DISCUSSION ITEMS

Mayor Burgess distributed a report outlining the amount of funds that Department Heads’ requested for their “wish lists.” The total is within the realm of funds set aside by the Reserved Funds.

- Trustee Zupon stated that it would be beneficial to know what items/ initiatives comprised the dollar amount requested. She had hoped to see the actual list.
- Mayor stated that we would not dictate what they may purchase. Trustee Zupon countered that the Mayor had been originally asked for a list to be brought before the Board in making the determination. She asked to see what was on the list and what was still on the table that they could not obtained, i.e., what would they get and what would they not get because of limitation of funds.
- Mayor Burgess offered to table until the actual list can be made available.
- Trustee Grant asked the actual list and how soon would the funds be available for use. Mayor Burgess replied that items not able to be secured, could it be included in the next budget round.

- Trustee Carter asked if we wanted to micro-manage the Department Heads. He recommended that Trustees allocate the funds and allow them (Department Heads) to make the needed transactions.

- Trustee Zupon reiterated that she had not asked to hold up movement. She simply wants to see the lists. Mayor stated that he would provide it.
It was decided that there was no need to add to the agenda the following:

- Mayor Burgess stated that there was no need to add the RFQ for Invest in Cook Grant as the County had confirmed approval of the grant.
- Revision of RFP for landscape services as there were provisions to extend the contract and that there was no need to reissue an RFP as the landscaper performed as expected.
  - Trustee Brewer asked for a Vendor history, payment and how much was left in the budget for the grant. Did we cover the 112 houses?
  - Mayor Burgess stated that the grant and contract were not only for landscaping.

- Policy for Election Canvassing/Campaigning Mayor spoke of the gentleman’s agreement that no campaign material would be in the Rotunda. He asked if the Trustees wanted the subject to be included on the following agenda. Trustee Brewer stated that she did not wish to see a policy rushed through because of the upcoming election. It was decided that the Clerk would draft the policy.

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING

- Mayor Burgess explained that the Resolution for Maintenance Under the Illinois Highway Code was for MFT funds and that the procedure must be completed annually. Mayor Burgess’ Responses
- If a resident called Village Hall and a message is left, someone should call back. He asked to be informed if that is not the case.
- Officers receive a uniform allowance annually. He has not seen mold in the basement. What can be done if a rule is broken. No arrest needed, but the person can be removed. Report on salaries to be broken down will be researched. Every person had been paid who worked hours. Thus, it is not If an employee pay was short, there are provisions to address that issue, FB is not the avenue to address this issue.
  
  - Town Hall Meetings cannot be a complaint session and is not designed to
  - Fire Hydrants is a big issue. He promised to provide a list. He announced a low interest loan being researched to rectify this issue.
  - Hiring of police, there are plans to hire one or two based upon the business revenue, not be from raised taxes.

**Public Comment**

D. Williams stated that she had sent a letter to join the Finance Committee with no positive response; Operation Transfers was a new concept; the Accts/Payable report as presented, does not allow Trustees to know what they are voting on and that review should be done in advance; and that CodeRed is a much-needed program.

Mr. Rylander reported on a public safety issue, particularly with the wild coyotes roaming in the neighborhood.

C. Boetcher thanked the Village Clerk for bringing forth information on CodeRed; thanked the Police and Chief White as he is very polite to everyone and he cares; asked about the process for hiring additional officers; asked if Trustee Carter had reached out to the recommended programs; hiring for the Community Center; why Dir. Wiszowaty needed an assistant and where were the funds derived to pay for the position.
P. Couch noted an item not on the A/P and asked how the tree was paid for; the dog issue and a Jan 23rd attack on her. She stated that she had called Chief White and dispatch, an officer came and wrote a report and visited the home of the owner, she called Cook County, they had to wait for Chief White to call them and that she had not heard from the Chief; she mentioned ongoing gun shots; and if the officers’ shortage of pay had it been resolved.

G. Bell mentioned the meeting regarding his punch ins a few weeks back; it took 18 minutes for an ambulance and Fire Dept to respond to a call.

Mayor’s responses:

- **A/P suggestion of meeting in advance.** Mayor Burgess stated that Trustee have time to ask questions in advance and at the Board Meetings and that the tree needed to be replaced as well as other items. Joining a committee is up to the committee chairman to accept members.
- **Coyotes running wild.** Coyote presence has been constant in the area; he stated that he would check with the Sheriff’s police to determine what agency needed contacting.
- **Hiring of police,** the steps to hire new police are being put in place; Community Center has had volunteers. No one willing to work part time so, the Village would continue with volunteers; Hiring a person, when a person resigns, they are using those budgeted positions to fill vacancies. There is no excess being spent.
- **The Christmas Tree** was voted upon. The previous tree was aged and needed replacement; funds came from the budget to upgrade, next would be the lights across Jeffery; and that this must be upgraded as nothing lasts forever; shootings can only be deterred, not stopped. He hoped that people would begin to value life and that the Village would be hiring more officers; and he cannot discuss payroll and punching into duty.

• Regarding the Business After Hours and the State of the Village Address, it was announced ahead of time, so he was not sure why someone would not have known about it, as it was publicized.
• If anyone feels businesses are not being kept clean, they should reach out to the County Health Department with specific concerns. Regarding their garbage outside, they do get cited by Village Code Enforcement if they violate Village Ordinances.

/s/Mayor Derrick N. Burgess

/s/Village Clerk Marva Campbell-Pruitt

Minutes Recorded by Trustee Beth Zupon
CALL TO ORDER
Mayor Derrick Burgess called the meeting to order at 7:00 p.m.

On Roll Call
Present: Trustees Brewer, Carter, Grant, Tates, Todd
Absent with Notice: Trustee Zupon
Others in Attendance: Director Joseph Wiszowaty, Clerk Marva Campbell-Pruitt

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING:

- Director Joe Wiszowaty provided a brief introduction of the presenter who showcased the
  - Property Registration Program – Mr. Stan Urban provided an introduction to the Program.
    He offered an overview of each document in the presentation packet that was presented to
    the Board. He stated that there were twenty-five communities in the surrounding areas
    utilizing ProChamps. ProChamps was established in 2009 and is a no cost, web-based
    property registry program that assists in property maintenance issues. It provides contact
    on mortgagees and property managers. The contact information is available to Code
    Enforcement, Utility Billing, Police, and Fire Departments. The success rate for recovery of
    fines is 85-90%
  - Trustee Grant asked about the fund allocation. The recommended Registration Fee
    Structure is as follows: Foreclosure Registration: $350 to be paid by the owner, per
    foreclosed property semi-annually. ProChamps retains $100.00 for each, and the
    Municipality receives $250.00 for each.
  - Director Wiszowaty has a copy of the two-year agreement.
    - Trustee Brewer asked how large the database was
    - Trustee Grant asked about a house previously in foreclosure but is now
      current and was told that house would come off the list.

- Engineer Jim Czarnik explained the Logistic Center Engineering Study and the components
  of the Invest in Cook Grant. He discussed the $350,000.00 project and the role of Robinson
  Engineer Company in the Phase I Study. He outlined a summary of the complete scope,
  other partnerships and the scope of the Project Development and stated that HDR is
  involved in the feasibility study, the same company that was a party to the one that
preceded the current study so that they would remain involved. The total price would cost $449,995.00. He provided the project deliverables and locations of project implementation.

- Trustee Brewer asked where the difference in the cost of the project would be derived and was told that it would come from TIF funds.

Pending legal review, approval of the project will be an agenda item on the upcoming Board Meeting for adoption. Contracts should be available by then.

- Trustee Linda Todd provided a review of Ordinance 17-024 – Animal Control and stated that the Board had failed to provide relief to the resident who remarks on the issue at every meeting. We must abide by ordinances and that she expects that it would be done. She provided a copy of a certified letter sent from the police department advising that the animal should be removed from the Village. She stated that the Ordinance and the Police Order are not being followed. It is a major issue, and it has gone on for too long.
  - Trustee Grant commented that this is the second police chief to deal with this dog, there have been unpaid fines and lack of compliances. He asked the Mayor what the next steps were. The Mayor stated the Chief would be asked to provide an update at the next Board meeting and that the issue would be addressed by the next Board Meeting with a subsequent update.
  - Trustee Todd provided a copy of the letter. The Mayor stated that had he known; he would have asked the Police Chief to be in attendance to explain what the plan of action is.
  - Trustee Carter stated that it appears that the dog is a nuisance more so than a vicious dog as it had not bitten anyone.

Village Clerk Marva Campbell-Pruitt spoke on two items:

- U.S. Census Bureau information was shared and the importance of data collection and utilization, and that it would behoove the Village to insure an accurate count for the Village. She reviewed the items in the informational packet provided and the schedule outlined to complete the overall count for 2020. She appealed to draft a resolution and pledge for those signing up to be on the Complete Count Committee.

- Specific rules of Parliamentary Procedures, Robert’s Rules of Order were discussed with the Mayor and Trustees to show how two rules if used properly, would increase the level of decorum and operations of the Village’s meetings. She highlighted, “Calling for the Question,” which means to end debate and move to the vote and “Point of Order” when there is an infraction of the rules and, or comments on items not on the agenda, “Order of the Day” can be used as well.
J. Cast thanked Trustee Todd for the review of the ordinance; she shared that it is not just one dog, that students were running from pit bulls the past Friday; she can use a gun and would pull the trigger if a dog lunge at her. Cook County has been notified but is not acting.

P. Couch thanked Trustee Todd for intervention. She stated that the ordeal had lasted 18 months; she had followed Chief White’s advice to no avail; one family had accumulated $4,000.00 in unpaid fines. If enforced, funds could be used to pay for a dog catcher or a code enforcer; owners left two dogs and taken to Steger Pet Hospital. The Police ordered nooses and treats to sedate the dogs, but one must get close enough to use either.

C. Boetcher asked about hiring more police; asked why the position could not be part-time police/dog catcher. She spoke of banning pit bulls. She asked two questions about the registration program discussed, if the lists were sold to other companies, and if everyone in the Village had to be registered?

D. Williams questioned the Business & Finance Committee composition as she saw only two members at a meeting she attended. She sent a notice requesting to become a member of the committee; she asked last week the status but was told that it was under review. She asked if there were a maximum number of committee members; asked that the Budget & Finance committee would review the budget and if the committee could review A/P before the vote.

M. Escobedo thanked Trustee Todd on bringing forth the issue of code enforcement. She stated when she was on the Budget Committee, she was told that Trustee Grant wanted no more than three on the committee, which is inconsistent with what is now being said.

Mayor Burgess’ Responses:

- It was his first seeing the letter from the previous police chief. He would consult the attorney.
- Hiring Police, there are measures in place to hire and that there are requirements, such as eight-month training requirements after applicants go through the Fire and Police Commission.
- Mr. Urban was asked to address the questions concerning his program. Only homes that are vacant or in foreclosure would be required to register with the program. The list is not sold, but it becomes a public document, so it is FOIable.
- Trustees operate their committees, and the Mayor places no limitations on their standards.
- The Mayor does not respond to questions on social media.
GENERAL COMMENTS FROM MAYOR & TRUSTEES

- Trustee Tates had no comment.

- Trustee Grant clarified his premise of the composition of the Budget and Finance Committee and stated that there is a recommended maximum number desired; he shared how and when he review accounts payable and clarified that invoices and accounts payable are reviewed and answers sought for questionable transactions; and he stated that Mr. Finch had implemented a process where the invoices are attached to A/P.

- Trustee Brewer asked that the RFP be placed on the agenda in two weeks, (3/19). The Clerk asked that all agenda items be written to make certain that the date and the language is as preferred by the requestor; she mentioned copies of invoices she had sought and asked why Trustee Grant was the only one privy to such review; she thanked the Clerk for information on parliamentary procedures, but sought a happy medium for discussion as the Mayor should adhere to the procedures as well.

- Trustee Todd announced the March 11th meeting; she had one scheduled for the day before, but the date was incorrect. However, others were using the space and appealed that the meeting calendar is utilized; the Ordinance Review Committee is always looking for volunteers, and all are welcome.
  - Mayor Burgess offered the Executive Conference Room as an option if there is a space issue.

- Trustee Carter had no comment.

**PUBLIC COMMENT**

J. Cast asked if the Treasurer was bonded and requested the paperwork; stated that she had submitted an FOIA request that was returned stating no information, which she knew to the contrary.

L. Washington asked why there were no accounts payable.

E. Young asked about drinkable water and community programs for youth.

D. Williams stated the problems with contacting folks at Village Hall; that she asked, but could not speak with the Mayor, had to leave a message for the administrative assistant with no call-backs; and she assured everyone that Independent candidates would work with the current administration.

B. Hobson asked why there were accounts payable; and if trustees were aware of the new process, if they were agreement and if residents were being discouraged or silenced.

R. Eastman stated that she had spoken with RaDonna Brown, and though she did not have a write-up, she had the intent to develop a plan and submit it by Friday.

R. Richardson asked for a list of all empty homes in Sauk Village.

M. Escobedo – recalled her experience with calls coming into the Mayor’s Office and how the Administrative Assistant was unprofessional. She spoke of individuals who fail to pay taxes and homes in foreclosure.

N. Thomas, a six-year resident, stated that it was disturbing to drive down her block to see tree branches from dead trees. She has replaced tires because of village-owned trees. She asked when would landscaping start.

Mayor’s Responses:

The Treasurer is bonded for both positions.

He would research unanswered FOIAs.
Accts Payable will be released after the Trustees vote on them. Copies would be available on-line once approved.

Lake Michigan Water is a binding referendum. If it happened, water rates would go up, to secure a lower rate of water the Village must correct water loss and improve infrastructure. Youth programs. There has been a part-time position advertised for quite a while

Mom and Me Program requires safeguards and specific regulations. He asked the person to see him.

Acquiring a list of vacant homes should not be a problem.

He stated that he had been held to standards unaccustomed to others in the Village functioning in like positions. He mentioned the A/P List and the new process of insuring that the public receives a final report, not an unapproved draft; and that insurance had to be added as it must be paid in advance.

A/P lists would be presented a week earlier, and Trustees would have a week to review a draft report with invoices, and ask questions.

Insurance Sources and IDOT were included on the A/P list, and the invoices are available for review.
He provided a sample of a full-page water bill for consideration. Spoke with the director about the grass cutting program and was told that $20,000.00 has been spent and awaiting anticipated expenses to report on the grant.

- Trustee Brewer stated that the issue of bonding was on-going, and no offense should be taken; Information provided previously was wrong, so she asked that he not be offended when residents question him; she mentioned the $29,000.00 for grass cutting, and stated the actual grant was for $75,000.00. It was explained that only 19,000.00 in invoices had been provided. The other $45,000 must be used, or we must apply the following year.

In order to keep the elevated tank online during the peak water demand period during the summer, the project rebid will be timed so that construction starts no earlier than September. - N Diaz, through an interpreter, stated that she is being harassed by the Mayor and his wife at her job as it bothers them that she speaks only Spanish; she does not understand the problem; she asked for respect and that the rumors affecting her family cease; and stated if anything happened to her or her family, the Mayor is to be blamed.

- R. Carter informed that the Mayor is doing a fine job in the Village. HR is important as it saves money.

- S. Harris introduced herself and stated that she is having a hard time getting her business opened, as J. Wiszowaty will not sign off on a business license. The water meter is the problem, and she is taking the blame for a thirty-year problem. Tried to communicate with the Mayor and Assistant to no avail.

- R. Christy stated that after two years, the Mayor now states his willingness to talk and work with everyone. She cited a lack of transparency, failure to be fair to SV residents, and failure to provide the needed support to the residents as her concerns.

- N. Wargo stated that the Mayor might not have veto power; she expressed concern over TIF Funds being moved without notice to the other taxing bodies, and she read a statute governing TIFs.

- A. Bentley, an investor, stated that he had been fighting water bills since first investing in the Village. He appealed to change how liens to properties are passed to the investor, citing, something must be done as they should not be investors’ responsibilities because of the failure of the Village to disconnect services; that no bill should be allowed to rise to $3,000.00; If you wish to improve things, shut off water within four months so that those desiring to purchase is not obligated to pay the water bill.

responsible for paving the driveway in Sauk Plaza, and why no one is being held accountable.

- P. Couch thanked Trustee Bell for the meeting held earlier that day and the need for a Safety Plan.

- L. Kimbrel stated that there is a vacant home on her block that had been vacant over two years. The grass had not been cut by the Village during that time. She mentioned a dead tree that fell on her car despite promises of the Mayor during campaign season to take care of it. She took exception to the Mayor reference that the town was the Mayors and that he controls everything, and advised the Village belongs to the residents.

- M. Escobedo spoke about social media and the harassment of individuals at a restaurant. She mentioned the ordinance governing social media and asked Trustees to review the ordinance and listen to residents. She stated that she is being stalked and appealed to the Mayor to heed what is happening in the Mayor’s home rather than residents.

Mayor’s Responses to Comments

Accounts Payable is voted on twice a month. Once approved, it is available for reviewal. The Mayor stated that he would review what happened in the recent instance.

Personalization are disrespectful and hateful. He ran for office knowing that he could be talked about, but to talk about his family, was low.

The TIF funds being moved was already explained.

It was voted that Water Bills would be in the owners’ name. We have no other recourse. It is an internal problem that must be resolved.

The owner of Sauk Plaza was talked with and asked if he wanted to continue to be ticketed.

EOP was last updated in 2017 and given it to EMA.

Lawn service, paperwork is due by June 11th. Looking to demolish five homes. Asked Kimbrel for the address so that it could be passed on for correction.

LOC is needed as a supplemental account comparable to other Villages. Funds need to bridge between now and October when taxes come in.

ROLL CALL

On Roll Call, the following were present: Trustees Bell, Brewer, Grant, Jasinski, Todd, Williams. There were no absences.

Others in attendance: Village Clerk Marva Campbell-Pruitt

Executive Session was moved to later the agenda.

DISCUSSION ITEMS

Village Clerk Marva Campbell-Pruitt spoke on the following:

- **Office policy**
  - Copying – The Clerk mentioned that she had a copy limit of 200 copies per month and that it was impossible to prepare weekly meeting materials with the limit.
  - Email Messages and violations of OMA- she asked that the Trustees review the policy and agree to directions going forth.
  - Robert’s Rules of Order- The Clerk asked Trustees to utilize the resources provided as it would be useful to bring the reference to each meeting.
  - Procedures of Agenda Items and Meeting Materials – agenda items and materials are desired on Wednesday and by Thursday so that meeting materials are prepared by noon on Friday.
  - Notification of Attorney presence is needed in advance for meeting materials, and advance notice to the Mayor is needed.
  - Provided the Village issued phone number (708-921-3662) and asked that it be used to call and text.

Trustee Brewer stated that the copying limit for Trustee should not be 100.

Mayor Burgess asked if there should there be a limit of copies imposed.

Trustee Grant stated that the Clerk should not have a limit, but the Trustees should.

Trustee Bell stated no limit

Trustee Jasinski stated no limit for the Clerk, but it is okay for Trustees
Trustee Todd stated that she makes copies at home; that no one should have a limit, and if there is a problem, communication should be with that individual.

Trustee Williams stated that the Clerk and Trustees should have no limit, as a trustee, she anticipates needing access to making numerous copies, but all could provide a monthly report of usage.

Trustee Brewer stated no limit for either.

The consensus for the Clerk to make unlimited copies was six. The consensus for the Trustees to make unlimited copies was three - three. Mayor Burgess concluded by stating that he review the monthly report provided by the passcodes entered, and he would like to see the limit for Trustees continued and if needed, consult the Mayor to increase the limit.

Trustee Jasinski stated that she experienced the copier being utilized extensively and how it impacts staff.

Trustee Brewer mentioned the postage machine but was asked to save that discussion for another time. Trustee Debra Williams responded:

- Roberts Rules of Order is needed, and as the Clerk is the OMA officer, she should be allowed to speak to offenses.
- The Attorney’s will be at each Board Meeting and should receive meeting materials

Trustee Debra Williams spoke to the following agenda items:

- Recommendation for Cross Training – Trustee Williams stated that only certain employees could perform a job function, and in their absence, the task is not completed. Thus, cross training is necessary as others should be versed on varying operations.

- Ordinances
  - An ordinance was presented limiting how much we pay attorneys. She asked, why are we paying an International Law attorney exorbitant fees for an FOIA. She suggested that the Village should not seek counsel for more than $200.00 per hour before it comes to the Board.

    Mayor stated that a first/one-time Atty would not give a rate for less than $200.00. He asked why limit the Village in an instance where defense from an outside counsel is required; Would we not want a qualified Atty? Our Atty could not represent the Village on a case. Trustee Grant asked if the fee was negotiable and was informed that the Ordinance cites the need to come before the Board if fees exceed $200.00.

    Mayor asked if anything should be changed on the ordinance; hearing no response, it was agreed that the ordinance would be placed on the agenda for action.

  - An ordinance was presented for a policy for the content and processes for Accounts Payable. Invoices are vague, and all vendors must provide a detailed accounting of services.
Discussions:
Trustee Grant agreed that invoices should be detailed, and Dept. Heads should not sit on invoices, resulting in late fees. Trustee Jasinski stated that the invoices sit on the back table. Mayor Burgess stated that sometimes the funds were unavailable. Trustee Grant stated that those invoices should be scanned to the aging report and reflected as such. It was decided that supplies should be itemized, as when an order is placed, it comes with itemization. Trustee Grant asked how the policies would be communicated and coordinated? Mayor Burgess would inform the Dept. Heads to request itemized billing. It was agreed that the ordinance would be placed on the agenda for action.

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING

• Mayor Burgess discussed the recommendation of the Village Engineer Jim Cznarik based upon the reviewal of the bids received May 28, 2019, for the 2019 MFT/CDBG Resurfacing Project for $291,000.00. He identified Iroquois Paving Corporation as the low bid. It was 1% higher than the estimated construction cost of $287,922.00. He provided an itemized bid tabulation, including a detailed cost estimate, and, the procedures required leading up to the start of the project. This item will be on the agenda for action. A consensus was taken to inform Jim the following day, so as not to miss the deadline, but we should still vote on it next week.

• Trustee Linda Todd asked to post-pone discussion of the review of the Ordinance for Standing Committees to the next Committee of the Whole meeting.

PUBLIC COMMENT

J. Cast was concerned about Accounts Payable availability. She asked if the Clerk could have a few copies after the Board Meeting the night that it is approved.

P. Couch thanked the Police for their efforts on behalf of an instance where there was an active shooter. A home has not paid a water bill since October. Republic stated that they only get a report once a year for homes requiring garbage pick-up; she asked who is responsible for sending the report.

D. Morehead, a seven-year resident, had sent several letters to cut down a tree that is infested with termites, the tree is dead. It is a safety issue. It is located at 1805 222nd Street.

J. Schack <sp> spoke on the change of mood, and that the lack of hostility was impressive. He suggested a change in the meeting format so that residents offered feedback.

Y. Lewis had been submitting a complaint about a large pothole in front of her driveway. The pothole has extended to her driveway. Payment of taxes should assure that the work is completed.
B. Sterns asked how many liquor licenses are still available? She agreed with the Mayor’s statement that the Mayor should be respected. She respects the position but does not respect the person. She spoke of the Mayor’s family members; the wife and daughter actions demonstrate that they do not respect themselves or the Mayor by their actions on social media.

M. Escobedo spoke on Social Media and how the Mayor’s family talk about residents in the Village. Leaders should be able to control their family and employees. She spoke of the disrespect shown to the clerk and Trustee Brewer. Your family. Rude to residents.

B Hopkins. Agreed with the gentleman. The discussions gave her information regarding what is going on.

**Mayor’s Responses:**

Branches and tree are a concern. Mayor will make certain that the tree is removed.
A/P can not be distributed until after it is approved. If an item was removed at the Board Meeting, the report could not be distributed as it would need to be reprinted and would then be available on Wednesday.

Mayor spoke to Kevin about potholes. They are looking to acquire equipment to assist with street repairs. The Department is looking to solicit funds from the state to assist.

Comment about the votes. We vote on the second and fourth Tuesday. During Committee Meetings, the information is provided for feedback later.

The compliment provided would be communicated to the Police Chief.

Spoke of the different liquor licenses. There is one left for gaming that may be utilized. There will be a new license on the agenda for the banquet facility.

**EXECUTIVE SESSION**

Trustee Todd moved, and Trustee Grant seconded a motion to recess to an Executive (closed) session at 8:20 p.m. All were in favor.

**Mayor Burgess reconvened the Committee Meeting at 8:58 pm with all trustees responding present**

**GENERAL COMMENTS FROM MAYOR & TRUSTEES**

Trustee Jasinski reported the committee is looking for volunteers on housing
Trustee Bell announced the next meeting for June 17th at 11:00 a.m.
Trustee Todd announced the Ordinance Review would meet June 17th at 4 p.m. She announced the Sauk Village Golf Outing on June 29th. Persons can golf or sponsor.
Trustee Williams met with a representative from Commissioner Donna Millers Office to plan a recycling event on 8/17 and Senior Trip Tickets for Brookfield Zoo. She wanted the Seniors to participate. She will seek parking passes.

Social Media Ordinance was not on the agenda as requested. She inquired if it covered the internet and print mediums. She mentioned the Ordinance as important as we must be careful with what we put out and as representatives of the Village. Inaccurate information is disseminated. She mentioned several things read in the paper that is in the process for which the Board is unaware and that the Board needs to discuss it as a Board rather than information hitting social media. We are creating a hostile environment, and we are responsible for what we put out. SVI page should have been shut down. It is not the official page representing the enter Village. Should have been shut down years ago. She stated that the So. Suburban news does not provide factual information.

Mayor Burgess countered, that little was mentioned when another paper defamed his family. He does not see a hostile environment... he sees folks doing their jobs well. He stated that if a person uses the logo and call you whatever on Facebook, they can.

Mayor Burgess stated that the IHDA grant application had been completed and that it must be administrated, and that it is not an easy task... He stated that he does not bring commerce to the attention of Trustees until there are greater assurances.

   - Presented the IML Conference materials and hotel accommodations – The Village Clerk asked the Trustees to return the information form by the following week so that she can register them for the conference and hotel.
     i. Trustee Grant stated that some Trustees failed to show, and it was his opinion that Trustees pay for their hotel expenses and be reimbursed. He stated that a report of what was learned should
be reported. The Village Clerk shared that she provides their entire packets and $300.00 per diem for which receipts must be presented. The difference must be paid back to the Village. If Trustees are no-shows, they must refund registration fees as well.

It was agreed that the per diem would not change, and if reimbursements were not made, that amount would be deducted from the Trustee’s monthly check.

B. Tamley is an investor with nine properties. He stated that the inspection process is terrible. He cited his experiences as the electrician was paid 1,000.00 to view three properties, the inspector passed him verbally, only to be extorted afterward. Independent inspections should be open to others as well. Tonya is respectful.

Mayor’s responses:

Only one bid was received, and this bid significantly exceeded the engineer’s estimate for the project. This situation was discussed with the Mayor and Public Works Director, and it was decided that the best course of action is to rebid the project. In order to keep the elevated tank online during the peak water demand period during the summer, the project rebid will be timed so that construction starts no earlier than September. Therefore, bids will be opened during the first board meeting in July, and then the project will be awarded during the second board meeting in July if the bid results are satisfactory.”

Trustee Brewer made a motion to table paying three invoices for Dr. Straughter. Trustee Williams seconded.

Mayor Burgess refused to accept the motion as there was no remedy and asked when the invoices for services rendered would be paid.

Atty. McGrath called a point of order and stated that there could be no discussion after the motion was seconded. The Village Clerk asked if it was proper that the attorney would call a point of order and asked for it in writing.

Trustee Williams stated the refusal to pay all three invoices was made because the final invoice was tendered, Dr. Straughter cleared her office and returned to work, and that the trustees had invalidated her contract, therefore the decision to pay the invoices would be determined after a hearing.

Trustee Grant asked if the motion could be tabled to remove the three invoices for Dr. Straughter and Three G Construction. It could not be tabled as there was already a motion

Atty. McGrath restated the proper motion in question and advised that the Mayor is the presiding officer, and the Trustees can call the motion and second. SPECIAL MEETING

OF THE VILLAGE OF SAUK VILLAGE

COMMITTEE OF THE WHOLE

Village Board of Trustees

Wednesday, August 7, 2019
6:30 p.m.

Sauk Village Municipal Center
21801 Torrence Avenue
Sauk Village, Illinois 60411
(708) 758-3330

1. Roll Call
Mayor Burgess called the Special Committee of the Whole Meeting to order at 6:30 p.m.

On Roll Call: Trustees Gary Bell, Bernice Brewerr, Rodrick Grant, Sherry Jasinski, Linda Todd, Debra Williams
Absent: None

2. Reviewal of Parameters for a Bond Ordinance To discuss Bond refinancing spoke to the Bond Ordinance and the presentation provided.

Bob Vail of Bernardi Securities discussed the Bond Ordinance and started the discussion with a presentation. He provided a 10-year recap of the Interest on the 2008 and 2009 bonds, being recommended for refinancing. He highlighted the savings to be realized as $165,000.00 per year for a net savings of approx. 2.1 million dollars.

The bonds qualified for bond insurance; thus the interest rate would be considerably lower. If approved the company is set to close on bonds after September 1, 2019.

Charles Durham of Kane McKenna recommended that the Board take advantage of this opportunity for savings. The item will be included at the next Board Meeting for a vote.

3. Equipment Request

Director Kevin Weller requested to purchase a piece of equipment. He started by discussing public concerns for roadways and lights. An option to speed up the process for
production is to purchase a small wheel machine (a planer). It has a high flow on it. the machine can hook up other accessories.

Dir. Weller discussed the cost of the machinery and its sale price of $56,000.00 and $39,000.00, respectively, and trade-in value, bringing the cost to $34,000.00. Trustee Grant asked to identify the roads to be paved and was told that Dir. Weller was working with CMAP to determine the areas. He advised that there are attachments that can be rented, to perform other tasks that can be borrowed or brought for greater versatility. Trustee Grant asked if it was worth keepin the 20+ year existing equipment as well. It was not recommended. Trustee Williams asked if he was willing to trade off $90,000.00 in place of the backhoe, to purchase all attachments. Yet, Trustee Grant asked that attachments be purchased as needed.

Dir. Weller stated that funds for the equipment would be derived from the previous year’s unspent funds. Trustee Grant stated that funds could not be used from the previous year’s budget. Thus, the current budget request must be amended to make the provisions for the requested expense.

Mayor Burgess asked for a consensus. Trustee Brewer asked about bidding and was told that with the sale, discount and trade-in the company of interest, presents the very best deal. A consensus was established to move forward with the equipment purchase.

4. Village Administrator Position

Mayor Burgess introduced Michelle Royster, a candidate for Village Administrator. The Trustees interviewed her. Trustee Grant asked her to relay information about herself. She provided an overview of her personal family and professional history. Though no Municipal experience, she is in school for a degree in Public Administration. She has been an operations Manager, budget development, managing finances, and she is currently tasked with monitoring and oversight of over 200 projects, the majority are with municipalities. Based on that, she felt capable of making recommendations to Department Heads on the operations of each department.

Trustee Williams expressed concern that she has no experience as a municipal administrator, of the job description, and that they have hired an administrator. She advised that there was a finance director position available for which she (Ms. Royster) may be better suited.

Ms. Royster stated that the administrator position is her desire, and that is why she is degreed in that area. Her finance background is broad, with risk management, real estate, operations and designs, software systems her skills would be an asset, rather than a hinderance, along with her other experience.
Trustee Jasinski inquired how she knew the Mayor and was told that she did not personally know the Mayor. A friend advised her of the position.

Trustee Grant stated that the financial background would help and that as we speak about cross-training, she would be an asset. She was asked about her skills and experiences on negotiations, Human Resources, and economic development. She expounded upon that.

Trustee Brewer asked if she was knowledgeable of state statutes and if she knew anything about the Village’s finances. Ms. Royster was conversant and showed that she was aware of our financial status and stated that she is knowledgeable of statutes.

5. Public Comment

P. Couch stated that it is disconcerting that the Mayor would bring someone in for a position when there is a contract already in place.

A. Coleman stated that Ms. Royster was a good candidate.

J. Cast stated the resume’ sounded great. But the situation was embarrassing as someone already had the position. She asked how much she would charge and what were the plans to pay Ms. Royster. Friday’s court appearance will be telling, and the Trustees would prevail.

J. Cast was allowed to use another’s time to continue.

H. Parker stated that she was surprised that the Mayor brought someone in as the previous week he showed no interest.

Comments on Agenda Items
Trustee Jasinski stated that the Mayor was not interested in a Village Administrator; now he and Grant are interested.

Trustee Williams was disappointed and expressed the desire to have had another option, with having her (Ms. Royster) involved in the process. The person with the signed contract should have been able to do his job. He may need to be paid.

Mayor Burgess admitted that we saved funds without the position. He had been on the defense since May 21st. He wanted an opportunity to exercise his option as Mayor to appoint the position.

6. Adjournment

Mayor Burgess called for a motion to adjourn the meeting at 8:00 p.m.
Trustee Brewer moved, and Trustee Todd seconded. The Motion Carried via a voice vote.

   Mayor Burgess stated that the Board had three meetings to discuss the budget.

   Trustee Brewer asked for outstanding cash balances and outstanding loans. Mr. Finch provided clarification where that information is located on the data sheets provided. Trustee Brewer stated the trustees did not have input into the budget and would not vote on a budget that trustees did not see. Mr. Finch disagreed and stated each instance where the Trustees input were included in the budget. She questioned salaries and was reminded that salary was not included.

   Trustee Grant asked what would happen if the budget was not passed. What can we do before Tuesday’s meeting?

   Trustee Williams’ recollection was that Department Heads would be allocated funds and that they would make the decisions for the cuts. She stated that she was not informed about the Hearing. She asked that trustees’ requests for employee’s salaries be considered, as without that consideration there would be no approval of the budget. There is an impasse.

   Mayor Burgess recalled years past when the staff was dismissed to balance the budget. He stated that he was reluctant to balance the budget on the backs of employees. He addressed the proposal to cut time and benefits. He stated that it was not fair to advocate to give raises to some and cuts to others. It needs to be across the Board. If the budget is approved, there would be no cessation of paying bills and making payroll.

**Adjournment**
Trustee Williams moved, and Trustee Brewer seconded for adjournment at 7:51. All were in favor.

Atty McGrath responded in the affirmative and shared the process and that we operate on two separate systems. Mayor Burgess stated that we have always passed a budget and subsequently, approved an ordinance for the appropriation. Atty McGrath stated that we could pay the bills if we have money, and it is approved by the Board, we are then obligated to pay. The Stopgap Budget, based upon the previous year’s budget, is effective until a new budget has been passed. DISCUSSION ITEMS

• Business Concept for 2225 Rush Street
  Attorney Frank Castiglione spoke on behalf of his client, Tod Tohuny
  • He provided an introduction and general information about the desired plans for the location under discussion. The establishment would require a zoning change. They would be short-term storage of the trucks as needed and would provide major truck repair, engine work, and trailer repair. The clients would be independent truckers. There are several phases anticipated. However, the first phase would be to the south of the diagram presented. Atty Castiglione stated they were open to negotiations. He opened for questions:

  ▪ Trustee Todd asked: If the driver stayed in the truck? No, they would not. How close to the homes, as she was concerned about the noise to residents? East side would be at least 40-50 tree to the end, and at least 100 yards from the nearest driveway. Trees should shelter the noise.
• The bulk of the traffic would be on the west side of the property. Noise from the diesel would be evident, but minimal.

• Trustee Brewer provided a historical perspective. She cited the lawsuit against Roadway and asked if they wanted to add another trucking business to add more vinyl chloride. What actions would be taken to offset and place safeguards? The attorney stated their willingness to work with the Village, EPA, and any reasonable safeguards needed. He stated that they wished to be economically feasible. He expressed that he was not sure of other modes of commerce other than trucking that would possibly be interested in using the land. Mr. Tohuny mentioned the benefits of residents having employment opportunities and that this proposal is best for the Village.

• Trustee Grant asked about the hours and how many jobs they projected to bring. The hours would be 8:00 a.m. - 6:00 p.m. There would be approximately fifty jobs. Phase II has potential developers already. (Panera or Dunkin Donuts)

• Trustee Williams asked about the process for the change to zoning and asked about residents' notices and involvement in the process. Mayor Burgess addressed the process. The preliminary meeting with the Board is designed to gauge their impression. If the Village is not interested, they do not wish to waste time or finances. Trustees can’t make the determination, and it would need to go to the Zoning Board.

• Trustee Bell asked about bodywork capabilities and was told it was nonexistent.

• Mayor Burgess asked about gas and diesel, and how many truck parking would be available. There would be 80-100 spaces, and they would be fenced in. The truckers would have a passkey to access the site after-hours.

• Trustee Brewer asked if they had walked the area and talked with residents. No.

The attorney advised that Atty. Mike McGrath is privy to all the documents and the proposal.
• Village Administrator Christopher Williams
  • Mr. Williams introduced himself and cited activities accomplished over the last week and a half since he had been on board. He expressed his pleasure for being at Village Hall.
  He had met with the Mayor, staff, and CMAP and thanked everyone for their support.

• Village Clerk Marva Campbell-Pruitt spoke to:
  • Sauk Village Municipal Code - Rules of Procedure
    ▪ The Clerk shared a packet during her presentation for sections 2 and 3 on Rules 2.64-83 many codes that address the procedures for the Village and how to read the codes and their updates.
    ▪ She cited 2-70 Committee Reports and many others that if not being followed, the ordinances require amending. She stated that it reads that Trustees must give a report after a meeting.
    ▪ Section 2-75 (Addressed the Board) was discussed notifying Trustees must be recognized by the Chairman before addressing the Board.
    ▪ Section 2.76 (Speaking Twice on the Same Subject) was highlighted.
    ▪ Section 2.77 (Rules and Regulations) concerns Motions and Debate were addressed and how to make the motion and how to end the motion.
    ▪ Other areas were addressed for their review and for discussion for another time.
    ▪ The Municipal Code is the primary rules for the Village. If an area is not addressed in the code, that is when the Roberts Rules of Order must be used.
    ▪ Public Comments are not followed to the extent noted
    ▪ Speaking to a topic more than twice and not for longer than five minutes was mentioned.
    ▪ She reminded the Trustees to request amendments to ordinances if they did not wish to be bound by them.

• Types of Motions, How to Write a Motion, was covered in length. We spoke of writing the motions, as it tends to be very conducive to taking care of the business. (This statement is not a part of the minutes, but I am asking if Trustees desire to use the form presented for writing motions. This will be removed) Trustee Williams asked that it be emailed
• Approving an Annual Budget and Appropriations for the Village of Sauk Village for May 1, 2019, to April 30, 2020 is not a motion but, was up for discussion. It could not be determined who asked for this agenda item. It was not discussed.

PRESENTATIONS OF ITEMS RECOMMENDED TO BE PLACED ON THE AGENDA FOR ACTION AT THE NEXT REGULARLY SCHEDULED VILLAGE BOARD MEETING

• The completion of bank reconciliations Trustee Rodrick Grant made the presentation based upon Mr. Finch’s statement of tardiness of getting up to speed on Bank Reconciliation. He presented three recommendations for consideration to assist with the process. Price ranges were from $75.00 an hour, another was $91.00 an hour, and the third was a company with a range of $136.00 – to $315.00 an hour.

We budgeted $55,000.00 for this process. He does not know how long the process would take but suggested that the three be reviewed and voted on at the next meeting. He asked for Trustees’ thoughts.

Brewer asked where the funds would come from? And, asked for clarity if we would have the person and the Assistant Finance Director.

Trustee Williams asked if we are seeking a Finance Director and would they work in tandem. Trustee Grant stated that he thought they would.

Trustee Bell asked if there were applications for the position? Unsure.

Trustee Grant asked the Trustees to provide feedback.

Trustee Williams asked if there would be a resolution and was told that it would be on the agenda to vote for the Resolution. He (Trustee Grant) asked for a recommendation for a consensus.

Trustee Bell reminded the Trustees of one applicant who is proficient with bank reconciliations.

Trustee Williams informed that a resolution is on file and that it could be adjusted to accommodate the need and the scope of the work to be performed so that it can be presented at the upcoming Board Meeting. It was asked if a fourth person, based upon Trustee Brewer’s question, be added. It was decided to vote on the resolution and to allow Mr. Finch to make the final determination.
PUBLIC COMMENT

Z. Ayres stated that she resented the company’s proposal for the truck repair. They are being harmed. She cited the experiences of family members with health issues. They promise of a strip mall is not impressive. She stated that she would speak to residents of Carlisle Estates to fight against the truck stop.

B Hopkins apologized for her outburst. She stated that residents’ feelings were not considered concerning the business and inquired if we are becoming a trucking community? She stated that presenters should face the audience. She asked for consideration of a farmer’s market or an ice cream parlor

P Couch cited 25 years of experience with trucks running 24 hours a day. She questioned the relation of the Williams’ family to Chris Williams and was told there is none.

Mrs. Jankovich reported that Carol Avenue was tagged so much with terrible graffiti

Mayor Burgess’ Comment

• The Mayor stated that he appreciated the comments and feedback. Trustees heard their feedback.

• Water fountains devices are plastic and are being taken apart to be cleaned.

• Presentations: At Committee Meeting, the presenters are commenting to the Board; thus, their backs are to the residents.

• Graffiti – it is difficult to catch villains in the act. We must paint over the boards, but to stop it, is difficult. He is open to suggestions

PUBLIC COMMENT

• B. Hopkins asked who access to the data from the company would have collecting funds and when the 221st repairs, would be completed

• J. Copley mentioned having a problem with all the meetings scheduled over the last eight months, citing meetings canceled and rescheduled and asked when the actual meetings are

• D. Morehead thanked the mayor for the tree removal. The tree pushed up the skirt of her driveway as it damaged her car. She asked for a review and corrective measures

• Z. Ayres addressed: if residents of Sauk Village were informed of the developer wanting a truck repair, the presentation by the lawyer made reference that this proposal was known; the failure to mentioned the June 5th and June 7th applications and funds submitted for each application received, and the Notice had not provided as required.

• J. Cast added to Mrs. Ayres’ statement that it violated the agreement as required. She asked why there was no transparency. She provided a historical perspective of the last water issue. She expressed concern as this involves the entire Village and that she was tired of begging for information.

• F. Anderson expressed disappointment at the contention at board meetings; she disagrees with Buds doing dispatch; she is surprised by the inspections and suggested that Trustee Jasinski provide insights, and asked that mayor to get Trustees the requested information

• A. Coleman spoke to the proposed budget. He was concerned that Trustees wanted to present budget when they did not know who the author of the modified budget was and that there were no funds stipulated for the appropriations. He spoke to the lack of transparency concerning the budget. He stated ordinances are not needed when communication and agreement are required.

Mayor Burgess’ Responses

• Proven presentation – the company, only informed of the services they offer. Must look at the practicality and cost. The sidewalks on 221st were not included in the contract.

• Meeting dates: 1st & 3rd Tuesdays are Committee Meetings. 2nd & 4th Tuesdays are meetings where business is conducted. Special Meetings are called when there is an urgency

• Thanked the satisfied resident, can’t guarantee that the sidewalk would be repaired

• Truck Repair shop – is unaware of a license /application paid for $250.00. It was a Zoning application only. It is not a done deal. He discussed the required process

• Bud’s Ambulance discussion was a presentation. It would have to go to bid. The company provided its perspective.

3) PUBLIC COMMENT
   - Hopkins clarified a question from a previous report concerning the 223rd street sidewalk. She asked if a curb would be replaced and questioned the policy on Public Comment.
   - Z. Ayres- responded to the 9/17 meeting, referring to the memo and application for changing the R-1 C 3 zoning she had received from an FOIA request. She spoke with
Director McCoy, who had advised that she had attended the meeting and completed the documents. She was commended for her honesty.

- P. Couch advised that she came to the hall to review the budget and was not allowed to make a copy of the budget. She asked how residents could investigate if they could not have a copy of the budget.
- J. Cast spoke on the police report filed and was assured that the issue would be taken care of. The Police Department had not followed through. They and the Board let her down, and the Safety person did not comment. She mentioned that she had shown pictures of the furniture used at the police station. Though the Chief promised that it would be taken care of, there had been no follow-up and no transparency. She stated that she was disappointed in Trustee Bell as the safety officer and that Trustee Jasinski does not say enough...she only votes. She asked how many vacant houses. She further stated her opinion of the other Trustee’s actions. She asked why Trustees did not support Trustee Williams.
- E. Noructt had a problem with services in the Village. She stated that she can’t buy a loaf of bread or milk and asked if we were looking for a grocery store — too many gambling and drinking establishments, but nothing for families.
- D. Ward expressed problems with the liquor store near the childcare center. He stated there were subversive activities occurring, and that residents should step forth and speak out. He asked if the location could be changed.

**Mayor Burgess’ Responses**

Mayor Burgess thanked everyone for their questions and comments. He responded only to questions.

- The project on 223rd the 221st was a project by itself. If a person’s property/apron were torn, they would be replaced. Sidewalks and curbs were separate.
- He explained the Public Comment policy.
- Zoning, anyone can apply to have a space re-zoned. Two things must take place: there must be a hearing, and the public will have an opportunity to comment, and letters would be sent to the homes of residents in that area, notifying residents of the hearing and the intended business purpose. The zoning meeting will make a recommendation to the Board. It was procedural that an application is made, and funds paid for the application.
- The budget has changed many times, fearful that what the budget was, and that would be another draft. At that meeting, residents will receive personal copies at the meeting. Does not want the preliminary budget disseminated prior to changes to be made to it.
- Parking Lot- Mayor asked about the Police Report. Mayor would speak with the Chief. New furniture would not be ordered and placed until current repairs, and demolishment of the building are made.
- Grocery Store, the Village is looking to bring in a store that would be built from the ground and not in an existing structure. The issue was between the leasee and the property owner.
• Liquor Store and Day Care, Mayor Burgess, stated that the liquor store was present prior to the daycare. The Village cannot make the store closed for the sake of the later establishment. Mayor Burgess stated that the Police would be requested to be more observant of the happenings in the area.
• The belittlement of Trustees, they try to be transparent, but to blame the Board would be a disservice as the Trustees do what they feel is right. They have a mind of their own, and they should not be berated.

4) **Reports of Officers**

a) Mayor’s Report - Mayor Derrick Burgess:

• Spoke on some of the Hot Topic issues that were presented at the IML Conference. A special meeting was scheduled for Thursday to pass two Ordinances that derived from the knowledge provided. He provided a disclaimer that the Ordinance coming to the forefront does not mean that we were seeking to get cannabis in the Village. He stated that the Ordinance must be in place now, in order to realize taxes from sales if it was the desire of the Board to vote on the issue in the future. He explained that in order to receive taxes from its sale if it was ever brought to the Village and approved. He discussed the power-point presentation and certain parameters governing the levels and types of establishments.
• Legislature imposes taxes of 1% per gallon of gas. It is used for transportation only. The Ordinance coming before the Board on Thursday is designed to increase to three cents per gallon to assist with road repairs and improvements. Funds are dedicated and are not to go to the general fund. Atty. McGrath provided greater insights. Both would be on the Special Board Agenda of Thursday, September 26, 2019.
• Mayor Burgess asked the Clerk to prepare to swear in two police officers. Chief White introduced them be stating the sacrifices they were willing to make to ensure safety, the process for them getting to this point, and their scoring and depth of testing encountered.

  Justin Hickman and Brian Sheridan were presented to the Board and residents. They were sworn into office by Village Clerk Marva Campbell-Pruitt and pinned by Police Chief Malcolm White on September 24, 2019.

d) Atty. Mike McGrath spoke on the two ordinances that would be coming before the Board for approval. He mentioned that he received a letter from Collins and Radja regarding intents for interception of funds Village funds for the Police and Fire Pension Boards and
advised that the Village research how much is outstanding and to work to make the resolution. Atty. McGrath stated that reparation need not be so severe; it was advised to use one Actuary, and that an agreement should be made to plan for payment.

- Mayor Burgess stated that the Village had been paying funds over the last few years. They wanted to levy the Village for $687,000.00
- Treasurer Finch spoke on the document presented that evening and advised that he had been in communication. The company wanted assurance that funds would go to them instead of the general fund in the amount of 1.1 million to the Fire Fund and nine million to the Police Fund. The Village must decide to levy funds as requested
- Trustee Brewer asked if the County would take 20% of the funds from the general fund and was told; they want to see the Village progressively make an effort to pay the funds. The approved budget can show the willingness to make a good faith effort to show how the Village would contribute to meet the goal as we restrict the budget
- The Board recently approved and made a recent payment of $75,000.00, and many were curious if that prompted the letter
- Trustee Todd stated that the Village would have to make hard decisions regarding the budget. She asked how we made the payment. Director Finch stated that it was discussed and approved
- Grant informed that this issue is not limited to Sauk Village only. A speaker at the IML Conference referenced the practice and predicament of many towns concerning the matter
- Brewer stated that had the Trustees known, they could have done something. Grant advised that the notification was provided during the last two audits for which the current trustees were advised
- Mayor Burgess stated that he mentioned the issue starting in 2017 and had asked the Board to allocate $50,000.00 for both mentions and it had occurred

- The report will be filed with the certified minutes.

**f) Treasurer’s Report – Mr. Anthony Finch presented the cash balances in the checking accounts, the number of unrestricted Funds, and the funds in the LOC. He spoke of the intended process to make reparations. His next budget would recommend how to avert the State from forcibly taking the funds. The report will be filed with the certified minutes.**
- Trustee Brewer questioned if the State would take 20% of the MFT and if sales taxes could be compromised. She stated that all must be realistic and that major cuts and lack of pay raises are required.
- Director Finch advised that it would be impossible to pay 90% of the outstanding fees by 2040 as directed.
- Trustee Grant advised that the Village should make a good faith effort to show that the Village would make progress to meet its obligations
- Trustee Todd stated that the lack of payment did not occur overnight, and now the Board must amend the budget to reflect the needed funds.

She suggested to remove the extra funds and reduce it back to $6,000.00 and to add language on the surety bond.     - Mayor Burgess questioned the language for the surety bond, and who would pay the cost. Trustee Brewer stated that the Village would be responsible. She was uncertain who would add the language for the bond. Trustee Todd stated that the ordinance sections needed to be re-numbered pertaining to Section 3 and Section 4.
    - It was referred to the Ordinance Review Committee as it should go to the attorney by Trustee Todd. Once readied, it would be brought back for review.
• Trustee Linda Todd
  o Amendment of Ordinance 18-012 (Chapter 78, Article II, Section 78-24 {Temporary Rehabilitation Water}) The Ordinance Review committee reviewed the recommended amendment and recommends that it not be changed, as the policy and procedures and line items are not to be a part of the ordinance.
    o Trustee Brewer explained the intent of the recommended changes and the proposed $500.00 penalty to be realized. Trustee Todd stated the Ordinance Committee does not review policy and procedures. Mayor Burgess stated that the process is on the books and that an amendment to the ordinance is not needed.
    o Director Finch intervened to explain the process in place and what is occurring. His suggestion was for the investor to install a meter and request a $225.00 deposit. He recommended amending the ordinance later after construction. All parties involved should work towards the ordinance. Trustee Williams asked why it is not being monitored. Mayor Burgess tasked Trustee Brewer, Adm. Williams, Mr. Finch and Director Weller to develop a procedure. Once completed, it should be brought to the Board to determine its feasibility. It was referred to an Ad hoc Committee consisting of the aforementioned names.

      • Mr. Finch recommended that the Blue Cross Blue Shield Insurance items be broken into departments based on the allocation of personnel. There would be one bill, but it would be broken down by departments
      • He mentioned the telephone expenses, equipment repairs, etc. as examples of the need to make changes as they are over the allocated amounts. He mentioned the need to develop a Compensations Report, not just salaries. He reminded the
Board that the Call One bill needs to be terminated as we are using First Communication.

  - The W-2’s that were in error has been corrected, but not released. Police Pension had been corrected.

  - Ordinance Amending Chapter 10 (Animal Control) of The Sauk Village Municipal Code
  - Trustee Todd explained that the ordinance concerns residents with more than three dogs or cats. The items lined out in the ordinance are recommended to be deleted. The consideration is to increase the number to four domestic animals. The current ordinance considers no more than three. The current ordinance is not enforced. The amended one should entertain businesses or foster parents. Whereas, with Apt. Buildings and renters, the owners would
make the determination. This matter will be on the next Board Meeting Agenda.

- Village Clerk Marva Campbell-Pruitt
  - Access to Documents
    - The Clerk spoke to the need for access to ordinances and resolutions for Trustees and residents. She announced that there is a summary at the beginning of the file listing the ordinance number and a brief descriptor. DISCUSSIONS

- An Ordinance for the Establishment of an Enterprise Zone Subject to the Enterprise Zone Act of the State of Illinois. (Designation of an Enterprise Zone)- Mayor Burgess addressed the topic and stated that it was self-explanatory as the Zone was already established. The Ordinance would be on the Board agenda for adoption.

- 2019 State of the Streets Presentation – Maggie introduced Curt of the Gorman and Associates, Inc, a firm contracted by C-MAP, who provided the presentation to discuss a pavement management system for the Village. He addressed C-MAP’s goal for the region concerning roadways. The presentation disclosed the findings from researching varying streets within the Village and provided the rating for them as prescribed by their rubric. The information was used to determine the deterioration rate and the conditions of those roads in the future. The company plans to provide system training in January for staff for the utilization of a software database system for future planning of rehabilitation of the pavement. A report of the full condition of every road is forthcoming. C-MAP covers the cost of the initial software, and the Village would assume the annual cost of $650.00 thereafter.

- Mayor Burgess guesstimated that the Village could expect to spend three million dollars for reconstruction and rehabilitation of the Village’s roads.

- He asked if there were funds to assist Villages with this project and was told that CDBG Grants could possibly assist with funding. The data to be collected would provide information to drive needs
concerning which roads to prioritize for repair. The funding sources may not be out at this time, but, C-MAP is having discussions on funding and data needed to drive decisions for internal usage.

Mayor Burgess mentioned the Village’s ability for shaving… and hot patching and asked if it would help to save those roads for 10 years. The response; shaving is not meant to be a 10-year fix.

Director Anthony Finch addressed the following:

- Annual TIF II & III Parity Bond Accounting - Abatement Letters requiring approval.
- The Tax Levy for 2020. He cited that the Village must abate bonds prior to submitting the Levy.
  - Recommended bonds for abatement are the
    - 2002 B Bonds as there is $400,000.00 in the fund.
    - Three bonds called A B and C, with $160,000 in excess funds.
  - Taxpayers would not be burdened with cost on either of the four bonds.
- The proposed Levy presented for FY 2020 as presented with red highlights reflect increases as indicated previously by the following lines: Liability Insurance, Unemployment, IMRF, Fire Pension, and Police Pension. The change is likely to be 4.975% with the acknowledgement that the County could change it based on its calculations.

Director Finch’s recommendation was to place it and other ordinances on the agenda for the upcoming Board Meeting for adoption.

- Cannabis Legislation
  Atty. Konen discussed five options concerning the Cannabis Legislation. He provided statistics on the locations and percentages across Illinois. Atty. Konen asked for consideration to amend Zoning Laws to allow for dispensaries and consumption in lounges. He spoke of the regulations governing the dispensaries, the amount of usage and the security and monitoring required.

    The application cost is $30,000.00. Round One applications were due January 1 and, Round 2 will likely occur next year.
