On Roll Call: Trustees Bell, Brewer, Grant, Jasinski, Todd, Williams
Others in attendance: Police Chief Malcolm White, Adm. Chris Williams, Staff Planner Maggie Jarr.

MOTION TO RECESS TO EXECUTIVE SESSION – MOVED TO THE END OF THE AGENDA

DISCUSSION ITEMS

- US EPA Brownfields Assessment Grant and Revolving Loan Fund
  - Presentation by Cook County Department of Environment and Sustainability (Kevin Schnoes, Jessica Schumacher), Delta Institute (Jack Eskin), and Village Staff, Maggie Jarr
  - Ms. Schumacker provided an introduction of self and an overview of the program.
  - Mr. Eskin spoke on the process for involvement, criteria, and funding available. Sauk Village is one of three Villages in the Southland in consideration. The goal of the program is to promote Economic Development. He spoke on site selection and prioritization. Cook County awarded $600,00.00 to identify the possibilities of land contamination. The project is 100% funded by the grant to reduce cost and liability to Villages. He discussed the benefits of the grant program and the Revolving Loan Fund.
  - Ms. Maggie Jarr spoke of how participation would benefit the Village in relationship to the Comprehension Plan.
    - Mayor Burgess questioned how long the grant process would be open. He was told that they were taking applications that day, and awards would be granted within two months. Mayor Burgess asked if private owners could utilize the funds, i.e., those in TIFF areas.

  - Attorney Matt Byrne spoke to the Village being a non-home rule municipality. The ordinance puts title companies on notice of the program. In order to close
on a property, an inspection by the Village would be required and stating who
would responsible for each area. It outlines provisions when a buyer desire to
conduct their own repairs; they must be done within 90 days. He discussed
other tools that allow for the issuance of civil fines.
  o Questions: Mayor Burgess asked if it was planned with the Community
    Development Department. Atty. Byrne stated that he worked with
    Housing. The ordinance is a new, not an amended ordinance.
  o Trustee Grant asked how the fees were derived? Atty. Byrne and
    Trustee Jasinski informed of common practices, that the fee was not to
    make a profit and that the $75.00 is an administrative fee. Trustee
    Grant and Mayor Burgess asked to add language to that effect in the
    revised ordinances to include the administrative fee and that cost for
    additional inspections are borne by the property owner. Trustee
    Williams asked for clarification. Atty. Byrne agreed to make the
    adjustments.
  o Trustee Grant mentioned both ordinances and asked who the hearing
    officer would be.
  o Trustee Jasinski described the process by stating that the appeal would
    be made to the Village Clerk and then to the adjudicator. It was agreed
    that the required language would be added.
  o If changes are made by Friday, this one and the subsequent ordinance
    will both be on the agenda at the next Board Meeting for a vote.

- An Ordinance Adopting Section 14-1 of the Village of Sauk Village Municipal Code Regarding
  Single Family Home Inspections
  ▪ Attorney Matt Byrne stated that the ordinance was the same policy when there is a
    change in occupancy and the recourse the Village would have for offenses. It helps to
    monitor properties within the Village and to ensure safety.
    o Trustee Todd asked about the recommended changes on the second copy. Dir.
      McCoy responded that she requested changes as she thought she would be a
      part of the process that was provided in November by Trustee Jasinski.
    o Mayor Burgess sent the ordinance back to the Ordinance Review Committee
      with the recommended changes for review as changes are minimal and can be
      made and voted upon. The ordinance was sent to the Atty. for the revisions,
      to be provided by Friday. Trustee Jasinski had no problem with the changes.
  o Other sections were reviewed. The new ordinance would be presented with
    recommended changes.
    o Section B fireplaces need to be added to single-family homes as well
      as sprinkler systems, heating, and fire suppression systems.
    o Additional changes were asked as related to tenants that should be
      removed.
    o The determination of whether a home is habitable was asked. It is
      vague and needs clarification. The Administrative Fees need editing.
This item would be on the agenda if the requested changes were made and brought forth by Friday.

- Village Administrator Chris Williams
  - Kane McKenna
    - Mary Thompson and Charles Durham reviewed the status of the bonds and provided an update. They distributed four abatement ordinances. The amount to be abated was next in the Series. They would be sent to the attorney and must be adopted by March. All are contiguous and are parity bonds.
    - Trustee Brewer asked who were clients in each TIF District and was informed that Kane McKenna would not have this information but was advised that 90% goes to DP Partners and 10% goes to the Village.
    - Trustee Brewer asked about the analysis and why regular reports and detailed reports for invoicing were not provided and was told reports are shared with those who requested them and cited that night’s presentation was a sample of their involvement, but it would not be presented as a written invoice.
    - Trustee Williams asked when the last TIF Meeting was? The Clerk stated that it was in 2018.
  - Open Government Presentation
    - Speakers, Alex Martinis and Matt Cahill. They provided a slide presentation describing the facets of the cloud-based program that allows for greater view during the budget process. It allows for the data to be stream-lined to make better data-driven discussions to share with Trustees and residents. It provides for:
      - Departmental collaboration
      - Reporting financial and non-financials.
      - Monthly and annual expenses could be shared departmentally; matrixes can be reviewed internally to determine how things are being conducted.
      - Management reporting, performance, and integration would be tied in with CIVICS; thus, users can not manipulate data.
    - Trustee Grant asked about the five-year agreement and was told, the one-time fee has ranges and discussed the varying contingencies. The Trustee asked who would input the data? It is an internal issue.
Trustee Brewer asked for a timeline to determine the feasibility of going with this system as opposed to the audit.

Mayor Burgess asked about payment options. The first-year expenses include set up and software. The Mayor asked who would make the entries and if there would be narratives, cost, and location of training.

The quote is available until March.

Trustee Brewer asked about the ability for day-to-day reports of actions done

Trustees asked to review another system prior to deciding.

Gas N Wash - Lenny was not present, but the Mayor explained that they wanted to extend business hours on Sunday for the sale of alcohol, as discussed previously. If no comments, the Attorney would be asked to draft an amendment to the ordinance. Mayor Burgess asked if anyone had any comments. It was clarified that the amended ordinance would apply to any place with a liquor license. Trustees Williams and Bell were not in favor.

Website Update

Administrator Williams stated he looked at other opportunities aside from Municode that had been presented to the Clerk and the VA. He brought back the concept and asked how to proceed. The Village Clerk responded to the reason the item was asked to be tabled as a result of Trustees asking to see additional options. The Mayor asked if he was presenting a new vendor. The Village Administrator was not presenting another but expressed willingness to do. Trustee Williams stated numerous updates needed before considering a new website and asked to see other companies. She offered her services.

Mayor Burgess stated more than quotes are needed, a point person is required. He and Trustee Williams will communicate.

The Village Administrator stated that he would bring back additional quotes.

Trustee Grant asked to have another look at SOCS and other companies. The VA will bring forth presentations for review.

- CMAP Memorandum of Understanding with Metropolitan Planning Council

  Staff Planner, Maggie Jarr, presented the MOU for a partnership agreement, stating it was selected as a no-cost venture to the Village for water loss within the Village. Ms. Jarr will develop a resolution to present for Board Approval at the next Board Meeting.
Police Chief Malcolm White presented an Interdepartmental Agreement between the Village and School Dist. 168 for hiring an officer. The document presented did not have figures. The Board stated that actual numbers were needed prior to commitment.

Trustee Bell and Williams asked if a resolution is required and asked to run through Legal and to remove WILL County. The Village Clerk stated that a resolution was needed. Trustee Williams asked if it was needed to be reviewed by the attorney and the Police and Fire Commission and was told that review by the Police and Fire Commission is not applicable but was presented to the attorney.

Village Clerk Marva Campbell-Pruitt

Community Center Rental

  - Trustee Brewer asked that separate line items be developed for both the Senior Center and the Community Center.
  - The Clerk was asked to present policies for both centers.

Community Center Space Allocations and Storage

- The Village Clerk asked that usage of the Community Center for the Panera Bread Program to be reconsidered and moved to the Senior Center.

- The Clerk proposed to present minutes at Committee Meetings. Trustees would have a week to review. Regarding meeting packet materials, she asked for materials by Friday so that Trustees will have enough time to review. She cited an instance where an ordinance was approved without Trustees’ review of the actual document. She advised that if documents are not provided by Friday, the item would not be added to the agenda.
  - Trustee Brewer asked if the documents could be sent via e-mail? She was reminded that the process must be consistent with all Trustees
  - Trustee Williams stated that meeting packets should be presented early for the Trustee’s review.

Request for Reviewal and Amendment of the Municipal Code for the Village Clerk’s Duties and Responsibilities

- The Clerk asked for an Ordinance to be drafted or amended to encapsulate the actual duties of the clerk and to remove instances relative to the collection of funds and all others to be determined as not applicable.
  - Trustee Jasinski mentioned that there were several instances incorrectly outlining the Clerk’s responsibility
• Mayor Burgess
  o A Resolution to Establish the 2020 Dates and Times of Official Meetings of the Sauk Village Corporate Authorities. Hearing no opposition, he stated that some meetings would be canceled if the need is not there. He stated that it would be on the next Board Meeting agenda for Adoption.     ▪ Trustee Brewer asked about monitoring mileage and Trustee Todd asked about drug testing when there is an accident.

• Other Updates Requested
  o Trustee Williams stated that she had put most in writing and asked for feedback.
  o She asked for her committee to be ad hoc for the newsletter, website development
  o The employment notice for the Finance Director, Parks and Recreation Director and any other open employment positions should be posted to the website
  o Messages can be included in the Water billing.
  o She is seeking greater information on Code Red

- D Sapp asked for an explanation for how the two ordinances protect the homeowners
- T. Jones spoke to the Census Meetings that no Trustee has attended.
- L. Sapp spoke on ordinances and representation by the Trustees and fair representation of homeowners.
- J. Cast stated her words misrepresented in the minutes.

- A. Coleman spoke of the proper use of mics.
- F. Williams asked about the Town Hall Meeting and asked for patience with misstated language.

Mayor Burgess’ Remarks

He could not comment on the first comment as the matter is in litigation.
The ordinances in question for homeowners and rentals are self-explanatory.

He understood them being upset because of a lack of support for the 2020 Census. Redistricting may cause a loss of legislators.

Ordinances are for all residents. Should not separate by owner or renter.

He apologized about the resident being upset with what was in the minutes. He advised that residents must be respectful if they desire respect.

Mics must be looked at during the next budget session.

The ESDA Director had been asking for assistance, and it is almost like volunteering.

iv. Trustee Bell asked about the parking lot payment as the payment was not approved by the Board. Dir. Finch stated it was paid three months ago. Anthony Finch signed the check. It was a line item. Finch stated that Public works not able to do the job, and the warranty was never considered.

v. Trustee Brewer stated that by code, all expenses must be approved by Trustees. If trustees state not to pay, their decision should not be overruled. Atty. McGrath stated it was a separate issue. Trustees should approve an expense, and he would put together a memo as if work was completed, the Village is responsible for the bills or could be sued, which would impact the audit findings. There is a remedy against a contractor whose work was not satisfactory. But, if the work is completed, they must approve the payment. Treasurer Finch discussed the process.

Trustee Grant
  o Stated that he had read the Audit and that this Board could do some things to correct the past findings.
  o The Forensic Audit was not on the agenda, and he was not expecting it to be there as the Board never decided who would do it, as there was no agreement at the Committee. He had asked for a cost break-down on all three proposals before deciding.

Trustee Jasinski congratulated the students and apologized that she could not be at the Kindness Challenge.
She stated that she hoped that the Forensic Audit could be done next month

Trustee Brewer
- Spoke on the forensic Audit as there are things that transpired since May 2017. She is looking for a clean slate.   o There was a discussion on a Resolution Establishing a Complete Streets Policy for the Village of Sauk Village presented by Maggie Jarr, Village Planner. She stated the need for streets that can be safely traveled by all pedestrians, bicyclists, and buses. The policy is needed to establish a commitment by the Village to develop a safe, quality of life experience as captured in the Resolution. The Resolution does not require all elements on required roadways. She stated that the adoption of a policy would ensure greater access to grant funding. It was agreed that the item would be placed on the next Board Agenda.

agreement with SSMMA. It was agreed that the item would be placed on the next Board Agenda.

Questions/Comments

- Trustee Grant asked about the Complete Streets Committee. Ms. Jarr stated that there was a meeting the previous week comprised of Dept. Heads, Directors, and a Trustee, and thought it was the right make-up, but it could be altered.
- Trustee Brewer mentioned the need for street signs as a significant focus throughout the Village.
- Village Clerk Marva Campbell-Pruitt
  - The Village Clerk addressed the Ordinance Amending Division 4 Duties of the Village Clerk Protocol for Approval of Minutes. She stated that policy and procedures were requested for the Attorney to draft. An Ordinance was developed instead. She asked for comments on the revised Ordinance be sent to the Clerk’s Office by Friday so that the Ordinance Review Committee could review it along with the other recommended amendments.

  - Trustee Grant asked why the phrase “Tampering” was removed for the Village Clerk.
  - Mayor Burgess stated recommendations should come back to the Clerk.
  - Trustee Todd asked to have recommended changes for the Ordinance Review Committee to discuss them at the following committee meeting. She was asked if the other recommended duties and responsibilities would be included to combine all duties and responsibilities into one Ordinance. Trustee Todd did not think so, but, took great diligence to explain what the Clerk meant based upon what had been presented previously.
  - Trustee Williams pointed out language illustrated in the Binding Agreement concerning OMA and duties to approve minutes timely.
  - Much unrest ensued.
  - Mayor Burgess asked that any desired changes be submitted to the Village Clerk.
- The Village Clerk spoke of the current copier’s ongoing need for servicing. She explained that it was recommended to add an attachment rather than replacing it at this time. She sought
approval to solicit a quote from Proven Copier Lease of Equipment to add an accessory for stapling documents. She was asked to bring back a quote.

- Trustee Grant thought the price was excessive. The Clerk justified the purchase as it would decrease the time used when preparing meeting documents.
- Trustee Brewer asked about the capability of the copier and was told that the attachment was needed.

- Trustee Grant
  - Trustee Grant spoke of the Finance Policy and Procedures and asked Trustees who had not provided input to do so. He asked each Trustee to comment individually. - Mayor Derrick Burgess
  - Mayor Burgess discussed the agenda item on Infrastructure Repairs:
    - He reported that he has looked at quotes for repairs. Seven streets would be impacted. Some have not been repaired since 1957 and beyond. In improving the streets, he stated that the Village must include ADA compliance. He cited a cost of $588,320.00 or $616,500.00 if concrete is used. The projects do not include sidewalks.
    - Mayor Burgess provided an update on the Tree Removal. Director Weller sought quotes from a vendor as the Village does not have the equipment. He announced quotes for removal of $2,000.00 for the larger trees and $600.00 for smaller trees. There are two hundred and fifty trees needing removal. They are targeting to start this work in the Spring.
    - The projects would cost approximately one million dollars. It would be bidded. The Mayor stated that they would not use MFT funds but was hoping to use the reserve funds. He will put information in mailboxes, and Director Weller would be the project leader.
    - Streetlights repairs would come from MFT Funds.

He was asked:
What were the priorities? A combination of the streets and trees would take precedence.
If the jobs had gone to bid? And if there would be three quotes solicited. He sought approval to go to bid with the projects. It was agreed that the item would be placed on the next Board Agenda.

- Trustee Linda Todd
Trustee Todd reintroduced the Ordinance Declaring a Village-Wide Spending Freeze with the recommended changes for internal control. The Committee recommended change for identifying:

- Emergency spending needs
- Department heads should have authority and responsibility for maintaining their budget

Comments and questions that were identified required additional information. The Mayor asked why his position was excluded from who would be responsible for spending. He mentioned who would be responsible for overseeing services. He would want to be included in both scenarios. A Trustee stated the gray areas and the difficulty of knowing what constitutes an emergency, if the funds were available in the fund, etc. It was said that they receive a budget to actual report so that it can be realized. There was discussion about what remained in the budget or budget lines. The Ordinance was referred back to the Committee for changes and review.

Trustee Todd reintroduced the Ordinance Declaring a Village-Wide Hiring Freeze. Recommended changes were presented, and comments were made regarding:

- Adding the language: Mayor would make recommendations with approval of the Board
- Who decides staffing needs? This decision is made at Budget Level, and it needs a note that may not be in the current budget, but the position is necessary. A statement would be required to entertain how to handle an exception where a position, not in the budget, is essential and approved by a budget amendment.
- There are needed timelines for when the Hiring Freeze is in effect.

The Ordinance was referred back to Committee to add language

Ordinance Amending Article II of Chapter 78 (Rehab Water) Trustee Brewer and Dir. Finch recommended a new language required as some businesses do not have meters to check. Trustee Grant asked if the price for commercial meters be added? It was agreed that the item would be placed on the next Board Agenda.

Atty. Mike McGrath

Mayor Burgess called for a motion to approve a Resolution Approving the Retention of Sikich, LLP for Forensic Auditing Services in the Village of Sauk Village, Illinois.

Trustee Brewer moved, and Trustee Williams seconded.

Comments and Questions:

Extensive dialogue ensued as there was a significant number of questions, suppositions, and unrest.
• Trustee Grant stated his reluctance to expending the reserve funds. He asked if the funds from the Reserves would be paid back if there were no findings.

• Trustee Williams expressed disappointment that the Interim Finance Director was not present. She referenced Section Two of the Resolution concerning the year(s) and the years for which the Forensic Audit would encompass. It was her understanding that it would cover one year, not two, and that it would cover 2017-2018.

• Trustee Grant stated that the subject was presented at the Committee Meeting and that they reviewed three companies. They had not discussed the scope for the Forensic Audit and that neither firm had been decided; another Committee of the Whole meeting was required before a meeting to adopt and approve a Resolution and company.

• Trustee Williams countered that the Interim Director asked for their recommendations to be sent to him. Trustees communicated with the Interim Director by e-mail and agreed to follow his recommendation of Sikich.

• Trustee Grant avowed that the meeting conducted that night should have been to approve the company in the public’s view collectively and asked not to vote on the item in light of the number of comments.

• Trustee Williams stated that it was appropriate to have those discussions before the vote.

• Mayor Burgess asked if there was a reason that the vote had to be taken that night as he thought there was readiness on the motion that was not evident. He stated that he called the meeting as he was forewarned that if he did not, three Trustees would call for the meeting with the agenda item as noted. He asked if anyone had reached out to the Interim Director for him to attend the meeting and if notice had been provided for him to be in attendance.

• Trustee Williams stated that she assumed he would be present.

• Trustee Brewer stated that she had talked with the Interim Director and other Trustees individually, and that was the reason for the vote to go forth. She cited reasons for the need of the Forensic Audit.

• Mayor Burgess inquired why move forward with the vote with the number of questions being asked without answers.

• Trustee Bell stated that they are accepting the Interim Director’s recommendation.

• Trustee Todd commented that an e-mail was sent to Trustees by the Interim Director asking for the chosen company, the years, what he wanted to be in the scope, and where the funds should be derived. She inquired if all Trustees had received and responded to the email. She suggested that they moved forth with the vote.

• Trustee Williams stated that the Resolution could be amended for one year, or they could proceed to include the two years and that funding would come from the reserves.
• Mayor Burgess stated that the use of reserves is not acceptable. He thought payment would be from the Line of Credit. He shared that they had always talked of a two-year audit. Those funds (Reserve) should be used for infrastructure repairs.

• Trustee Williams stated that she was told that the reserves would be more advantageous and cited the differences, as said to her by the Interim Director.

• The Village Clerk took liberties to state that the process undertaken was comparable to a behind the scenes transaction (a back-door transaction) and how improper the actions had been. She noted that the discussions should have transpired at a Committee Meeting, not individually with the Interim Director in person or via e-mails. She mentioned the three companies presented and the Trustee’s request to have comparables of all three companies. She explained why she submitted an FOIA request as the correct procedures had not been followed. She informed of her intentions if the vote goes forth.

• Mayor Burgess asked for confirmation of the Village Clerk’s comments and its intent. He informed that voting on a $100,000.00 a year, Forensic Audit without knowledge, would result in the Annual Audit being delayed during the Forensic Audit.

• Trustee Todd suggested that another special meeting should be called when the Interim Director is available.

• The Mayor asked if the originator desired to rescind the motion. It was not accepted.

**On Roll Call**

Ayes: Trustees Gary Bell, Bernice Brewer, Linda Todd, Debra Williams
Nays: Trustee Grant
Absent: Trustee Jasinski

**Motion Carried**

**Public Comment**

K. Boetcher commented on the Forensic Audit and asked would misappropriated funds be refunded, how, and if there would be prosecutions.

P. Couch read a stature concerning speaking on the same subject more than twice. The need for the Forensic Audit should be paid by any available funds.

J. Cast stated that the Forensic Audit should have been completed a while back as there were alleged issues. The Interim Finance Director’s recommendation should be accepted. She thought the previous week’s meeting had accomplished it.
Mayor Burgess’ Responses

Asked what to do when fraud is found, and what do you do when there are no findings?

Forensic Audit was passed and would go forth, and the Mayor will fight for the money as the interest has been $16,000.00 in a year.

**CALL TO ORDER**
  ▪ Roll Call

**MOTION TO RECESS TO EXECUTIVE SESSION**
  ▪ Discussion of Personnel Matters and Update of Pending Litigation, Collective Bargaining Matters, Review Executive Board Minutes, Real Estate, or Employment and Compensation as needed (5ILCS) 120/2 (c) (2018)

**MOTION TO RECONVENE**

**DISCUSSIONS**
  o **Village Clerk Marva Campbell-Pruitt**
    o A PetChamps Presentation was provided by Stan Urban and staff, Julie Vaught. He started by providing an update on the Pro Champs register153 30,000.00 This year, Seventy-nine new properties were registered, and Twenty-five properties were de-registered.
    o Julie provided a brief introduction of the PetChamps Program for registering animals, along with pet profiles that would be on-line and providing animal tags. They discussed payment procedures and renewal information along with other advantages of using the system. Trustees asked questions about how to involve veterinarians who are not local, the cost of the services, how the company would acquire the database, if a contract is required, and asked that the formal presentation be made available. It was decided that the information be provided to residents by way of the water bills. The Clerk will draft a letter for inclusion for both the animal tags and vehicle stickers. She informed that at the following Board Meeting, the Board would be asked for approval to prepare an ordinance and agreements. It was decided to withdraw the action. A Trustee reminded the others that it was voted on that the date change had
been approved at the April 16, 2020, meeting. The agenda item for the Ordinance would be withdrawn, but a letter would go to residents with the date changes.

- **Fire Chief Stephen Barrett**
  - A BrightStar Ambulance Service Proposal was presented by Chief Barrett, highlighting the services the company seeks to provide to the Village. He outlined the rates, the times of operation, and the staffing to be available along with their certifications. Chief Barrett provided verbal comparison with other companies as many were reluctant quote their prices.
  - The contract with the current company will be up June 21, 2020, and a decision is needed as soon as possible.
    - Trustees questioned and commented as follows: the length of the term of the proposed contract (3-5 years); if the mutual aid assistance would still be available (yes); if the current contract requires a thirty-day notice of non-renewal (unable to ascertain); if a bidding process is required with three proposals (three bids are not required for emergency services); response time (current ETA is 18-20 minutes it would decrease to 4-5 minutes with the proposed company); the cost for residents would be reduced; and if the funds are available in the budget. (the prices are equivalent); how the ambulances are manned, can they assist with fire fighting (they would be strictly EMS); the escape clause (it will be in the contract) and the price will remain the same for three years. Do we need an ordinance or resolution change, to be researched); Do we buy out the existing contract (the attorneys will be consulted.)
  - Ms. Jarr provided an update on Long-Range Planning Activities. She notified that her work plan would be changed to include greater effort and resources for the Village to meet its goals. She announced that C-Map would host a webinar on the impact of CoVid-19. The Mayor asked where masks could be obtained. Ms. Jarr will investigate.

- Police Chief White discussed the AXON Body Cameras proposal. He provided a history of the company and surveyed other departments regarding the company. The proposal will not be on the Board Agenda for a vote. Three Proposals would not be sought as the Taser International (AXON) is already in use by the Village, and this would build upon systems already utilized. There would be a five-year contract with upgraded equipment as needed. Two systems were evaluated by officers with good results. The first year would be financially more for the equipment but would reduce in subsequent years. He mentioned funding sources.

- Trustee Todd reintroduced the Ordinance Declaring a Village-Wide Spending Freeze. She highlighted the changes and asked if there were questions.
  - A trustee reiterated the procedure for Department Heads’ approval. And, that now the Ordinance covers essential and non-essential spending. Would Department Heads receive a monthly review? The Department Heads can track their spending, but to meet with them quarterly. The Trustees were advised that there are items that would need to be purchased in response to the pandemic crises.
  - Trustee Todd reintroduced an Ordinance Declaring a Village-Wide Hiring Freeze and asked for questions. A question was asked if the Fire Department was included in the freeze, and was informed that they
would need to come before the Board if additional staff would exceed the approved budget. Another Trustee stated that if a new position is required, it must be authorized in the upcoming budget process.

- Trustee Todd reintroduced An Ordinance Amending Article II (water) of Chapter 78 (utilities) of the Village Code (Re-hab Water) and asked for questions. She explained the one-line change and why the cost for a water meter was not listed. A trustee asked how the Village tracks those with re-hab water. There is a file in the front office. Mr. Finch further described the system for thirty-day approval.

- Trustee Todd reintroduced An Ordinance Amending Division 3 (Rules of Procedure). It had been previously tabled. The Ordinance Review Committee was unclear of its intent as there was no original Ordinance on file to amend. Trustee Brewer was called to respond. She recounted the process. The attorney drafted the Ordinance and asked that it be placed on the table as it required additional research (it should actually be tabled again) It was addressed so that two Trustees could recommend an agenda item. There was continued review required. It would not be voted on at the next Board Meeting. The Clerk provided notice that the language in the Ordinance conflicts with the existing Ordinance requiring three Trustees to call a Special Meeting and set the agenda for the said meeting. A Trustee clarified that the agenda can not be changed within forty-eight hours and had been posted.

- Trustee Todd reintroduced the request that the Village Clerk’s Duties and Responsibilities be committed to an Ordinance. She sought removal for any reference to the Clerk’s Office collecting funds. The Ordinance Review Committee recommended that it should stay as presented by State Statute.

- A Trustee questioned the Clerk’s responsibility for the establishment of fees (Fees Schedule) and her duties relative to commissions and committees. The Clerk provided clarification on the roles. The Trustees agreed not to proceed forth with the Ordinance, in spite of the Clerk noting the advantages to assist with the future transition of the office. It was still decided that the Board would not move forward with drafting an Ordinance. They were reminded that the collection of funds should be eliminated along with a review of the numerous instances that required removal.

- Trustee Brewer requested consideration for Pandemic Relief Funds during another Committee Meeting. She asked for a reduction ($25.00) of water fees for June and July. Discussion ensued on how to handle incidences where the landlord pays the bill; those who are already behind in bill payment; the tentativeness of the Village’s finances; the cost was discussed;

- Trustee Williams discussed the need for additional Emergency Management Staff. It was acknowledged that the message to recruit staff had been documented, and the appeal had been made numerous times. Director Vavrik has been recruiting and appealing to others to join the team. The Fire Chief offered to assist.
J. Morden announced that the bills for the Lincoln Lansing Drainage District would be mailed soon. Thanked Public Works for the removal of shopping carts.

L. Washington asked for masks and hand sanitizers for residents. The Mayor is seeking the requested items.

vi. Miller Cooper and a TIF Audit is forthcoming.

vii. Payroll systems, there are only three reliable, can review PayCheck, and Paylocity, but the decision should be dependent on the quality of service needed for day-to-day operations, as ADP has been lacking. Department Heads should be involved in the process.

MOTION TO RECESS TO EXECUTIVE SESSION
There was no Executive Session

MOTION TO RECONVENE

Mayor Derrick Burgess introduced the following two organizations:
  o Ambulance Services Provider – Bright Star, the presenters were Dionte Holmes and Stanley Nevels. They presented the intended deliverables if the Village would engage them in a contract:
    ▪ Twenty-four hours onsite coverage
    ▪ Day Car to be provided during peak time 12 am – 12 pm
    ▪ CPR
    ▪ EMT Training at no cost, but fees would come to the Village
    ▪ Contact Supervisor with one, a resident of Sauk Village seven days a week
    ▪ Participation in community events, blood pressure, and medical exams
    ▪ S.V. Branded vehicles
    ▪ Maintenance, gas, and insurance
    ▪ The Bid is for $80,000.00 for three years and an increase of up to 10% after that.

Trustees had the following questions/concerns addressed:
  ▪ The Attorney did not review the contract, but, would do so before adoption
  ▪ The language recommended for editing concerned default of 60 days and termination without notice
  ▪ The second car or day car was clarified
- Monday – Saturday would be peak hours; a car can be available as needed on Sunday
- The length of time for the contract must be agreed upon; whether, it is four or five years, or to be renegotiated in the fourth year. All references to the length of time will be revised to show four years.
- The fleet is newer and up to code
- EMT classes would be as early as September
- Bright Start has provided service to surrounding communities for nine years. No municipalities, but serve nursing homes and Will County
- The document would be sent to the Attorney and Trustees for adoption at the next Board Meeting or on June 23, depending on the readiness of the contract.

- Lenny’s Gas & Wash Operations
  - Leonar McEnery asked to sell beer and wine on Sunday mornings only. They would be packaged carry-out to begin at 8:00 a.m. opposed to noon. He asked to have the capability to match the competitors and to keep the sales within the Village.
- Trustees had the following questions/concerns addressed:
  - A volume increase is expected
  - During that period, only packaged goods would be sold. There would be no under-age sales.
    - Mayor Burgess would send the Ordinance to the Attorney for an amendment to include all businesses.
    - A consensus of the Board was taken, and it was decided that the item would be included on the June 9, 2020, agenda for a vote. A Trustee asked to review the original Ordinance.

- Trustee Sherry Jasinski stated concern for the permit process and for handling in-house permits and inspections.
  - Housing Permits – Tom Pahnke, Safe Built, introduced himself and provided his credentials. He provided the following:
    - His service is set by an Ordinance
    - He explained the process. There is an administrative fee; an example is if the inspection costs $95.00, $75 goes to Safe Built and $20.00 to the Village. The full payment is derived from the application fees. None is from the General Fund.
      - Mr. Pahnke cited the following issues
        - Permits are not being sent to the Permit Tech for inspection scheduling
        - Difficulties in getting payment. The Village is six-month delinquent
        - Housing inspector is not necessarily certified, and there is no verification process
        - In-house Inspections are offensive
        - He wishes to strengthen the front office process to send the inspection request sooner.
Trustees had the following questions/concerns addressed:

- Independent inspections were bidded by one company, Safe Built.
- Invoices were submitted to Mr. Finch, and those funds should be set aside for Safe Built as the funds are not taken from General Funds.
- In-house inspections should be reviewed by the Attorney.
- Issues of the mold in homes were discussed. Safe Built was not involved as they only do construction inspections.
- Going forth, Mr. Pahnke was asked to communicate issues with Mayor Burgess.
- The breakdown of the process is a training issue, and the Mayor will meet with him, the front office staff, and the Community Development Director.
- In-house permits would be addressed and improved, with a report back to the Board.
- The contract with Safe Built is an annual contract that automatically rolls over.

Village Clerk Marva Campbell-Pruitt addressed the following:

- Department Head’s Reports – The Clerk asked for consideration that Department Heads follow standard industry procedures concerning reports, and rather than them providing reports every two weeks, that they submit reports at the end of the month.
  - Trustees requested that Department Heads continue to provide reports every two weeks to ensure accountability, transparency, checks and balances, and more information.
  - The Mayor stated that Department Heads when asked, must meet the obligation. They will be asked to submit their reports as requested.
  - CodeRed should be utilized more, and incidents must be reported.

- Trustee’s Reports – The Clerk reminded Trustees that they are required, by code, to provide monthly reports towards their Standing Committees. She asked that the Mayor and Trustees provide said reports, and to provide the reports being read at meetings rather than only announcing their next meeting. There were no questions or comments. The issue was not resolved.

Trustee Debra Williams discussed the following:

- Interim Delegation of Village Administrator’s Duties and Village Administrator Search. Trustee Williams sent the current duties and asked that they are reviewed and amended. The administrative responsibilities must be reviewed and asked that interim positions be discussed in the next meeting’s Executive Session.

Trustees had the following questions/comments:

- It was recommended that the Village Code knowledge and state statutes should be added as an experience.
- The Administrator role, as presented, is too expansive and, a Human Resources consultant is needed.
- The positions were not in the budget, and there is a Hiring Freeze.
• The Human Resource position can be limited to ten hours weekly, and job descriptions would be that individual’s responsibility

Trustees had the following questions/comments:

  o When would all staff return to work?
  o Have applications for business licenses and permits been mailed?
  o The process for issuance of licenses and permits requires review.
  o How were purchases of the new computers being monitored:
    o There was a question about the FOIAs and who was attending that detail, and, if the person was paid, the offer of Trustees to assist was not taken into consideration. The volunteer has already been through the training.
    o Communication with Trustees could offset resistance as the volunteer should have been discussed with the Trustees.
  o There was a request to review the salaries in the upcoming budget, with attention to the hiring and salary freezes.
  o Deadlines/Extensions for Village, Business, and Pet Licenses
    ▪ Notices of all extensions until the end of July must be communicated

• Trustees had the following questions/comments:
  o A question on how the water billing was calculated. Clarity was provided, and the information will be conveyed in the next water bill.

• Trustee Bernice Brewer
  o Contractual Matters- Trustee Brewer discussed the need for all contracts to be reviewed and approved by the Trustees. The need for a bid if the contract was over $10,000.00. She stated state statute and Village Code regarding designated line items in the budget.
    ▪ The need to establish rules and procedures for contracts, perhaps an Ordinance, is needed.
    ▪ Issues with Kane McKenna and Verizon contracts and the need to monitor them within 30-60 days before the expiration of contracts
    ▪ Discussions ensued about the company that installed the plexiglass protective barriers and their qualifications. The process was communicated to and from the Village Administrator. A copy of their license, the qualifications, and the contract were requested.
• The Clerk asked that the established policy for emailed communication and consensus be followed to ensure that all information is communicated with and between Trustees to negate lack of follow-through.

• Trustee Gary Bell
  o The discussion of the Fire Chief Position was deferred and would be considered during the budget process. He commented on the positive impact of the current Fire Chief. Trustees commented favorably as well and the need to start the budget process.

• Interim Finance Director
  o Financial Updates – Mr. Finch was not present for discussions.

PUBLIC COMMENT

  o J. Daley, L. Daley, and R. Robinson commented on the unfairness of the bid process for ambulance service, the scope of services, and the company’s success rate. Spoke of the need to research the costs of providing 24/7 services; EMT classes.

Mayor Burgess commented that the contract would be awarded at the next board meeting. If there is a dispute, the RFP and contract would be reviewed with the Attorney. He expressed his appreciation for their comments and services to the Village.

  o P. Couch questioned the Police Chief’s salary, commented on the hiring freeze, village and animal licenses, the temporary entrances and exits for seniors, volunteer, and a police report, received no CodeRed and FOIA response

Mayor Burgess stated that he would check on the Chief’s salary, the Village would review the process for entrance and exits; CodeRed was addressed by the Clerk and the one alert sent and that there were no others were provided; The FOIA was discussed previously.

  o S. Davenport spoke of the need for mandate reporting, and communication needs via CodeRed; water bills; the plexiglass shield is positive.

Mayor Burgess re-stated the plan to provide the process for water billing and spoke on the type of shield

  o J. Cast expressed concern about the CodeRed ineffectiveness; lack of transparency; the number of empty houses and high grass; the budget and its hearings; pay raises; Falco and his replacement; and the police department’s upgrades

Mayor Burgess stated that CodeRed notifications should be sent; he asked that addresses for high grass should be sent to his office; budgets will be addressed with Department Heads; pay raises will be negotiated; the police department is being upgraded, and consideration for another canine unit is being entertained.

• Roll Call
  On Roll Trustees Bell, Brewer, Grant, Jasinski, Todd, Williams
  Others in Attendance: Interim Finance/Treasurer Finch, Police Chief White, arrived later to the meeting.

---

**DISCUSSIONS**

• **Police Chief Malcolm White**
  Chief White was not in attendance at the start of the meeting. He presented it later during the meeting.

• **Village Clerk Marva Campbell-Pruitt**
  o An Ordinance Establishing Open Meetings Act Remote Attendance & Disaster Remote Meeting Policies
    ▪ The Village Clerk discussed the Ordinance and justified its need relative to a remote meeting. The item would be on the next meeting for ratification. A question was asked about verbatim recordings and was informed that the ZOOM Meeting is being recorded, but it does not pertain to meeting minutes.

• **Trustee Rodrick Grant**
  o Finance Policy and Procedures
    Reintroduced the document and had asked and received a few comments from Trustees. The feedback received was made and red-lined for ease of reading. He asked each Trustee individually if there were other comments. Additional questions were asked about written bids; the Interim Village Administrator reviewing the document; and a list of changes had been presented; requested legal guidance pertaining to those who would approve financial documents; investment policy, contracts, and procurement were missing; separation of duties; it appears to be a home-rule policy. Trustee Grant clarified the concerns and highlighted the location in the document where the referenced items were located; All
processes were asked to be included in the policy. Trustee Grant will follow up with sending the document to the Attorney after the Interim Village Administrator and Finance Director provided recommendations, and he asked that the document be brought back for review.

- **Trustee Bernice Brewer**
  - Spending Freeze
    Trustee Brewer asked questions about the spending freeze before suggesting additional appropriations for PPE. She stated that the Settlement Agreement allowed for training expenses for CIVIC and asked about the Forensic Audit.
  - She spoke of the need to separate MFT Funds and CDBG Grants. Mayor Burgess shared the regulations of CDBG and how to utilize MFT funds to offset costs that the CDBG funds do not cover. Neither are subjected to the Spending Freeze recently approved. PPEs can be included in the upcoming budget.

- **Comments**
  - Mr. Finch provided an update on the proceedings of the Forensic Audit and the Annual Audit. The training was not in the previous budget and did not recall it being in the Settlement Agreement. He does not agree with legislative bodies having access to systems. Access was intended for data, as the company cannot make the needed provisions to ensure its confidentiality and stability by making it “read-only” access. He clarified that his department had provided financial information as requested.
  - Trustees responded accordingly: The Board was not in agreement with all Trustees having access as it was needed. A solution would be to place the Village Administrator responsible for securing the requested information. The Settlement Agreement was read clarifying access to review only, and that training was not included.

- **Police Chief Malcolm White**
  The Chief provided two presentations to provide background, history of availability of both agreements to be voted on at the upcoming Special Board Meeting.
  - StarCom User Agreement (Portable Radios)
  - Contract with AXON (Body Cameras) (Both sides of the document were not printed. He will send it.) He recommended utilizing funding through DEA.) Additional add-on capabilities were discussed. He mentioned other companies for which he does not endorse.
  After the presentations, it was agreed to vote on both contracts with the stipulations as stated.
  - **Comments/Questions**
    The Mayor asked for clarification on costs, and a Trustee asked if there was a policy in place and to have it available to Trustees. There is no policy.
• **Trustees Gary Bell & Debbie Williams**
  
  o Hiring an interim part-time Village administrator (Ordinance and Consultant Agreement)
  o Hiring a Human Resources Consultant (Consultant Agreement)

• **Trustee Williams** took the lead in discussing the amended Ordinance and the agreements. She discussed items that were redlined that should remain concerning personnel, to over-seeing employee issues in the absence of a Human Resources staff. She addressed the language in the Human Resource’s agreement Consultant’s language recommended by the Mayor to include the Mayor and consent of the Board of Trustees for the appointments.
  
  o She discussed the longevity of the contract and how the agreement can be terminated. Some items required corrections. Those agreements would be presented and shared with the Trustees before sending back to the Attorney.
  
  o She stated that she did not agree with an increase in payment after 90 days for the Village Administrator. Evaluation Process is required within the 90 days.

  **Comments/Questions**
  Trustees expressed concerns with the need to firm up the sole responsibilities of the Human Resources position as it is not so static. There should be two separate Ordinances. Concerns were expressed that the Village Administrator recommends to the Board, salaries of employees as it is not within the purview of the Board. The HR person should not be considered temporary without concern who would pick up the slack of the responsibilities. There is hope that both positions should remain in the Village indefinitely. The changes require correcting before ratifying the Ordinance as the dollar amounts are incorrect, and there are many changes needed. A Trustee asked to include in the two separate Ordinances, greater specification of the days and number of hours to be worked.
  
The agreements and Ordinance will be on the upcoming schedule for ratification. They can be amended as needed.

• **Treasurer Anthony Finch**
  
  o Insurance Broker, Kahlil Hogan, provided a presentation on the Village’s insurance premiums of the HMO and PPO coverage, the rates for individuals, and families in varying denominations. Employee and employer contributions were presented for both. He discussed an increase in the PPO coverage deductibles for employees, but with the actual amount being paid by the Village. The recommended PPO would still be a cost-saving for all concerned. With the Village realizing approximately $73,000.00 a year. HMO coverage is unchanged.

  **Comments/Questions**
Concern was expressed on the lateness of receiving the document. A plan was discussed to send
the document to the Attorney and to discuss the insurance options with the employees via a
presentation. A decision is not needed until August 1, 2020.

Union Contract

- Mr. Finch spoke of the possibility of going to Arbitration. He would like to bridge both
  contracts in 2021 to ensure that they are in sync. He also confirmed the pay increase and
  the need for clarification for the terms of the retro pay. Once the Trustees approve the
  change, the proposal would be presented to the Union and the Attorney.

PUBLIC COMMENT

- P. Couch spoke of the yard being mowed, though it is unfinished. She asked about improvements on
  streets Paxton and Shirley from the repairs from numerous years ago; and an FOIA from March 12th.
    - Mayor Burgess discussed his efforts with correcting the issue with the grass and informed that
      that project is in the queue. The FOIA will be resent.
- J. Cast read information from a legal group concerning volunteers and FOIA responses.
    - Mayor Burgess responded that the Village Attorney confirmed that a volunteer could answer
      FOIAs. He would verify the insurance and bonding mentioned.

documents, the Settlement Agreement, and the ability to have information.

business licenses, etc. Mayor Burgess responded to his attempts to communicate with the Attorney.

  forth, she would need to undergo a former process. She reminded them of her offer to complete the
  FOIAs, the inability to receive reports on them as requested. She discussed pages on Social Media that
  provide inaccurate information, and items on the SVI page needs correction.
- Trustee Grant reminded of the meetings scheduled to meet with Department Heads on their budgets
- Trustee Bell asked about the food tax at Pop’s, a modular home request, and a staff who is working from
  home. Mayor Burgess responded to the food tax and stated it would likely go to litigation. He mentioned
  HIPAA Laws making it impossible to discuss employee’s health.
- Mayor Burgess spoke of his attempts to be transparent. He took exception to statements that the Village
  and Village Hall is in disrepair and the accusations of misappropriation of funds.

The hiring of part-time employees in public works

- Discussed was the need to hire part-time employees. One duty would be to cut Village-owned properties. There is $5,000.00 budgeted for four positions at a rate of $12.00 per hour. There would likely be a grievance that would need to be resolved.

Village Clerk Marva Campbell-Pruitt
- Copier for Administration Building and Department’s Lease Renewals

  On Roll Trustees Bell, Brewer, Grant, Jasinski, Todd, Williams
  Others in Attendance: Village Clerk, Marva Campbell-Pruitt, Village Administrator, Hurckes,
  Treasurer Anthony Finch, HR Sonya Douglas

MOTION TO RECESS TO EXECUTIVE SESSION
Mayor Burgess called for a motion to recess to Executive Session to discuss Personnel Matters. It was deferred to the end of the meeting.

PRESENTATIONS
- Trustee Brewer introduced Mr. Carrol and the director from Centrica Business Solutions, who provided a presentation on infrastructure repair. He provided a PowerPoint presentation. It is an energy-efficient company that could provide optimization of energy and water utilization. They provide LED lighting for streetlamps and water conservation and solar. They would provide a no-cost assessment of the Village's systems and recommend solutions. Mayor Burgess asked about funds to replace water meters and if the grant would provide reimbursement. There are generally no upfront costs. They would seek grants or low-interest funding. Cash flow and duration were addressed.

- Tom Fagan from Azavar presented the tenets of the existing contract and the limitations of auditing that resulted in its inability to perform. He discussed the company's desire to reconnect and perform items noted in the original contract. Their focus is to ensure that ComEd, Nicor, and Cable companies resulted in the Village's revenue. Would a new contract be required? The contract states that they collect a percentage of funds collected, and no new contract is needed. It was established that the finance director is typically the contact person. We need only to start the process as there are no upfront fees. There would be a 60/40 split of funds captured.

DISCUSSIONS
• Jim Czarnik spoke on the TIF resurfacing Project, rather than the 221st Culvert Replacement Project Award Recommendation. He provided an update and the intended recommendation.
• The 221st Culvert Replacement requires a supplemental resolution as the costs are higher. The Village Clerk clarified that the subject was not as relating to the item that Jim was addressing.
• Mayor Burgess addressed the Ordinance Superseding Ordinance 19-022 for the Motor Fuel Tax. The Clerk explained the issue with the previous ordinance. A correction was needed for the taxes noted in the previous ordinance.

• Trustee Brewer addressed:
  o An update for the Union Agreement on Outsourcing (Tree Removal and Hydrants) She asked the Village Administrator to provide further information. Mr. Hurckes announced the agreement made and a proposal for multiple units rather than one at a time. A written proposal is expected.
    ▪ A Trustee mentioned that a one-time agreement would not meet the Village's needs, considering the number of hydrants and trees requiring service or replacement.
    ▪ Trustee Brewer discussed the projects and prices from two companies. The Trustees agreed that the projects should have an RFP and should follow the bid process.
  o Utilization of Funds - CN Agreement. Trustee Brewer proposed that CN funds fund additional hydrants and trees in a specific area. Mayor Burgess asked that funds not be targeted by the different sides of town. Trustee Brewer clarified the intent of the Project(s). The funding would derive as follows: $100,000.00 is in the budget for fire hydrants, and the CN fund allocations would supplement four hydrants and trees.
    ▪ Trustees asked for a written plan to direct both projects' path, inclusive of agreements and bids. Robinson Engineer agreed to take the lead.

• Director Hurckes led discussions concerning:
  o The attorney approved the Comcast Cable Contract. It focuses on franchise fees and impending charges. The rate and charges are forthcoming.
  o This topic will be revisited.
  o 6B for Minority Trucking was introduced, and they are requesting another agreement to utilize the land for an additional ten years with tax incentives. An Ordinance will be drafted.
  o Paylocity – A representative presented a proposal from the company outlining intended deliverables towards the Village’s finances. He provided a Power-Point presentation outlining the services to be provided for Payroll and Human Resources, and Health Insurance. He discussed the incentives if the Board approved the agreement. The program should be readied for implementation in December. The Village would follow-up. The contract with ADP requires a 90-day notification.
  o Occupancy Inspectors- Mr. HURCKES asked about the two independent inspectors. He asked for consideration for in-house inspectors. He expressed concern that the owners were paying them and not the Village. He mentioned the realtors' concern that we did not hire inspectors. It is being researched. He mentioned Mr. Myers or a company to perform the task. Mayor
Burgess provided a historical perspective. The Village Clerk reminded the Body that new Ordinances were approved in January and asked them to be reviewed.

- A Trustee recalled a Bid Process discussed and agreed upon previously. Mr. Hurckes provided justifications for considering in-house inspectors. Concern was expressed with the delay and time required that would unfold if one internal staff is used.

- Chief White reintroduced:
  - An Ordinance Amending Article II (Police Department) of Chapter 42 (Law Enforcement) Of the Municipal Code of Sauk Village to Provide for Lateral Hiring of Police Officers. It has gone before the Fire and Police Commission. It was agreed that this item would be an agenda item at the following Board Meeting for consideration

**PUBLIC COMMENT**

- P. Couch asked about the budget and audit and if the notice to shred items previously impacted the completion of both. She discussed erroneous information concerning the caving in of pavement on her block and the ladies’ restroom’s untidiness.
- R. Brown addressed inoperable fire hydrants on her block
- A. Coleman addressed the Public Works employees and asked how many hours they worked. He asked about employees’ requiring surety bonds.
- F. Williams addressed the chart previously drafting that showed the fire hydrants in disrepair and the untidy restrooms
  - Mayor Burgess Responses
    - Inspection Process- will be fine-tuned, and a plan will be prepared. He discounted and explained the shredding of documents to ensure privacy. It had nothing to do with the budget and audits. The restrooms will be addressed.
    - Surety Bonds are for certain levels of employees, and the Village incurs the cost.
    - Residents should provide notice on inoperable hydrants.

Lumena Energy Solar Program and Space Allocation - Kevin Posey, Vice President of the Company and a staff person, provided an outline of the presentation and the varying options the company offers. The program provides low-cost energy options to homeowners and businesses. They provide solar panels. There are tax incentives up to 30% tax credits for those utilizing solar panels starting in November. There are opportunities for properties installing panels to note an increase in value up to $17,000.00.

The second part of the presentation discussed the givebacks to communities. Each home using the services would serve to bring in rebates to the Village. They will donate funds to the Village. WS Inc. will partner to develop a warehouse to offer 150 employment opportunities for residents. He stipulated the space needs (50,000 sq. ft) to create and operate the warehouse. There are opportunities to increase student knowledge of solar technology and employment paths for future career goals. The solar panels will store energy for usage during power failures.
DISCUSSIONS

• A Supplemental Resolution for Improvement Under the Illinois Highway Code (221st Culvert Replacement)
  • Mayor Burgess explained the intent and need for the resolution. The projected bid was fourteen thousand dollars short of the initial bid and thirty-six thousand dollars in contingency. The item will be brought to a vote at the next Board meeting.

• A Resolution Approving an Intergovernmental and Subrecipient Agreement for Coronavirus Relief Funds Between Cook County, Illinois, and The Village of Sauk Village, Illinois
  • Mayor Burgess spoke to this item. $537,000.00 is the anticipated amount to be realized. Expenses must be kept through December. This item will be brought to a vote at the next Board meeting.

• A Resolution Approving an Intergovernmental Agreement for the Provision of Environmental Health Inspectional Services
  • Mayor Burgess spoke to this item. He clarified that Cook County provides this service. This item will be brought to a vote at the next Board meeting.

• Referendum/Ordinance to place a Question of Public Policy on the April 6, 2021 Ballot Requesting Legal Voters in the Village of Sauk Village to Determine whether the Village Should Pursue its own the United States Postal Zip Code.
  • Clerk Campbell-Pruitt justified requesting a dedicated zip code for the Village to offset the need for residents to get certified of proof that they resided in Sauk Village, rather than Chicago Heights. The parameters required will be explored. It was recommended to communicate with the Postal Office for their requirements. This item will be on the agenda for approval to conduct further research to move forward.

• Municode Estimate for Agreement for Supplement No. 2 to Code of Ordinances
  • Clerk Campbell-Pruitt provided the Agreement for the Municode Supplement. She will request a formal document for approval at the Board Meeting. Trustees asked for figures on an agreement to send ordinances for codification quarterly. The amount of the Agreement is less than the amount budgeted for fy 2021. The Clerk will bring back rates for quarterly codifications. Acceptance of the current Agreement will be on the agenda for approval at the next Board Meeting.

• Resolution and Agreement to contract with Paylocity
• Mayor Burgess addressed the quote, Agreement, and resolution. The request for greater communication was addressed by pin-pointing the language already in the contract. This item will be brought to a vote at the next Board meeting.

• Halloween Hours /Trunk or Treat
  • Mayor Burgess asked for a consensus for Trick or Treat. All Trustees agreed. The hours will be 4:00 p.m. – 7:00 p.m. Trunk or Treat was considered and approved. Everyone must wear a regular mask in addition to costume masks. It would be strictly an outdoor affair. Logistics will be worked out. After discussion, it was decided that the Library events the same day would not compromise either event. Trunk or Treat will be at noon.

• Comcast Cable Contract
  • Mayor Burgess stated the Village Hall and Community Center would incur costs for basic services going forth. The total amount is unknown. Comcast promised to provide greater support to Village activities.

• RFP for Inspections
  • Adm. Hurckes presented the document for review by the Trustees. Changes and comments were sought.

• Review of the Ordinance for positions to include the PW Director.
  • Adm. Hurckes discussed the need to approve the Ordinance. It is to be noted that the Ordinance needed the language, “Amended.” It is uncertain if new positions would be required and added later. The attorney is researching. The Village Clerk will add “Amended” to the Ordinance. This item will be brought to a vote at the next Board meeting.

• Hydrants and Tree Cutting Updates
  • Mayor Burgess addressed the Union Agreement for repair or replacement for twenty fire hydrants. He was uncertain of some of the language of the memo. Tree cutting was not included in the memo.
  • Adm. Hurckes stated that the engineer is considering the dollar amount for twenty hydrants. Until then, staff will attempt to fix hydrants. Bidding for $140,000.00 is an estimate. The cap would be for twenty hydrants. The $120,000.00 is from CN's promised funds for tree cutting; the other funds were included in the budget.

• Motorola Star Cam
  • Chief White discussed the need to re-author the previously approved resolution and Agreement. He provided an update of the system. The update is because the original proposal stated no need for down payments. The company could not finance the Village, as noted in the prior arrangement. The Village is asked to pay fifty percent down. An amended
version was developed. Chief White, CalComm, and its director met to look at structural agreements for consideration of upfronting the funds for the Village and spread the funds over five years. He requested permission to negotiate another arrangement. It would require another resolution and Agreement. Details and interest, if any, must be decided. Star Cam cameras would be linked to those used by ESDA. A trustee asked if there was another bucket where the funds could be generated? The DEA funds are committed to new vehicles. Therefore, it is not an option. He also shared that other undecided commitments were requiring the funds budgeted to remain as presented. A timeline was presented. Mayor Burgess offered to research the use of funds from the COVID Grant.

A trustee attempted to provide the reason that the salary was not altered as needed.

Further discussion ensued about the cost of replacement, the dimness of the LED lighting, and the need to provide separate presentations to the other entities with public buildings. The Public Works Director had
questions that were not answered. The staff's ability to perform the tasks would depend upon entering into agreements for each building individually. The Public Works and Water facilities would qualify. The Board will have a further discussion to make the deadlines as stipulated.

### DISCUSSIONS

- **Trustee Williams - Financial Updates** (Forensic Audit 2018-2019 Audit & Other Financial Records asked that the item is on the agenda. Adm. Hurckes provided the update. Director Royster provided information that both audits are moving forward. The Clerk asked if the Audit Company should be rescheduled as they did not attend the October 6 meeting. Bank statements and monthly meetings were requested. Mr. Finch advised that he had asked the Forensic Audit Company to attend the meeting. He mentioned the numerous Trustees who called the company. He reminded the Board that the audits would not be completed in a couple of months. The magnitude of running the Finance Department is extreme. Trustees offered to assist the department.

- **Trustee Brewer - MFT Funds for Infrastructure repairs** asked for a discussion of the distribution ($100,000.00) of the MFT funds for use with the fire hydrants' repair. She asked that the funds be restricted to provide cosmetic improvements for hydrants once repaired or replaced.

A trustee asked where the funds were derived and advised that MFT Funds are already restricted and was uncertain if they could be used in the requested manner. The Village Adm, Fin. Director and Treasurer promised the funds for use in March. The Public Works Director stated that the Engineer should advise of the appropriateness.

Trustee Brewer stated that $144,000.00 would come from C.N., $100,000.00 was budgeted, and MFT Funds request for $100,000.00 for a total of $344,000.00. The appropriateness was questioned. Trustee Brewer stated that she would get everyone to sign off on the offer. A plan was advised and how the funds could be expended. The Clerk asked for the actual amount of funds generated from C.N. Funds, as those mentioned are not consistent. The actual amount would be shared. Trustee Brewer promised a plan outlining three steps and the various funds so that everyone is aware.

- **Administrator Hurckes/Director Weller & Trustee Grant – Fire Hydrants** – Mr. Hurckes advised of the e-mail he sent regarding the Bid that should be sent the following week. He advised of a two-phase program utilizing a vendor and Public Works completing in conjunction with them. Staff would work on Saturdays, and the number of staff needed, and the costs. He stated that Trustee Grant had presented a previously shared plan with the Administrator that was not shared with the Trustees but was shared with the Union. There was no written response to that proposal. Dir. Weller provided the logistics for the completion of four hydrants monthly. He was asked if hydrants' maintenance was inherent in staff job responsibilities and was told it was impossible for varying reasons. Trustee Grant presented the proposal he had shared and advised that other financial factors must be considered. He asked for a discussion on his proposal. A Trustee asked why the equipment was not
included in that proposal and the proposed timelines. She questioned elements noted and not included in both proposals and suggested several hydrants to be completed by the end of the year and the increased costs presented for parts. The staff was offered the proposition, but there were no confirmations that staff would work overtime. Trustee Brewer stated that the hydrants must be done. The Treasurer recommended that funds from the water fund are used and the task completed. He was not in agreement with out-sourcing. He advised of project management. Both proposals were asked to be viewed side-by-side, including a review of the benefits required and when the overtime would be done. Another Trustee asked to move forth and amend later. She asked that they start Saturday.

The Village Clerk took exception to kickstart a program that had no plan. She was out of order as she attempted to remind the Board of the plan of action previously discussed before starting that Saturday. There was a lot of discord.

A question was raised about why the funds budgeted last year to repair hydrants but not completed. The Mayor called for a five-minute recess at 9:10 p.m.

The meeting reconvened at 9:17 p.m. with Trustees Brewer, Bell, Grant, Todd, and Williams voting present. Mayor Burgess asked for a proposal before that Friday, and the consensus is given to the Clerk. There was no need for it to be on the next agenda. Staff needed to know when they would start working on Saturday.

- Trustee Todd - An Ordinance Amending Division 6 "Mobile Food Dispensers" of Article IX "Food Handlers" of Chapter 18 "Business and Business Regulations" of the Sauk Village Municipal Code to Regulate Temporary Food Dealers. Trustee Todd reviewed the previous Ordinance and highlighted the changes proposed. She outlined the changes to be considered, the costs per hour, and the Cook County Health Department’s standards for such operation. The Committee asked to meet with the Interim Community Development Director. The Park Forest plan of operation was shared as a template. She requested the Board’s input and stated the need for further research.

- Trustee Todd- Review Ordinance 00-12 Hours of Garbage Pick-up. The discussion took into consideration the hours of trash pick-up after a holiday. It was agreed to change the time to 6:00 a.m. – 4:00 p.m. The changes should be incorporated into the handbook. Days of the week are not a factor as they vary.

- The Village Clerk reviewed the proposed changes to the Residents’ Handbook. She discussed elements of the revised handbook and asked for input. Trustees were asked to share recommended changes.

**Question/Comment**

The CARES grant is for COVID related instances.

There was a report that the CARES Grant was already committed. The Clerk advised that it had been promised. The Village met the deadline for the intent. The dollar amount and constructs were not needed to be provided.

The list had already been requested for reimbursement for payroll for the Fire and Police Departments. The Village Administrator advised that additional federal funds were forthcoming.

The question asked was, should the project continue to be researched. The Clerk asked if the concepts should continue for exploration. Mayor Burgess suggested that research for funding is worthy. All Board members stated that it was okay to move forward.
Information from the Library Sign maker will be shared with the Village Clerk for a quote.

- **Clerk Marva Campbell-Pruitt**
  - **Web-site Postings and FOIA Requests**
    - The results of posting to the website have been problematic. Minutes sent had not been published promptly. The IT Consultant agreed to provide access to the Web.
  - **Digital Sign/Marques**
    - Presented quotes for the signs. If funded by grants, the Village would not be encumbered. The Pros are that the Village could communicate with residents to a greater degree. The project could be funded through current grants. Funds totaling $90,000.00 were requested from the CARES grant. Two companies were presented. No action was needed at that time.
  - **Village Resident Handbook**
    - Additional feedback was requested so that the Handbook could be presented for approval.

- **Adm. Hurckes**
  - **Tree Removal Program**
    - Has received from the Public Works Director four proposals that are predicated on the size of the trees. Seventy-four trees include no stump removal or restoration. The recommended company is Midwest Tree Company. The funds would come from the CN funds. It is over the amount obligated, so one tree may need to be foregone.
    - Mayor Burgess asked if there was a deadline for the proposed quotes
    - If CN funds were allocated for the fire Hydrants Project, how much would the tree cuts cost? Trustee Brewer stated that if additional funds were needed, the difference for the fire hydrants could come from the Water Fund.
    - A Trustee posed that the funds were being allocated from the same source that required clarification. The response was that $142,000.00 from the CN allocation for fire hydrants was agreed to fund fire hydrants.
    - Is the Union on Board. CN funds cannot be used for the trees. Use the Water Funds for the hydrants. The Board should decide how and when to complete both projects according to the timing, weather, and the Union agreement. The Village Administrator stated that the Union had agreed to the provision for trees for the Village. CN stated that they agree with whatever is for the best interest of the Village. The agreement would be provided.

Before this proposal is included on the Board agenda, further details would be required. Unrest ensued. There will be a follow-up to deal with the uncertainties. It will come back before the Board.
- 6 B for Minority Trucking asked for an extension for ten years. The Village Administrator recommended that it is voted on at the next Board Meeting. A resolution is required. The Village Clerk requested that the necessary documents be available to bring items to a vote.
- A Question of what a 6 B designation is and was responded to by the Village Administrator.
- COVID-19 Virus Plan of Operations the HR Consultant, Sonya Douglas, provided information on the process and items ordered. Volunteers and guests have been limited.

Questions/Comments by Trustees and Mayor Concerning the Fire Hydrant Repair Program from the November 17, 2020 Committee Meeting

- Does the church own the land? What source of water is needed? The Fire Department realized limitations in the past when assisting the Beautification Committee. Public Works may be a source of water. What would happen if the Fire Department could not water on a date? The watering schedule should be able to accommodate.

- A Trustee suggested that the church contact the Metropolitan Water Reclamation District for rain barrels and watering twice weekly. The topic should be revisited closer to the date of inception.

- Where will the land be cultivated? Water is circulated two to three times a week.

- A meeting and agreement are required in December for funding and approval.

- The Fire Department had been contacted, and they agree to assist and meet the needs of the provision. The attorney had been contacted and stated that rather than an IGA, a resolution is required. A resolution will be drawn and presented at the next Board Meeting for consideration for adoption.

Questions/Comments by Trustees Concerning the Fire Hydrant Repair Program Presented by Mayor Derrick Burgess from the November 17, 2020 Committee Meeting

Did the Engineer review the Plan?

What is the timeline for the hydrants' start time?

May need to reserve funds because of the COVID. Requires additional information.

The restoration was not clearly defined and where the specifications were derived.

The CN funds were earmarked for tree trimming, so it could not be factored into the proposal.

The Board was reminded that the Treasurer forecast a shortage in revenue.

The existing Plan should not be impacted by the new Plan presented by the Mayor.

Finish the current project and move forward with the new Plan.

Could a Trustee sit in on negotiations for the ‘Phase III’ plan?
Estimates for the repair phase were in the proposal, along with the timeline. The Engineer was not engaged because it was not approved.

The Union approved Seventeen hydrants. Was the Union contacted for the additional proposed Plan? It would cause grievances.

The Union and Engineer would be contacted upon approval. Recommendation to place the approval for consideration of adoption at the next Board Meeting.

The Treasurer stipulated that the funds available were for $100,000.00. Where would the remaining funds be generated?

The funds are likely to be available.

The $100,000.00 was budgeted. The funds from the Water Fund is projected to meet the expense of the proposed Plan. The costs would diminish as some hydrants would be completed by the time of the proposed Plan. Increased staff for $240,000.00 would be challenging to accomplish. The Village and the South Suburban Assurance was asked to ensure that the Plan would not be implemented until the agreements were made, should not obligate $600,000.00 before moving forth.

No current project is asked to be stopped.

If presented to the Union and they are not in agreement, would they negate the current agreement.

It is unlikely that the Union would negate the agreement.

The Plan should have been discussed during the previous planning.

It is not the Mayor’s Plan. He has been gathering information for the current one presented.

All hydrants should be fixed using the Water Fund. New Public Work staff must be considered. Outsourcing many projects could be used to fund new staff.

The Village Clerk reported that the Clerk’s office does not have a copy of the agreement between the Union and the Village for tree removal. She requested a legal copy. A copy should be forthcoming by the Village Administrator. It was approved through a consensus. It is to be provided.
