which we receive in November). We anticipate a balance this year that will offset the net deficit of $420,703. Trustee Brewer asked about the Invest in Cook Grant, Economic Development Director Wiszowaty said once the grant is received, we can amend the budget. Trustee Brewer asked about the reserve, Director Wiszowaty said it's coming from TIF3. Director Wiszowaty said the way the ordinance is written, the revenue goes into the TIF pot, the bonds get paid first, the Village gets an administrative fee, the rest gets split 90/10 and goes into the reserve fund. Trustee Brewer asked about improving blighted areas surrounding the TIF. Director Wiszowaty said you can only improve what's in the TIF. Trustee Zupon asked about the water main replacement under Rt 394 – could TIF funds be used to pay for that? Director Wiszowaty said it depends, would need to negotiate with the Developer.
  - TIF 4 (Page 68) - Economic Development Director Wiszowaty said we are anticipating slightly lower property taxes this year.

- 1:00 pm – EMA Department (Page 46) – Director Vavrik left at 12:57 pm due to a call for assistance before he could go through his budget. The Treasurer read his notes.
  - Payroll: his budget has been cut in half; he expects no new staff.
  - Uniforms & clothing: he wanted to spend $500 (only spent $100 this year), wants fuller uniforms. The Mayor said he already has uniforms in the basement of the Police Department. The Mayor said if he recruits, he can revisit at that time.
  - Vehicle Repair & maintenance: Director Vavrik is concerned it won’t be enough.
  - Professional development: he’d like more to attend courses both the State and Fed offer (wants $1,200). The Mayor would like to see what exactly he wants; he should bring details before the Board.
  - Other rents & leases: Gerald still has the computer that is supposed to be in Director Vavrik’s car. The Treasurer said she’ll follow up with Mohan on what the lease amount represents. The mayor needs to chase Gerald.
  - Director Vavrik returned from the call for assistance at 1:15; we reviewed our conversation with him. The Mayor asked Allen to do whatever he needs to do to get those uniforms cleaned to see what can be used. Allen said he feels like his department is looked down upon until they’re needed. The Mayor said he should bring that up at the Department Head meetings. Director Vavrik said he feels like the Police Department & Fire Department should contribute to his budget; the Mayor again said he should bring that up to the Chiefs.
• 1:30 – Finance Department – The Treasurer started at 1:30.
  • General Fund (Page 42) – Trustee Grant asked if we will be okay with the June 1st payments due; the Treasurer said we have that money. The Mayor said the State has talked about consolidating Fire Departments and Police Departments, since paying each individual department is paperwork for them. The Treasurer said maybe we should consider being the hub for something – but need the leadership to support it. Trustee Grant asked the Treasurer if she knows of other communities doing this (the interfund transfer write-off); she said she’d ask the attorney. Trustee Brewer asked if we got the rate we wanted for the warrant. She wanted to know how we spent the proceeds of the warrant; Trustee Grant said it’s on a separate tab. Trustee Brewer also brought up the sewer rate increase along with the previous increases.
  • Audit & Insurance (Page 49) – we hope to someday have the insurance amounts decrease. The higher rates are reflective of our experience. The Treasurer will have Mohan provide additional breakout for the insurance amount.
  • Police Department & Fire Department Pension Funds (Pages 71 & 72) – the Treasurer reviewed both pages with the Board.
  • Parks & Playgrounds (Page 48) – The Mayor said he wants to hire a part timer to establish programs. If they are successful bringing in programs and grants, we can move them to full time.
  • General Fund Revenue Detail (Page 40) – Economic Development Director Wiszowaty covered this page with the Board. Trustee Grant asked about the reasonability of some of the revenue streams. Director Wiszowaty said the business licenses added a late fee to encourage timely payment. The Village has 2 active video gaming (Tequila’s & Hometown Gyro) with 2 pending (Angie’s & Sherry’s). From a Liquor Licensing perspective, the Village has 1 (Tequila’s) class A active “Bar.”

Trustee Brewer asked what the bottom line is. The Treasurer said page 33 spells out all the major funds.

The Treasurer said the only changes she has is taking out $89,200 security detail revenue and reduce the expenses by the same and take $8,500 out from the Elected Officials budget. She will look at page 30 of the existing budget to see if she can amend the format of page 33 in the proposed budget. She said she will get an updated document to the Board next week.

The Mayor concluded by saying we’ll have a month to review; the Public hearing is scheduled for Tuesday, 12-June. We’ll move the Board meeting to Wednesday, 13-Jun.

Meeting adjourned at 2:53 pm.

DISCUSSION ITEMS

- **Trustee Rodrick Grant**

  - Trustee Rodrick Grant, Chairperson of the Budget and Finance Committee presented and reviewed the proposed Financial Policies and Procedures. Trustee Grant stated that there are no new positions that would be created but that responsibilities may be delegated by the Mayor including designating an individual to assist in the preparation of the annual budget like has been the case for many years. The document was referred back to committee as there were so many questions and comments. Further review will be discussed later before passage of the policy and procedures.

- **Director Joseph Wiszowaty**
  - A Resolution Supporting, Approving of, and Consenting to an Application by Three Star Realty, LLC for a Class 8 Designation for *Surreybrook - Abuzir Development* Pursuant to the Cook and Will Counties Real Property Assessment Classification Ordinance, as Amended

  - Director Joseph Wiszowaty presented and discussed a proposed Resolution for a Class 8 Property Tax classification for the old laundromat and cleaners on Sauk Trail. He presented handouts and a chart earmarking proposed changes to the building facade. This property was purchased from the Village by Tony Abuzir when the Village issued a Request for Proposals. A Class 8 would reduce the properties assessed value from 25% to 10%, the same as residential. Mr. Abuzir will likely spend $100,000 in improvements to the old abandoned building. Currently the vacant building pays zero in property taxes and the sale puts the building back on the tax rolls. The Village should be able to close on this property as soon as next week. The sales price was $40,000. The Resolution supporting the Class 8 tax classification will be on the agenda for approval at the Village Board's next meeting.

  - Director Wiszowaty presented two resolutions requiring action at the next Board Meeting. As the items were not included in the agenda, the Mayor announced a Special Meeting for Friday, June 8, 2018 at 7:00 pm to discuss the two resolutions.

- **Trustee Bernice Brewer**
  - Republic Services

  - Trustee Bernice Brewer stated during her discussion of the Village's contract with Republic Services for garbage service that she has documentation showing Republic owes Sauk Village $22,000 for over billing. Brewer stated that she believes that there has been no reconciliation of vacant homes and services invoiced to the Village since 2015 to September 2017. Brewer further continued stating that she would like the Village to bill garbage bills on months when water bills are not due which would require the Village to
provide double billing service. Trustee Ronald Carter said that the only way to get a true accurate count of vacant homes is to physically count each home. Mayor Derrick Burgess advised that the Village entered into a 10-year extension (14 years in total) of the garbage service contract before he had become Mayor, that this contract calls for annual increases of three percent (3%) and that both Republic and the Village reconcile their pickup lists regularly. Discussions by Mayor Burgess and the Trustees ensued. There will be no board action at the next meeting regarding these discussions.

**PUBLIC COMMENT**

J Cast inquired if the treasurer worked on the budget and stated the budget should be revisited because of errors. She asked why copy drafts and revised copies were in color; and noted that revisions should include only revised pages. Ms. Cast asked which officer would be terminated as currently, there are fourteen officers, yet the current proposed budget showed thirteen.

P Couch asked the following questions:
- name of the university attended by Dr. Straughter to obtain her degree;
- if she is licensed and bonded; if she passed a background check; and
- how many contracts had she successfully negotiated?

J Clark asked if everyone is billed the same garbage bill rates? She also asked why all resolutions were not included on the agenda?

R Richardson asked the following questions:
- if Sherry J.‘s situation was resolved;
- if we still owe $25,000.00 for taxes;
- if Aging reports can be published;
- if the Garbage Bill could be divided by the number of residents and charge one flat rate;
- how much, if any, is left in the water fund; and
- if Dr. Straughter is still working on contracts with police?

R. Lupian committed on the letter given to Sherry and stated it was most unprofessional and was personal. She spoke of the Mayor using the police car when other officers are riding cars without good equipment.

H. Parker asked if we still had a Housing Committee or Commission, and if not, why is on the website? She also spoke on the poorly written letter.

L. Washington commented on behalf of the Sauk Village for Informative Dialogue Committee. She asked why staff are belittled. She further reported her inability to: 1. speak to the Mayor for the entire year; 2. safety of businesses and 3. the resurrection of Neighborhood Watch.
B. Hopkins stated the need for presenters to change their position of reporting and to speak forward rather than having their backs to residents.

Trustee Brewer stated that it being the first of the month, she asked for the code for the copier. She also asked the following questions: “why were the comments section discontinued and why Trustees were not notified of the water bill error?”

Mayor Burgess announced the Budget Hearing scheduled for Tuesday June 12th and stated there would be no Board Meeting on that date, instead it would be rescheduled for Wednesday, June 13, 2018. He then called for a motion to adjourn.

Trustee Brewer moved the motion and Trustee Todd seconded it. The vote was unanimous to adjourn the meeting at 8:56 p.m.

Spoke of negative comments towards her despite the loyalty towards the Mayor. She affirmed that she would not

She had many more questions: if the Mayor drove a police car on a regular basis, and if so, Why?; what happened to the $250,000.00 and if it was repaid; where to find employee payroll and benefits information; if there were checks and balances where finances are concerned and if Director Wiszowaty had control over funds; and if new information was available on Suffin towards her litigation and the bankruptcy for which she was involved?

Public Comment:

L. Washington informed the Board of Trustees of the Back to School Book Bag Program with hopes of providing 500 bags. She provided written information on the donation processes. She advised that she would be seeking two tag days.

Durowade spoke of two concerns. One, police went on her property in the middle of the night and placed a ticket on her car for not having a vehicle sticker. She stated that the Circuit Court deemed it illegal. She also wanted to know how to appeal the decision and asked how to be reimbursed for court costs.

R. Lupian spoke of the firing of Sherry; a member of the administration who violated a resident on Facebook; she asked about the termination policy; and she mentioned inconsistency between church and business life.

M. Escobedo discussed the actions of J. Wiszowaty; mentioned comments from campaign promises; and asked the Mayor what the consequences for his (Wiszowaty) actions were.

K. Boetcher stated that her observations are disturbing. She cited that the disrespect from Trustees and J. Wiszowaty are appalling, along with that amongst the trustees. She stated that funds for equipment needs of police should be included in the budget and should not have to wait for grants.

J. Cast stated that FOIAs presented May 5th and May 15th were unanswered; that she has seen FOIAs signed by Human Resources and that that office should not be answering requests. She questioned HR payment on Accounts Payable; the hiring of this position has not offset costs as the Village is paying her and the attorney.

P. Couch spoke on concerns with FOIAs and a letter sent by HR; she advised that they have been submitted to the Attorney General’s office for review; she asked about so few Committees and no Sauk Talk. She questioned what had happened. According to Ms. Couch the Social Media Policy has been violated and asked what would be done about it.

Z. Ayres shared response to a recent FOIA regarding job description for Economic Development. She stated that the current director does he have the minimum requirements of a BS Degree, field experience, knowledge and training, in business as required. She stated that he lacks the knowledge to govern village policy or business.

PUBLIC COMMENT
L. Washington applauded Director Rao for an outstanding job done with the Village’s financials and stated that he is a valued employee. She stated that she received a denial letter for the proposed TAG Day to raise funds for book bags because she lacked proof of a 501 (c) 3 status that was pending. She shared that there will be a
letter in the bags informing parents of the obstruction. She stated that the Village has not planned activities for the students.

H. Parker spoke to her: disbelief of not allowing Tag Day; surprise with the lack of the Neighborhood Watch Program; disappointment that the CN Rail fund payments lacked documentation and asked how they were approved without invoices. She asked if the checks had cleared.

P. Couch distributed an e-mail correspondence from M. Klopp forwarded from A. Straughter and asked if she is the FOIA Clerk, and if so, did she have training? She stated the time sheet does not reflect or match her responsibilities. Ms. Couch informed that she attended a meeting for Police and Fire Pension and found that Ms. Sutfin was not bonded, and asked if she should be? Mayor Burgess stated that she is indemnified by the Village’s insurance company.

M. Wilkerson stated the neighborhood picnic was excellent and that she met a lot of neighbors. She complimented Clerk Pruitt on the E-Blasts. Regarding the Book Bags, she asked if the Village could assist to bring this forward, though the 501(c) 3 was not evident. She reported trees/bushes had not been cut at a house near her.

M. Escobedo spoke regarding Social Media and asked why Joe had not been terminated as was Sherry. She advised trustees that as treasurer she was told that she had to be bonded, and asked why not Mrs. Sutfin?

J. Harvey asked about Accounts Payable listing two bills for Comcast and the payment to ADOBE.

R. Lupian apologized for bringing up religious matters. She said that she went to the Pension Board meeting and that liquor licenses fees should go to the police fund to replenish funds. She mentioned that the Director of Economic Development had no credentials.

C. Boetcher asked about Operational Transfers and asked for the response to the question and outcome of the investigation.

  o Facebook E-News page’s statistics were very impressive and invited others to join the page to aid in improving communication.
  o The E-News email system is in operation and asked others to sign up for that page.
  o 2020 Census requires volunteers.
  o Shared information about the Resource Table and announced the Candidates’ Forum to be sponsored by the Village.

• Village Engineer – Jim Czarnik
  o Provided information on the decision not to partner with Pollution Control Board.
  o Provided information on the Cook County Grant for $200,000.00.
    – Trustee Brewer asked who the decision makers were to make the determination not to partner with the Board. Trustee Brewer asked the steps that the Village can take to prevent contamination of the water system and was told that pre-wetting roads prior to salting the street and calibrating the vehicles would help. She asked for the plan in writing. Regarding the Grant for 221st and Shirley, she asked about the award letter and was informed that there is no letter, there is a booklet that describes the projects that were approved and that $200,000.00 is listed in the booklet for the Village.
    – Trustee Grant asked where we stood with the Oslad Grant and was told that it is complicated as the contractor sent a letter stating they were no longer interested in the project. He asked about the consequences and was told the company had ten days to enter a response or they would default on the bid bond that goes to the Village.
    – Mayor Burgess stated that attorneys must be involved, as we did not complete the project and it would cost the Village as we must reimburse the State. The litigation would need to be borne by the Village as it was not part of the grant. The Bond is the funds the contractor put up. It was for $50,000.00. The $85,000.00 had to be paid back. Trustee Zupon asked if we could argue that we are in a pre-ready state as we had placed the site in a shovel-ready state. Mayor reiterated that it will take 3 - 4 cycles before we can apply for that grant again as we were in default, though no fault of our own.

• Treasurer’s Report – Ms. Judy Sutfin reported that the Annual Treasurer’s Report was completed and mailed to each trustee. It had to be filed in October. However, it was presented to the clerk’s office three months early. The report was also published in the Newspaper according to regulations.
  o Trustee Brewer stated that they never got a response about Operational Transfers from the attorney as requested, and stated because other municipalities have done so, she preferred that we follow state statute. She stated that it is unusual that we spent time and funds on the attorneys to provide information already known.
  o Treasurer Sutfin spoke of two separate transfer options. She indicated that there are Advances Transfers between funds with intent to repay and Operation Transfers that do not require repayment. There is nothing in statute that state that permit or prohibits Operational transfers. She further stated that Trustees must pay back advances or develop a resolution
to forego repayment. Trustee Brewer stated funds from the water fund and the Police Pension must be repaid and reiterated that a copy of the disposition was requested from the Attorney not just the Treasurer. The Treasurer made it clear that it is not the custom of the Village to borrow funds from the Police or Fire Pension Funds.

- Mayor Burgess made an attempt to clarify how funds were transferred and repaid, if needed. Trustee Brewer asked the Mayor for a copy of the treasurer’s indemnification from the insurance company.
- Trustee Zupon called a Point of Order to continue with the meeting agenda.

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING

First Communication Billing Increase
Mr. Patrick Culp made a return visit and provided an update of the First Communication billing as it was costlier than what was projected and approved by the Trustees. He stated the increase occurred since the company’s initial site visit at the locations and undiscovered situations were found. There was a difference of cost at $77.82 monthly because of a difference in the phone count, at the police station, and the recording devices required by the police department, along with the systems required for the doors at the police station. He reported that, though different, First Communication would absorb the difference in the price. He stated that we must address and update the form with the line items. Once that sheet was signed, no additional dollars would be required by the Village. No further action required.

Discussion of a Resolution Supporting a Class 8 Tax Incentive
Director Wiszowaty made a presentation in support of granting a Class 8 Property Tax Incentive for Lenny’s Gas N Wash to be located on the Northwest corner of Sauk Trail and I-394. He discussed the positive outcomes to be noted by the construction of a 12,000 square foot fuel center at that location, citing the Village would realize sales tax, business tax revenue and property taxes as a result of offering the incentive. He further provided details of a class 8 incentive. He asked the Board to approve the resolution to be presented at the following Board Meeting.
Trustee Todd asked if the other Taxing Bodies would benefit from the funds from the TIF?
Trustee Zupon and Dir. Wiszowaty stated that the property taxes, sales taxes and business license revenue would go to the Village.
Trustee Brewer asked about the length of time for the TIFs, and when would the residents benefit?
Mayor Burgess asked that the Resolution in support of the Class 8 Tax Incentive be an action item at the Board Meeting.

**Automatic Data Processing (ADP)**
Mayor Burgess asked Trustees if they had additional questions regarding ADP. He stated only a few Trustees had asked questions as requested. He distributed a hand-out with additional information pertaining to payroll cost.

- Trustee Todd asked who developed the analysis sent and was told the Director Mohan completed it. She asked what would happen to employees currently performing the task? She mentioned her concern as she was aware of another company who experienced difficulties with the company. She asked how issues would be addressed; who was responsible for entering staff attendance, sick days, vacation time, etc. What caused problems/errors and if it was a software issue with CIVIC? Mayor Burgess responded that staff would still submit payroll based upon input from department heads.
- Trustee Zupon asked about the previously requested, breakdown of costs between what Mohan presented and how much ADP projected as they did not provide those calculations. She asked how it was broken down?
- Trustee Brewer questioned the differences between the full-time and part-time staff calculations and if anyone addressed payroll issues with CIVIC? Can CIVIC provide the same services? She asked who would train staff?
- Mayor Burgess explained the calculations, responded to questions and stated that approval to utilize ADP would be an action item at the following Board Meeting.

**Recommendation of the Variance to Sign Ordinance/Unified Development Code**
Mayor Burgess mentioned the meeting with the Zoning Board concerning the Sign Variance requested by Community Consolidated School District 168. Zoning Board Commissioner and Chairman Charles Pondexter addressed the request and provided information that they had met to approve the request. They are awaiting knowledge the notification letter had been sent to the required residents residing within 250 feet of the property. The Zoning Board recommended approval. Mayor Burgess stated that this subject would be on the agenda for Board Action on the fourth Tuesday.

**Reviewal of the Cash Reserve Policy**

He and Director Mohan met to discuss the need to establish such policy and the percentages recommended to maintain in a Cash Reserve in varying accounts. He asked Trustees to review the draft he presented for discussion at the next Committee of the Whole Meeting.

**Reviewal of the Cyber Security Policy**
Trustee Grant stated that the committee worked on this policy as a result of the audit recommendations relative to classified information and the level of access employees would have with computer usage. He asked that Trustees read through the document and provide suggestions so that the topic could be discussed at the next Committee of the Whole Meeting.
o Trustee Brewer noted that the Mayor would have approval authority and asked who would have the second line of approval and how would it impact Trustees’ access to information?

o Trustee Todd asked if this policy addressed the previous policy and if it replaced the former one presented?

GENERAL COMMENTS FROM MAYOR & TRUSTEES

Trustee Brewer had many questions:

Trustee Zupon mentioned National Night Out scheduled for August 7th, the planned activities and vendors. She provided some of the logistics. She advised residents to talk with the Police Chief that night concerning Community Policing vs. Neighborhood Watch.

Trustee Zupon suggested that a Trustee take heed and consider reports given as the information provided answered many questions raised.

Trustee Grant reiterated that the cash reserve mentioned would be allocated from the sale of the land for 1.3 Million Dollars.

- The Mayor started with reading a statement; he said that after 3 minutes, we will move on to the next person. The Mayor will respond to those who merit a response. If the Mayor feels someone should be removed, he will do so. He reminded everyone, we are here to conduct Village business.
- R. Richardson - asked for a copy of the Mayor’s statement.
- L. Washington – brought up the social media ordinance, asked about what the Board is going to do about Joe Wiszowaty and social media. Brought up the Neighborhood Watch and the fact the Mayor attended some meetings; said that just because the Mayor says things doesn’t make it true.
- J. Cast – Brought up operational transfers and the legality of them. As of today, she has a FOIA that indicates no documentation is on hand for those, which she believes means we have not followed up with them. Re the Police Department, brought up how much some of the police officers are making; she said since 3 officers have resigned, money should be sitting in their budget, so why can’t they hire on those posts? Brought up the Police Department furniture, asked for an update on the Mayor’s meeting with the Chief.
- D. Williams addressed the Village website – still not updated, why? Wants to know where we are with CalComm. Commented about the Mayor’s stance on social media.
- P. Couch commended the Police Department & Public Works on their response to the storm the previous night, removing the branches from the streets. From a FOIA, she claims Dr. Straughter doesn’t have a business license. Regarding social media, asked the Board why they aren’t enforcing the ordinance.

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING

- Trustee Linda Todd provided an overview and rationale for two ordinances. She discussed:
  1. AN ORDINANCE AMENDING ARTICLE I (IN GENERAL) OF CHAPTER 10 (ANIMAL CONTROL) OF THE MUNICIPAL CODE OF THE VILLAGE OF SAUK VILLAGE
  2. AN ORDINANCE AMENDING ARTICLE XI (SCAVENGERS) OF CHAPTER 18 (BUSINESSES AND BUSINESS REGULATIONS) OF THE MUNICIPAL CODE OF THE VILLAGE OF SAUK VILLAGE

  It was decided that this would be included as an action item at the Board Meeting on October 9, 2018.

PUBLIC COMMENT

- D. Williams asked if residents would have an opportunity to see the items for action on the de-annexation prior to it being readied for vote.

- R. Richardson stated that $250,000.00 was borrowed from TIF 4 and asked what was done with the funds; she stated that the Village borrowed from the Water Fund to re-pay the TIF but never repaid that fund and asked how the funds were used. She asked if the State was contacted to determine
noise mitigation for the Truck Stop for the residents and if a site visit to Love’s was conducted to witness/hear the noise levels?

• T. Thomas stated that he resides across from Strassburg School and that cars continue to block his driveway. He requested a No Parking/Handicap Sign as he has a child with a disability who uses a wheelchair and the illegally parked cars creates a hardship. He commended the Village for street repaving and the curb cuts.

• J. Cast spoke on Mayor Burgess’ speech read the previous week and stated that she would not allow her constitutional rights to be violated. • M. Escobedo addressed social media and asked the Mayor if he read items posted by his family members before reading his speech? She stated that residents voted them into office and would vote them out. She expressed concern that Trustees are without comment or action.

• Mayor Burgess addressed comments as follows:
  
  o The use of the $250,000.00 was to make payment on a five-million dollar bond. If not paid, the entire balance would have been due. Those funds did not come from the Water Fund.

  o The house in the middle of the construction site asked for additional time to move. They are there until their lease expires.
  o He would communicate directly with Mr. Thomas to correct his issue.
  o The Police Chief and Mayor have communicated about the furniture in the police station and the Police Chief is readying a list of items to present.

PUBLIC COMMENT

R. Richardson stated the following:
- that she had asked the Mayor about receiving a copy of the comments he made previously and that she still want a copy;
- that whomever is on the other (web-site) page should be stopped as they are so disrespectful. It is getting very ugly. She stated that if the Mayor could not convince them to stop, things could get out of hand. She specifically called out the offenders; and
- that the March was not for or against the Mayor.

L. Washington spoke about cyber-bullying, the Ordinance that is in place and the employees and others, who continue to violate it. Mayor had stated that he could not stop it. She stated that this has occurred for the last ten years with slanderous remarks. It needs to stop.

Pastor Pitts asked the Trustees and Mayor to attend a Community Revival on October 27th. He stated that several churches have collaborated to host the Community Breakthrough Revival, at Crossroads Church, 23001 Torrence. He made a passionate appealed to the Administration and residents to make attendance a priority. He cited that the Pharisees and Scribes were politicians who surrounded Jesus. He made a plea to make attendance a priority. He thanked the administration and vowed to pray for them and asked them to pray for him.

D. Williams stated that she appreciated Pastor Pitts’ announcement. She stated that she was saddened that that the last 10 years is not better. Asked if the Administration were working for a select few or for all the residents. She stated that she was happy to see a Sauk Talk; she welcomed everyone to Crossroads; and she stated that she wishes to work with everyone and that she was led to work. She concluded by asking, “Do you work for me.”

G. Gary stated that he has been a resident for 23 years. He came to discuss his water bill that had increased over the last two cycles. He asked if the meters could be checked. He left with stating that he is happy to see the Village improving.

M. Escobedo talked about social media and how residents were asked not to talk on social media. She stated that the Mayor needs to do something. She stated that she was warned about the Mayor’s inability to lead but did not believe them.
J. Cast commented that on several things, they were:
- she is not as in tuned with social media and is not interested in what others have to say;
- they were loyal and believed in him, but the Mayor had changed;
- the person chosen to do the work of the previous Manager has no experience and asked if the Mayor was thinking about the residents when he brought in people.
- No raise for the police no raise and that they are being treated like dogs;

F. Williams stated he had three questions, 1. If there were any restrictions regarding what the owners of the car wash can do there; 2. were residents informed and did they have a voice; 3. Where would they get their water, and would they pay taxes to the Village. Mr. Williams asked the mayor to look at him while he was talking and appealed to the Mayor to be respectful and not look down.

Mayor Burgess’ Responses:
- Social Media – Reiterated that he would not discuss social media in an open meeting and stated that he could not control another human being.
- He hoped that all listened to Pastor Pitts and plan to go to the revival, listen and get involved.
- To Mr. Gary, Mayor asked for his phone number, so they can speak directly.
- Comment on the Police Department - They are still in negotiations, so what has been conveyed is not the case where pay raises are concerned.
- To Mr. Williams - truck stop restrictions are determined by the code. Residents knew about it after the land was sold. He informed the Trustees during the process. He stated we need commerce in town. He spoke of free enterprise. They would buy water from the Village, they will pay taxes to the village. They are in a TIF and Article 8 to attract business to Illinois and Cook County. We cannot demand a business to hire villagers. We can ask but can’t dictate. Notice of applications would be shared with residents.

DISCUSSION ITEMS

- Trustee Beth Zupon introduced the concept for the development of a new website. She provided an overview and introduced Karen Mullins. She was intrigued by the proposal by SOCS.
  - SOCS Websites / Foundations for Educational Services - Presentation by Karen Mullins. Ms. Mullins presented everyone with a pair of socks. Two skill sets. How to use e-mail and Word Document. It is designed for small communities to post information pertaining to each department. It would provide leeway to facilitate as needed. Each department could post their data. Each story has a begin and end date. Once dates are included, the item goes up and off the site. Other features outlined were:
    - There is a free app to use so that information can be posted
    - One price Point
    - Economic Development is being driven by many communities, so businesses can be highlighted and promoted
    - Each Department would have a contact person, so residents could post, ask questions directly to each department
The Calendar element is highly favored as each department can post their own.

There would be a new website design

Site would be ADA compatible

The company provides unlimited training, pages, pictures, content or articles.

A new design is available every three years

Ms. Mullins concluded by asking if there were questions.

Trustee Zupon added that we would wish to use a format that is user-friendly and pristine. She further reiterated many features identified by Ms. Mullins and stated that there is an interface with social media, e-mails and technology. She asked to speak at the next department head meeting to provide them information.

Mayor Burgess asked about the requirements for hardware and software. He was told that it is web-based, so no equipment is needed. Mayor Burgess questioned how concerns would be address by the various departments.

Trustee Grant asked how apps are to be loaded? He was told that there would be trainings and webinars. He asked about the need for a contract and the renewal rate. The renewal rate would be the same and auto-renewal is dependent upon the Village’s selected option.

Trustee Brewer asked how long it would take to get the site up and running and was told it could take place within thirty days. She asked who would be the contact person at the Village? As of now, there is no contact listed.

Trustee Todd asked about the price and if it is auto-renewal? When asked how the site would be funded, she was told that it would be from proceeds from the sale of the laundromat. She was also told that the option for auto-renewal is available.

Trustee Zupon asked that this be included as an action item on the next Board Agenda.

Trustee Linda Todd stated that she had two Ordinances previously presented for consideration and asked if there were questions. She discussed:

An Ordinance Amending Article VI (Alarm Systems) of Chapter 22 (Emergency Management and Services) of the Municipal Code of the Village of Sauk Village. She stated that it has been downsized and once approved it would go to the Police Department for approval. She highlighted the consequences for violations or the number of instances. A letter from the Police Chief would be sent to residents with a warning letter, or warning letter and tickets based upon the number of instances of a false alarm

Trustee Grant asked if a record is kept of false alarms? Calcomm has a record of the number of calls received and forwards that information to the Police Department.

Trustee Zupon provided corrections on the style of wording/writing and punctuation.

Trustee Todd asked that this to be included as an action item on the next Board Agenda.

Trustee Todd spoke to an Ordinance Amending Section 14-24 (Property Maintenance Code Adopted) of Division 1 (Generally) of Article II (Building and Technical Codes) Of Chapter 14 (Buildings and Building Regulations) of the Municipal Code of the Village of Sauk Village. Wiszowaty provided background of the grant applied for the Phase 1 Engineering for road spurs, engineering road expansion and railways. The grant was awarded for $350,000.00. The Village’s match would be $100,000.00 and covered by the TIF. He stated that it is like other IGAs and must be completed and submitted by 12/31/2018. The resolution authorizes the Mayor and Clerk to sign the IGA. Dir. Wiszowaty asked that it be on the agenda at the next board meeting.
  - Discussion of the Request for Qualifications for a Phase 1 Engineering Study- pursuant to the 2018 Invest in Cook Grant. Dir. Wiszowaty stated that the Phase 1 Engineering Study is a requirement for approval of the grant by Cook County, distributed that night. It is a Cook County project that accompanies federal opportunities. It is a process to procure engineering services. He explained the areas sought with regards to an Engineering firm and the requirements needed by the company i.e., scoring, deliverables, etc. He took care to inform that no contract would be entered without the express approval of the Board.
    - Trustee Brewer spoke to the Village’s staff qualification for evaluation the engineers’ qualifications.
    - Trustee Grant asked if the request has been shared at that time? No, it has not been released. It would be posted on the web-site once approved.
- Dir. Wiszowaty asked that this to be included as an action item on the next Board Agenda.

- Trustee Rodrick Grant led the discussion for the Sauk Village Acceptable Usage Policy. He informed that the title had changed from when it was first presented. It was previously referred to as the Cyber Security Policy. Changes to be noted are: access according to position, and virus protection.
  - Trustee Zupon commented the need for a change on the last page about “under certain conditions,” as we have a right to conduct an audit at any time, and if someone suspects they have a virus, they should contact their supervisor and IT so that it is not shared.
  - Trustee Brewer asked about a Firewall to limit items to be shared to other e-mails or personal accounts. Trustee Grant stated that it is being reviewed.
  - Trustee asked to push those issues to IT so that information does not go to personal e-mails
- Trustee Grant asked that this to be included as an action item on the next Board Agenda with notice that the policy is subject to change.

He stated that the organization is a sponsor of the Federal Feeding program and has programs for after school programming for students of all ages inclusive of elementary and high school students. The program is designed to build confidence, develop critical thinking, and strengthen artistic and social skills. The program would be of no charge to the Village or students. In the comprehensive program, students would explore a variety of media outlets including:
    o Dance
    o Music
    o Drama
  o Mayor Burgess referred follow-up for program implementation to Trustee Carter who would be the contact for the Village.

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING
