Service Agreement Between Village of Sauk Village and Safebuilt

The speaker was not available to discuss the Service Agreement Between the Village of Sauk Village and Safebuilt Illinois, LLC. Director Anthony Finch spoke of the necessity to bring buildings to code to eliminate the hazards and for being non-compliant. He reported that many places had no inspections since 2013. Consideration to residents could be made to provide one year to come up to code. Another consideration was to bring the code from 2006 up to 2018 standards.

Much discussion ensued regarding the reasonableness of the recommendations as older homes would be taxed.

Resolutions discussed:

- Compromising should be considered.
- Proved and ordinance that stipulates the timeline

- Codes should be enforced for new construction and rehabbed homes
- Invite the representative from Safebuilt to the May 3rd meeting.

Zoe Mensing - Public Services Committee, Trustee Antoinette Austin

Antoinette Austin
Thank you, Mayor. The Public Services Committee meets officially on the second Monday of each month at 6pm, where we discuss the Village infrastructure with regard to repairs to fire hydrants, streetlights, sidewalks, streets, trees, and water as well as services to our residents provided by the Village of Sauk Village such as water, sewer, and garbage. The Committee posts notices at each entrance of Village Hall 48 hours prior to each meeting as required by State’s Open Meetings Act mandate so that any resident who wants to attend can do so to express any concerns they may have pertaining to the upkeep of the Village or ask any questions regarding billing or services. We gather information from residents and each other about what repairs may be needed and where they are needed, also we take requests for speedbump placement, and we get that information to the proper departments who then addresses the problem.

We are also charged with coming up with plans and suggestions which are relayed back to the board of Trustees who then votes on the best plans for projects to be undertaken, the committee hosts events to get the community involved the care of the village and awareness of projects that are in effect or about to take place such as clean up days, block parties and other events. We try to keep the residents informed of everything that is taking place in the village with regard to but
not limited to public service, and we strongly encourage all residents to attend meetings and get involved in the progress of Sauk Village. That concludes my report.
