Bonds are usually twenty years so they would be paid according to the year.

We can project paying off the Bond with one last payment. Ms. Thompson will provide information on the cause and the overall levy to be realized. Director Royster has the figures for the 2007 Bonds and would share the details with Trustees.
The Clerk asked that Kane McKenna include the Finance Director correspondence related to financials

IV. Public Comment
    • J. Cast questioned abatements.
    • Ms. Thompson stated that levies would be easier to describe.. Abatements are needed to pay the bonds off annually to avoid levying.

    The Ordinances for the four Bonds will be voted upon at the following Board Meeting. There are a couple of minor adjustments to reflect the correct figures that would go with the motions

V. Adjournment

Hearing no further questions Mayor Burgess called for a motion to adjourn at 6:48 p.m.

DISCUSSIONS

- Interim Director Cooper discussed the next steps for A Redevelopment and Economic Incentive Agreement/Dardur Real Estate, LLC. There were specific issues addressed that were concerning to Trustees (Items 2, 6 and 8 had strong objections). Some items and discrepancies would be re-adjusted, sent back to the Attorneys and reviewed again. The Board was asked for but was not granted a conditional motion to move forward the project.

- Commissioner Pondexter, Zoning Board of Appeals Commission
  - Recommendation for Variance to the Sign Ordinance (Electronic Marquees) This item was removed from the agenda.

- Trustee Todd lead the discussion for the Ordinance Amending Division 6 “Mobile Food Dispensers” of Article IX “Food and Food Handlers” of Chapter 18 “Business and Business Regulations” of the Sauk Village Municipal Code to Regulate Temporary Food Dealers. It was decided to amend Ordinance 18-003 to increase the fee schedule to $100.00 and to provide notification of the reference to it in the resolution. This item would go to the Board for a vote at the April 27th meeting. Because it is a minor change, the Clerk would make the needed changes. Trustee Todd mentioned the due date for Business licenses.

- Trustee Williams discussed anew the resolution passed April 25, 2017 approving Honorary Street Designations for David Hanks, Rosie Williams-Baig and James Schultz and an Ordinance Amending Chapter 66 of The Village Code to Include Provisions Regarding Honorary Designations on May 9, 2017. The Ordinances were approved for Williams-Baig and Schultz, but not Hanks. After discussions on why there had been no action taken concerning two that had been approved, the criteria, signature requirements, how many others were deserving of such an honor, making concessions by hosting an Appreciation Dinner, etc., it was agreed that a committee should be created to make recommendations, and that the Ordinance to grant an Honorary Street sign for David Hanks would be created and presented at the next Committee Meeting for review. It would then go for adoption at the next Board meeting. All signs would then be produced and placed.

PUBLIC COMMENT

- L. Sapp questioned the process and rush to grant the sign designations. He stated his willingness work with anyone; he stated that there had been no transition for the new Trustees, when there should have been. The Clerk reminded him of the planned New Officials Training scheduled for May 6th at noon.
  - Mayor Burgess addressed the street signs and the motion to amend the ordinance; the transition is achieved with meeting attendance and answering questions, it would be impossible to provide all details in a two-hour period. It is comparable to being a “baptism by fire.” The first year is considered a transition. Other Trustees and Mayor cited other training opportunities by the Attorney Office and SSMMA.

- J. Cast agreed with the sign designations; asked about real estate and stated that meetings should be at Village Hall.
  - Mayor Burgess responded that meeting location is determined by the Governor and CDC’s guidelines.
GENERAL COMMENTS FROM MAYOR & TRUSTEES

- Trustee Williams reported that the Blood Drive was not well supported and that the next would be July 24th. She spoke on the fee schedule, and vendor contracts.
- Trustee Grant offered service to continue efforts.
- Trustee Todd extended prayers to the fire victim’s family and the injured fire-fighter.
- Trustee Bell wished the fire-fighters well.
- Trustee Jasinski stated that she looked forward to working with the new Trustees; she like the formation of a committee to honor those who serve; she mentioned the Fire Chief’s FB update.
- Mayor Burgess extended condolences to the fire victim’s family and announced that donation could be dropped at the fire station and Village Hall; in-person meetings would resume soon; the Swearing-in Ceremony would occur at the May 11th meeting, afterwards, Board assignments would be disseminated.

RECONVENE COMMITTEE MEETING

DISCUSSIONS
Trustee Debra Williams introduced the resolution to approve the Honorary Street Designations for David Hanks. Many of the same questions and comments arose from the April 20th meeting with the same solutions provided. Establishing a committee to address qualifications, criteria, etc., will be assigned by the Mayor during the upcoming committee appointments. The Resolution would be placed on the May 11th agenda for adoption.

Finance Director Michelle Royster spoke of the following three items, not necessarily in the order presented on the agenda.
• An Ordinance Creating the Position of Accounts Coordinator in the Village of Sauk Village, Illinois
• Group Health Insurance Renewals – None of the intended representatives from the companies were present. Dir. Royster discussed the advantages of using United Health Care as the premiums would not be as high. She noted the need to talk with the Union as there is a clause stipulating that Blue Cross Blue Shield would be the provider.
• Financial Updates – Trustees were informed:
  o That the consultant was helpful and was still needed to assist with the audit.
  o That the Aging Report is less than it was previously and that there were fewer liabilities.

Trustees had many comments, not necessarily in any order. They discussed why the Union employees wanted to retain BC/BS and their unwillingness to change doctors; the pros and cons of using United Health Care; if the services were comparable; would the Police Insurance
change, and when was renewal. Health Care renewals are July 1st, though enroll is scheduled to occur in June.

Discussion centered on the Audit’s anticipated completion date; invoices that were not paid; an invoice that would never be approved as there was no letter of engagement; bills would not be approved without Board approval.

The Director explained how some vendors bill late, had missing documentations, etc., She informed Trustees that because of processes a bill is not considered late after 30-60 days.

Regarding the position of Accounts Coordinator, the Ordinance to create the position was not discussed, but was questioned by Trustees. Attention to Section 2 requesting a job description was addressed. Consideration was asked to attach the job description the Ordinance as an exhibit.

PUBLIC COMMENT
- C. Boetcher asked when in person meetings would resume.
  - Mayor Burgess responded that the Village must await state notification.

- Trustee Jasinski stated that she sent an email to Mr. Cooper to determine if renewals were sent to business. They had been according to Cooper.
- Trustee Bell asked where the money for the Inauguration was derived. He was told from the General Elected Officials and Covid Grant funds. When he asked why Trustees were not notified, he was told that Trustees voted on them when the A/P was approved.

- Mayor Burgess re-announced that the May 11th meeting will occur outside, but there was still a need to wear masks.

PRESENTATIONS

• Antonio Cooper introduced:
  o Patricia Eaves, Meena Beyers, and Nicholas Cripe of Nicor Gas & Team Smart Homes Subdivision Development, along with Dave Neary of Habitat for Humanities. Collectively, they provided a hard-copy and talk on the same presentation as was done at the March 16\textsuperscript{th}, 2021 meeting. The in-depth presentation focused on a concept to revitalize the Village that builds upon the Village’s Comprehensive Plan and the Sauk Village Strategic Plan. The plan takes into consideration redeveloping fifty-three lots with intended funds to be allocated for tens of millions of dollars in investments. The next steps would be to develop a Memorandum of Understanding to highlight the needed elements and to schedule an Informational Forum for residents. Trustees expressed excitement and approval of the proposed plan. They had questions and recommendations. They asked for consideration of forming a steering committee to further move forward and to address residents’ questions; how many homes would be involved; would there be assistance with acquiring the homes, and for grant acquisition.

Mayor Burgess questioned the agreements on two issues with the MOU. He was told that the company had acquiesced to the two. He questioned the proposed lots and their sizes. Two or three sites may be comprised for possible forty-seven as the final. All the homes will have the benefits of the technology. Nicor would work with habitat to assist with understanding the technology. Habitat would vet the homeowners with specified criteria. There is no re-location of anyone. Employment opportunities for residents. Yes, immediately for those like outreach and partnership opportunities that are not construction

Prototype. What does success look like? They create affordable mortgages.

Questions from Trustees:

Steering Committee? Town Hall Meetings to engage the community. Want to do a MOU before engaging the residents.

What were the glitches and input if this is a good way to move forward? The two items that were red lined by the attorney. This would not be a redevelopment agreement, just a MOU.
What happens to displaced families. What provisions would be made, what is in place so that underprivileged families would be entertained. Consider a land Trust to surround the area. That is a challenged for them.
This would be the Nation’s first Smart Home, affordable Home project. The research for this demonstration pilot site should serve as a learning tool for other communities.

1. Antonio introduced Pastor Dave Nearpass of Homestead and the Faith Church in Dyer Indiana. He is asking for Sauk Village to donate of two (2) Residential Properties located 21754 Peterson Avenue and 1600 217th Place. He provided an overview of the mission of Homesteads and its commitments. Once a property has been renovated, then it would be sold to an individual or family that has completed the NACA Certification process. No closing or credit.

2. Properties would be renovated and then NACA would provide SV residents with priority in purchasing. Mayor requested that the residents be from Sauk Village.

Trustee Questions
If the project was done before? What happens to taxes and liens on properties? Would the Village incur the expenses? What is the time frame? One this year. There are some who are already NACA certified. Three months is projected. The Village could exempt the properties with no liens and taxes. Eligibility: the list of applicants are they from Sauk Village? What is the biggest goal? To bring in new homeowners or to fine homes from Sauk Village. Statistics were provided that did not focus on Sauk Village residents. With NACA, SV residents can not be left out of the process or with extensive waiting lists. Can limit who homes are shown to so that our residents would have an advantageous. The Mayor asked for dedicated resident to benefit.

Proceeds from the house would go to purchase other homes. The goal is for Homesteads to become self-sustaining.

No cost to the Village for anything. If additional donors manifested, that would be great. Looking to place one family.

Why can’t we donate to the homes to individuals and allow them to make improvements. All their proceeds go towards assisting them.

Joe questioned the convenience costs to the village, if Legal had reviewed it and the project’s involvement with the Landbank. Homes going back on the tax roll is beneficial. He and Cooper would be taxed to present a document to attorneys so that it is presented to the Board for approval.

Would NACA place others in homes prepared by other developers. They offer a workshop.

Predatory homeowners can be helped by NACA as well.

DarDur
J. Wiszowaty and A. Cooper met with the Dardur group and provided an update. DarDur was working on engineering. The redevelopment agreement and questions from Trustees were answered. The agreement had not gone through current counsel. Permits needed, reengineering of the water way is needed. Questions from and for all trustees were expected to be the topic of discussion. The questions would be shared with all trustees.

The TIF District would compensate for the outlay of funds.
Trustee asked that they come back and represent so that the newly elected officials and Atty., so that all could be apprised. They would be invited back in two weeks.

DISCUSSIONS

Mayor Burgess asked that the agenda be altered in deference to allow Fire Chief Barret’s discussion to be moved.

Fire Chief Stephen Barrett
   - Fire Equipment Repairs – Update on Costs and Timeline
     - Chief Barrett described the items requiring repair on one of the engines as the parts are no longer being made. The cost, $10,000, would be taken from 1050 Fund from billing for motor vehicle accidents. If approved the following day, repairs would be completed by Thursday to ensure functionality of the equipment. The company is one that repairs and make recommendations for many incidences for repairs. He advised that not all companies have the capabilities to work on apparatuses such as this. He requested approval for immediate repair. A consensus was taken, no one opposed, and the formal vote was to be taken at the next Board Meeting. A contingency
plan was discussed to offset an emergency. This item would be placed on the next Board agenda for adoption.

**Village Clerk – Marva Campbell-Pruitt**

- A historical perspective was provided on the desire for Meeting Management Software from I-Compass. It would provide technology for agenda production and meeting materials distribution. It would allow for on-going updates for reports, immediate access to minutes. She cited the lack of capabilities to continue to store paper documents. Included in the need would be the need for tablets for the Mayor and Trustees so that they could utilize documents dropped into the system items from prior to current meetings. The Clerk planned to further discuss the concept and provide budget details at the upcoming Special Budget Meeting and would request funding for both the Meeting Management Software and the purchase of tablets.

**Public Works Director – Anthony Finch**

- The director discussed the following items for discussion and approval at the next Board Meeting:
  - 21443 Peterson & 1600 Constance Light Repairs have been ongoing. The estimated cost would be $17,668, as access to underground is needed. If solar panels are used the cost would be $5,000. Additional research is required on the brightness of the solar lights.
  - 1831 215th sewer repairs would be conducted by Calumet City at a cost of $23,085. The director spoke of the existing issue with collapsed pipes. This item would be placed on the next Board agenda for consideration for adoption.
  - Replace Four Clocks was estimated at $14,660. Justification: Some clocks are broken, in the past PW would manually make changes for time changes. Two, are broken and would need to be repaired. The cost for medallions was discussed and the priority of which ones to be corrected. Would save man hours relating to setting. Additional information is required.
  - ITRON Meter Reading was estimated for $25,340. IT, Gerald Pyke must upgrade the system to read any new operation. Detailed information is forthcoming.
  - Concrete Work- a bid for seventeen locations at a cost of $24,000. that includes curbs was received. The project may start at the end of August. This item would be placed on the next Board agenda for consideration for adoption.

Questions asked on how these initiatives would be paid. Response- $100,000.00 would be recommended from the water fund. Approval is required and it would be discussed at the Special Meeting for budget consideration.

Any potential for grievances if any are outsourced. ITRON updates and Honeywell will speak to the Board in August. This would be a temporary fix for the one in the office. No other determinations were made.

**Community Development Director – Antonio Cooper**

- Contract Bids for Demolitions had been demolished already. Had previously requested approval. Requested approval for the payment to TK Construction who had completed the work. $25,000.00 is the cost to be paid. Questions ensued towards the three approved for 37,000.00 and now this one would cost $25,000. It was stated that this one property would be more expensive because of preservation of the foundation. Seemingly, the initial approval to conduct the work was not granted. Now the ask is for approval to pay. It would be reimbursed through the IDA Grant. The amount would go forth on the Accounts Payable. This item would be placed on the next Board agenda for consideration for adoption.
o Request for Proposals for Sale of Property proposals to be redeveloped. These properties are the
ones initially to be donated to the church. And now sold to investors for the following properties.
- 21754 Peterson Avenue
- 1600 217th Place

Village Administrator – Joe Wiszowaty & Director Antonio Cooper addressed the following:
- Acquisition of Properties – South Suburban Land Bank Looking for solutions to mitigate vacate homes
  in partnership with the SSLB. SSLB will research and vet the properties. There would be no cost to the
  Village and the Partnership. Two other options are being entertained. Additional information and
  policies are needed and is forthcoming.

o Redevelopment & Economic Incentive Agreement Dardur Medical Center discussed the agreement and
  provided justifications and the need for the services. Questions and concerns and justifications were
  addressed.
  ▪ Valuation of the property. Has been assessed. 240,000.00 with the improvements
  ▪ A line item was created for $160,000.00. Funds would be sourced by TIF Funds, not the
    Water fund. Advantageous of looping the water main to improve water on some
    locations.
  ▪ Property taxes now zero. The project would provide leverage to develop the area.
  ▪ The Village give them the entire lot and can sell it for their profit. It is a TIF 4, Village has
    control. There are safeguards. A personal letter of guarantee from the Doctor was
    requested and that the property be returned to the Village if the plans go awry.
  ▪ Once they close on the property, they are committed. If there is a lien once put up for
    collateral, we would not get the property back.
  ▪ The Board discussed the several previous statements that were changed. There would
    be property taxes that would produce taxes. The Village could look at thirty to sixty
    thousand annually.
  ▪ Additional incentives were asked. Responses were provided.

This item would be placed on the next Board agenda for consideration for adoption.

Village Administrator – Joe Wiszowaty

○ Technical Assistance for DCEO Grant – Robinson Engineering

Senator Nick Smith presented a grant for sidewalk repairs for $750,000 for Orion to Sauk Trail and Carlisle
Estates. The ask would be for Robinson Engineers to provide technical assistance, not to exceed
$7,000.00.

A question arose on how the approval of the grant would be different from the other projects for funding
for which we have not received the funds. A study to do the streets was already conducted and paid for
with no funds received. Reluctance was stated to move forward as assessments were previously
approved, and Robinson Engineers conducted the work for which the Village is obligated. Would
Robinson Eng. complete the work, wait to get paid, and take until the study is completed. Capital Grants
for previous projects did not manifest.

The meeting was recessed by comment consent to entertain a Board member’s request for personal
privileges at 8:45 p.m.
The meeting reconvened at 8:51.

The request to place the approval for technical assistance for the grant was granted. This item would be placed on the next Board agenda for consideration for adoption.

- CalComm Agreement Renewal introduced a five-year. It was determined that the requested renewal was not in the best interest of the Village. Additional bids were requested. Discussions ensued CalComm did not hold up their bargain. The Village never received a discount as promised. The contract was auto-renewable. A request to change the language of the term was made. Negotiate for a lower rate and a Four-year term was recommended, along with a 1% increase. This item would be placed on the next Board agenda for consideration for adoption.

- Block Party Request Proposal was discussed, and new documents were presented for consideration.
  - Developed a policy directive and the Police would sign off. The Policy and Resolution were forthcoming. Cost factors must be included for a permit to ensure proper clean up and sound agreements. It was referred to Committee for further details and recommendations for fee payment of deposits and other considerations. There was unreadiness to vote on the Block Party with policies to be established.

CALL TO ORDER The Honorable Mayor Derrick Burgess

The Honorable Mayor Derrick Burgess called the Special Board meeting to order at 6:00 p.m.

   Present: Trustee Bell, Coleman, Grant, Jasinski, and Williams

2. PRESENTATION OF FISCAL YEAR ENDING 2019 AUDIT REPORT

Susan Jones, a representative from Miller Cooper, presented to the Mayor and the Corporate Board of Authorities the final copy of the Financial Report (Audit Findings) for FY 2019 ending April 30, 2019. She discussed the auditing process of her firm and its accord with the federal guidelines for auditing in accordance with the United States. Ms. Jones drew attention to the document that highlighted the Village’s responsibility for the financial statements and the Auditors’ responsibility to provide an opinion on the statements presented.

Ms. Jones did not reference all 144 pages of the report; rather, she drew attention to the Management letter, noting that staffing constraints should be considered. She discussed Items relating to the Fire and Police Pension and TIF management. Ms. Jones highlighted select pages in the comprehensive report, skipping many pages. She stated that the Village’s net position was in deficit.

Ms. Jones stated that many material findings were not new, as they were systemic issues from years past and that those processes were not corrected. She pointed to the inability to have a clear separation of duties when the finance department is small. Thus, best practices cannot consistently be implemented.

Considering Grants acquisitions, the Village must take care to ensure their posting adequately.

There were some positive fund balances relative to the Budget to Actuals for the ending year, slight decreases to the fund deficit from the beginning of that year, and the offset of expenses to the water fund. She highlighted other areas that caused a decrease in the overall deficits. Trustee Grant took care to express that the deficits were decreased.

Trustee’s Questions were toward:
   • Payback of funds of transactions from one fund to another
• Operational Transfers
• Staff Member’s compensation for instances for unentitled time
• What is in place to offset inconsistencies in payment?

Dir, Royster addressed many of the concerns and ensured that the delegation of staff duties should provide the needed corrected actions. Ms. Jones stated that it was not within the purview of the auditors to instruct the Village on how to make corrections.  
Adm. Wiszowaty stated that issues would be addressed, and Trustee Grant stated that corrective measures were being considered.  
Mayor Burgess stated that it is not uncommon that other Villages the size of Sauk Village are not adequately staffed to meet the requirements of solid financial practices.

3. PUBLIC COMMENT
   NONE

4. Comments from the Trustees and Mayor (not on the original agenda)
   • Trustee Williams stated that lack of staff should not be an excuse and that issues should be corrected.
   • Trustee Sapp hoped that there were lessons learned and better results would be noted.

   • Trustee Grant thanked the auditors. To the Board, he stated that corrective measures required the needed resources to create a difference.
